THE CABOT CREOSOTE SHINGLE STAINS

"Architects will regret that soft, artistic coloring effects are not adapted to houses of modern style of construction on which shingles are largely used. It may be of interest to know that Mr. A. B. Mead—architect—uses stains in preference to paint. Modern architects find the beauty of his models and colorings only half the price of lead and oil. For sale in lots to suit.

AGENT FOR

The Advance Threshing Machine.

The best and fastest thresher in America, and a machine that stands without a rival. The ADVANCE Thresher has NEVER been REPLACED by any other machine on the Coast, but has replaced several others that HAVE FAILED to fill WARRANTEE. Why get some OLD STYLE machine because it is cheap when you can get an ADVANCE on the start and do good work in any kind of grain. You do not have to cut and try with the ADVANCE, but start your power, then commence threshing at once. I take the liberty of referring you to the following parties owning ADVANCE Threshers (without their knowledge): Dr. H. A. Davis, Harrisburg, after wasting most of the season trying to run a cheap machine, bought an ADVANCE and averaged 2200 bushels per day. M. F. White & Co., Dixie, same experience, but after getting an ADVANCE averaged 2040 bushels per day. Knox Bros., Albany, with a little 28-inch machine averaged 1650½ bushels per day. Henry T. Bold, Spangle, writes, after trying a ——— machine the best part of the season bought an ADVANCE. Was then able to run without a blacksmith and carpenter shop. The ENGINE is guaranteed to pull more than any other, and will outtravel all others on the road. If you hear any lend tongue, please tell the parties the ADVANCE THRESHER and ENGINE are sold on their merits entirely. And I am willing to prove all I claim in any field at any time. Do not be humbugged by buying any machine until you see the ADVANCE. I also handle steam fitting goods iron pipe, laundry machinery and many other specialties. Send for catalogue of what you want.

SIGHT IS PRICELESS.
If You Have Defective Eyes and Value Them, go to
REED & MALCOLM
For your Spectacles and Eye-Glasses. It is the only establishment in the Northwest where they are manufactured on thoroughly scientific principles. Lenses ground, if necessary, to correct each particular case. No case of defect where glasses are required too complicated for us. We guarantee our fitting to be absolutely perfect. Our new optometer, an instrument to measure the strength of the eye, is the most complete, the best that science has produced, and is the only one ever invented that will give the exact amount of imperfection in one's sight.

SULLIVAN IS RETICENT.

His Friends Trying to Obtain His Release From Jail,

UPON A WRIT OF HABEAS CORPUS

The New Grand Jury Begins Its Investigation of the Conspiracy—More about the Arrests in New York.

CHICAGO, June 12.—Alexander Sullivan declined to see any callers this morning except his law partner, and none of the hordes of curious persons who gained admittance to the cage were able to get a glimpse of him. To a friend who sent him a note from the jail office, expressing unshaken confidence in him and a firm belief in his innocence, the ex-president of the Irish National League returned the following reply:

"I am very grateful for your kind words. Time and the truth will justify you in their use. Sincerely, ALEXANDER SULLIVAN."

This morning A. S. Trude and others, Sullivan's friends, held a consultation with Judge Tuley, however, said that a writ of habeas corpus would be applied for.

This afternoon Sullivan made an application by his attorney, returnable at 4 o'clock, for a writ of habeas corpus. It asserts that the verdict of the coroner's jury is insufficient for his commitment without bail, and that though a large amount of extra legal evidence was taken by the coroner, no testimony sufficient to justify his incarceration was produced, and his imprisonment is the result of passion and prejudice. He declared that he is entirely innocent of any connection with Cronin's death.

After listening to the petition, Judge Tuley issued the writ as prayed for, returnable at 4 P. M.

Judge Tuley this afternoon announced that he would read the testimony taken before the coroner's jury in the Cronin murder case, and decide whether or not there was enough evidence to hold Alexander Sullivan without bail. He will announce his decision Friday forenoon at 10 o'clock.

THEIR PHOTOGRAPHS IDENTIFIED.

Appearances Look Dark Against Maroney and McDonald.

CHICAGO, June 12.—A strong chain of circumstantial evidence has been wound around John J. Maroney, under arrest in New York on suspicion of being connected with the murder of Dr. Cronin. The story, as given by the authorities, is as follows: Photographs were produced of Maroney and McDonald, under arrest in New York, and these were mixed with a number of others, and shown first to Sebastian Hatfield, of Revell & Co., who sold the furniture subsequently found in the cottage where Cronin was murdered. Hatfield, without hesitation, picked out Maroney's photograph as that of the man to whom he sold the furniture. The pictures were then shown to Throckmorton, the real estate agent who rented the room opposite Cronin's office. Throckmorton picked up the picture of Maroney as the man to whom he rented the room. Once more the pictures were shuffled, and this time shown to Martinsen, who carted the furniture to the Carlson cottage, with the same results. In each case the man had given his name as J. D. Simmons.

Chief Hubbard says he understands that Maroney's picture has been shown to Mrs. Conklin, and that she recognized it as that of the man who drove Dr. Cronin away.

Requisition papers were secured from Governor Fifer, and this morning S. Pinkerton detectives started for New York with them.

THEIR STATEMENTS.

NEW YORK, May 12.—John L. Maroney, under arrest here for complicity in the Cronin murder, it is said, is willing to go to Chicago and face the charge, to assert, in most positive language, that he is innocent of the crime. Maroney uses every endeavor to create the impression that he knows more about the murder of Cronin than he is willing to tell here. The inspector, however, does not appear to place much confidence in him.

Maroney and McDonald were arraigned in the police court this afternoon, and consulted without bail to await a requisition. Maroney said: "I have no hesitation in going to Chicago, but if I will be permitted to prove an alibi here, I would like to do so." His lawyer interfered and stopped his talking further.

After being arrested and remanded, both men talked to a reporter.

McDonald said that he came there from Philadelphia four years ago, and had never been out of the city, and had not traveled five miles on the railroad since that time. For the past thirteen months he had been employed in a blacksmith shop on First avenue.

Referring to the statement in a morning paper that he had been in Indiana, McDonald said that such was not the case. He had never been in that state. The only time that he ever met Dillon was on the 1st of May last. He never said a word to Dillon about Dr. Cronin.

Maroney said that he first became acquainted with Dillon in Philadelphia, a year ago. He believed that the charge against McDonald and himself had been brought so as to make a scapegoat for the friends of Sullivan; that Dillon, whom he knew as an obscure shipper-maker, and had seen him going from that until he had secured power to be able to order the arrest of a man in Timbuctoo or China, so long as he was a Sullivan enemy.

In regard to McDonald, Maroney said that he had been acquainted with him for some time. While they were not enemies, they were never particularly friendly.

As to the charge of murder, both denied any knowledge of it.

A SPECIAL GRAND JURY.

Force Will Be Brought to Bear on Witnesses Refusing to Testify.

CHICAGO, June 12.—A special grand jury to deal with the Cronin case was impaneled this morning in Judge Shepard's court. In addressing the jury, Judge Shepard said he expected a full, exhaustive and impartial investigation of the murder. The entire resources of the county, he said, would be worn. The question as to whether gold watches could be worn was also taken up, and after discussion it was decided that it was cause for expulsion from the church. It was also decided that attendance at places of amusement was wrong. No member who uses tobacco can be chosen as a delegate or put on a standing committee. The meeting voted down a motion to encourage local option, on the ground that the general rules of the church forbid taking part in exciting political events.

RUN INTO BY A TRAIN.

Three Persons Are Instantly Killed and Another Fatally Injured.

CANTON, Ohio, June 12.—At noon to-day the west-bound limited express on the Pittsburg, Fort Wayne & Chicago ran down a horse and buggy containing Lawrence and Peter Sieb, brothers, and two boys, brothers, Edward and Frank Seifert. The two Siebs and one of the boys were instantly killed, and their lifeless bodies flung a distance of thirty feet. The other boy was so badly injured that he lived but half an hour. The horse was killed and with the buggy was thrown a distance of 300 feet.

A Navy Cable Line in Sight.

NEW YORK, June 12.—The Chilian consul-general has advertised for proposals for the laying of a cable between Puerto Monte, south of Valparaiso, and a point in the straits of Magellan, near the Atlantic, where the British steamer Coleped sank about two months ago with a full load of passengers and a valuable cargo. Nothing was known of her loss for two week. On the discovery of the wreck the Chilian government determined to establish at once quick communication between its settlements in this distant region and its capital, which, when accomplished, will establish cable communications all the way from Canada nearly to Cape Horn, a distance of nearly 10,000 miles.

The Printers' Convention.

DENVER, Col., June 13.—The only business of importance transacted at the typographical convention to-day was the consideration of the special proposition offered by various cities for the location at those places of a home for aged printers, the most flattering coming from Colorado Springs. The convention this evening donated $300 for the relief of the Johnstown sufferers.

Cole Younger is Not Dead.

STILLWATER, Minn., June 12.—Cole Younger, the notorious outlaw, who is in the penitentiary here with his two brothers, was somewhat amused to hear of his own death out in Wyoming. The false report of his death is only one of many unreliable reports sent out by an irresponsible correspondent at Cheyenne.

Held to Answer for Robbing Wham.

TUCSON, Ariz., June 12.—Before the United States commissioner's court this afternoon, M. E. Cunningham, Gilbert and Wilford Webb, Lyman and Nathaniel Follett, Dave Rogers and Thomas Lamb were held to answer on the charge of robbery of United States Paymaster Wham. Edward Follett was discharged.

A Double Tragedy.

VINCENNES, Ind., June 12.—Seth Murray, a tenant on a farm four miles from the city, shot his wife. He then attempted to take the life of his son, but the gun he used, fortunately for him, contained no load. The murderer then terminated his own life by swallowing a large dose of prussic acid.

THE CITY OF TENTS.

The Saloonkeepers Lamenting Their Enforced Idleness.

A FEW OF THE MODERN SIGNS

An Important Plan of Street Improvements Adopted by the City Council—A Prowler Shot by a Sentry.

SEATTLE, June 12.—Two hundred men were put to work by the city to-day, upon recommendation of the general relief committee. They were placed under charge of Colonel Haines, of the Fleet regiment, and will be engaged on the streets in clearing brick, etc. They will be paid $2 per day and will be charged 15 cents for every meal taken at the armory.

Two hundred Italian laborers, brought here for work on the Seattle, Lake Shore & Eastern by Contractor Ehman to-day, went out on a strike because the contractor refused to pay two boys full wages. Then they went to the armory where they expected they would be fed during the strike, but the relief committee issued orders that they were to have nothing to eat there, and the probability is that they will have to go to work again.

It is noteworthy that during the past week there have been but thirty arrests by the police alone, about one-half the usual number. Of these, twenty-five were drunk and vagrants and five lascivists. The decreased number is due to the absence of saloons and the presence of militia.

The saloon-keepers of the city thought they would hold a mass meeting to-day, to protest against the action of the authorities in shutting up the saloons. They would have held a meeting, but only five or six were present, and so they decided to postpone it till evening; but only seven could be found who could be persuaded to assemble, so the evening meeting was postponed until to-morrow.

The town is full of people, and Second street is almost impassable during the day.

A report was current to-night that the town of Fremont, across Lake Union, was in flames, and immense quantities of smoke in that direction gave color to the rumor. Inquiry developed the fact that a great amount of slashing only was being burned.

The fire has not been without its compensations, for it has developed the humorous genius of many who were never before supposed to possess the modicum of wit. This humor finds expression in sign-boards placed on tents in which new business has been started. A few samples are:

"Forced to remove on account of climatic changes."

"Glad to be on earth."

"Slightly disfigured, but still in the ring."

"Our name is Phœnix."

"What is left of us can be found within."

"We will stay with the town."

"New Seattle or bust," and "Is on ad infinitum."

Many contributions are received to-day, among them $3000 from Portland. Contributions now aggregate about $70,000. The relief committees have reduced their work to so thorough a system that it is believed that no one has been missed in the search for needy persons.

The burnt district presents a scene of great activity. Hundreds of men are at work all along the water front rebuilding wharves. The Oregon Improvement Company expects to have its coal bunkers ready for the shipment of coal within three weeks.

STREET CHANGES.

An Important Plan of Improvements Adopted by the Council.

SEATTLE, June 12.—At the council meeting this evening the council decided:

To widen Front street throughout its entire length, from sixty-six to eighty-four feet.

Second, South Second, South Third and Commercial streets, from sixty-six to ninety feet.

To run Commercial street, as widened, straight through the Yesler block to an intersection with Front street, as widened.

To run Second street, as widened, straight through the Major Rinehart corner to an intersection with South Third street.

That all alleys shall be twenty-four feet wide.

That no frame building higher than one story shall be permitted to be erected on the west side of Third street between Yesler avenue and Union street.

That the city shall be placed in one assessment district to pay for such property as is taken by the right of eminent domain.

The proposition to make Yesler avenue ninety feet wide was voted down. It will be brought to-morrow, and if voted down the question of cutting off the corners of the Occidental and Kora blocks will be brought up.

SHOT BY A SENTRY.

A Wounded Prowler Takes to His Heels and Leaps Into the Bay.

SEATTLE, June 12.—To-night about 9 o'clock a sentry back of the old Safe Deposit building saw a man approaching him on his hands and knees. When a halt was ordered the man kept on, but crawled stealthily on, and so the guard fired. Then the man with a cry, jumped to his feet and rushed down to the water and jumped into the bay. The authorities were aroused, and a vigorous search was made for the marauder, but he could not be found. The guard, however, declares positively that he shot the fellow, and that he must have drowned when he jumped into the water.

RELIEF MEASURES.

SEATTLE'S RECUPERATIVE POWER.

SAN FRANCISCO, June 12.—The *Chronicle* this morning says: "When the historian of the next century comes to deal with the development of civilization on this coast, he will give prominent place to the superb recuperative power of the people. It has never been shown to finer advantage than in the recovery of Seattle from the crushing blow it received last week."

FOR SEATTLE OR JOHNSTOWN.

SAN FRANCISCO, June 12.—At to-day's session of the grand parlor of the Native Daughters of the Golden West, it was decided make an appropriation for either the Johnstown or Seattle relief funds. The amount to be donated, and the fund, will be fixed upon to-morrow.

TACOMA'S CONFLAGRATION.

TACOMA, June 12.—Over $21,000 has been raised for Seattle. Captain J. C. Ainsworth, of California, who is here, drew his check for $500 this morning for relief of the Seattle sufferers, and $500 for the Johnstown people.

AT SPOKANE FALLS.

SPOKANE FALLS, June 12.—Collections to date for the sufferers from the Seattle conflagration aggregate $12,051. E. B. Hyde, treasurer of the Board of Trade committee, to-day wired a draft for $7000.

EXCITEMENT AT WASHINGTON.

A Dispatch Received From Hayti and the Contents Kept Secret.

WASHINGTON, June 12.—Some excitement was manifested at the state and navy departments today upon the receipt of a cablegram from Commander Ketlogg at Hayti.

Secretary Tracy immediately communicated the information to Secretary Blaine, who carried the news to the president.

Every one connected with the state and navy departments who is in a position to know the contents of the cablegram refuses to say anything about it, except one official, who complained that the sender did not appear to know much about the situation.

Nevertheless, it was generally believed at the departments that the news from Hayti is not reassuring, and it was currently reported that Captain O'Kane had been ordered to sail immediately to the seat of the trouble with the Boston, which has just been refitted at New York.

THE OLD BATTLE FLAGS.

Gen. Meade Suggests That They Be Hung Up About the Pension Building.

WASHINGTON, June 12.—General Meade, the architect of the pension building, has addressed a letter to the commissioner of pensions, suggesting that the flags borne in battle by the soldiers of the United States, and collected by them in war, be hung around the walls of the pension office building.

Heavys, also, that the intent of all the acts of congress regarding the captured flags is that they shall be displayed from some public place.

The commissioner has replied to General Meade that he will readily assist in this project. If the pension building be made water proof. The roof of the building leaks badly in several places.

Twine Manufacture by Prison Contracts.

STILLWATER, Minn., June 12.—At the suggestion of Governor Merriam, the board of state prison managers at their meeting here yesterday appointed a committee of two to investigate the question of making binding twine at the state prison by the convicts. This method of circumventing the binding-twine trust was suggested originally by the state legislature at its recent session, and in some other states has been adopted.

For a Trip to the Coast.

WASHINGTON, June 12.—The widow of the late Justice Stanley Matthews is preparing to leave the latter part of the present week on a trip to the Pacific coast.

AN IOWA TOWN SWEPT BY FIRE.

Grinnell, the Place That Was Wrecked by Cyclone a Few Years Ago.

MARSHALLTOWN, Ia., June 12.—In response to a telegram, a fire engine has been sent to Grinnell, twenty-four miles distant. An entire block of wooden buildings has already been destroyed, and the fire is unchecked.

THE FIRE UNDER CONTROL.

MARSHALLTOWN, Ia., June 13.—It was 3:40 this afternoon before the fire at Grinnell, with assistance from Marshalltown and Reasbeck, was under control. It started in Trent & Company's elevator at 1:15 P. M., and was carried by the wind to the principal business block of the town, which was swept nearly clean. Forty-one buildings, mostly frame, were burned, including Trent & Company's elevator, O. A. Taylor & Company's warehouse of agricultural implements, the City hall, the Herald office, the Merchants' National Bank and the postoffice.

It is probable that the loss will be from $150,000 to $200,000. Most of the buildings were partly insured.

THE DAY AT JOHNSTOWN.

A Small Army of Workmen Leaves the Wrecked City.

JOHNSTOWN, June 12.—Order is coming out of chaos, and the military discipline has shown its effects at the end of the first day.

The grand exodus of workmen has been going on all day. As fast as the money was handed out of the paymaster's hands the workmen boarded the trains on which their picks and carts were loaded, and left Johnstown without any expressed regrets.

The work upon the mains has been nearly at a standstill all day, but to-morrow morning General Hastings expects to have 2500 men at work. The new plan of canvassing the city and systemizing the distribution of supplies is meeting with general favor. Provisions and supplies continue to come in freely.

There is but little change in the health situation.

Ten bodies were recovered to-day by the small force of men working.

A meeting was held in Alma hall by the citizens of Johnstown to-day, at which the leading business men who survived the flood were present. Remarks were made by several of those present touching the great work before them and the necessity of united and individual action to rebuild the town and the cultivation of fortitude to bear up under the burdens so suddenly thrust upon them. Resolutions were adopted thanking James Scott for his untiring efforts to bring order out of chaos, and of the people of Pittsburg in particular and the citizens of the United States generally for their prompt and generous assistance.

The bureau of registration reported to-day that 15,676 survivors had registered. Many registered twice, and some half a dozen times, which caused the list to run up to 21,000.

To-day exactly twenty names were registered, showing that the work is approaching completion. The number of bodies recovered here is 1192, of which 628 have been identified.

BASEBALL.

Indianapolis and Pittsburg the League Winners Yesterday.

INDIANAPOLIS, June 12.—Score:

Indianapolis	2	0	2	0	0	4	1	1	0	—10
Cleveland	0	0	0	2	0	0	0	0	0	— 3

Base hits—Indianapolis, 16; Cleveland, 6. Errors—Indianapolis, 4; Cleveland, 12. Umpire—Fessenden. Batteries—Indianapolis, Burdick, Getzein and Daly; Cleveland, Bosier and Sutcliffe.

CHICAGO, 5, PITTSBURG 10.

CHICAGO, June 12.—The score by innings to-day was:

Chicago	1	0	0	0	1	0	3	0	0	— 5
Pittsburg	1	2	0	1	0	1	0	1	0	—10

Base hits—Chicago, 8; Pittsburg, 11. Errors—Chicago, 9; Pittsburg, 3. Umpire—Lynch. Batteries—Flynn, Hutchinson and Summers; Pittsburg, Galvin and Miller.

GAMES POSTPONED.

NEW YORK, June 12.—The Philadelphia-Washington and Boston-New York games were prevented to-day on account of rain.

JEROME PARK RACES.

JEROME PARK, June 12.—The track was slippery and slushy.

Fourteen hundred yards—Fitzroy won in 1:24½. Carnot second, So So third.

Mile and one-sixteenth—Auricome won in 1:50½. Lady Pulsifer second.

Mile and three-eighths—Charlie Draux won, Lorgas second; time 2:22.

Five and one-half furlongs—Tormentor won, Frailty second, Rastelle colt third; time, 1:12½.

Mile—Swift won, Inverwick second, St. Valentine third; time, 1:47½.

Three-fourths of a mile—Arab won in 1:19½, Guarantee second, Dundee third.

Three-fourths of a mile—Druidness won in 1:19½, Bill Letcher second, Garrison third.

ST. LOUIS JOCKEY CLUB RACES.

St. Louis, June 12.—The weather to-day was perfect, the attendance 3000, and the track fair.

Five furlongs—Queer Fox won, Marsh Holley second, Lena Lau third; time, 1:05¾.

Mile—The Elk won, Lolion second, Big Brown Jug third; time, 1:47.

Mile and one-eighth—To Premier won, Bethbroeck second, Youngeur third; time, 1:59¾.

Mile and one-sixteenth — Bridgelight won, Strideaway second, Huntress third; time, 1:52¾.

Mile and a half, hurdle race—Linguist won, Le Jero second, Voltigeur third; time, 3:36.

A DISASTROUS CAVE-IN.

Great Loss of Property by the Collapse of Coal Mines.

WILKESBARRE, Pa., June 12.—A disastrous cave-in took place here late this afternoon. The Hollenback and Kingston mines are situated under a thickly settled portion of the city. They are a thousand feet deep, and for years past no coal was supposed to be mined in that portion underlying the city, for fear the earth would sink.

At 4 o'clock a crash came and one of the principal thoroughfares of the city is filled with crevices, from which gas escaped in large volumes. The owners of the houses are greatly alarmed.

The men in the mines had all they could do to escape with their lives. Some of the mules were caught in the workings and killed. Eight hundred men and boys are thrown out of work.

The mine owners' losses will be over $100,000, and the losses to the property owners on the surface will be double this amount.

A PECULIAR RELIGIOUS BODY.

Sisters Must Not Wear Riding Habits—Nothing Said About the Hustle.

HARRISBURG, Va., June 12.—The annual meeting of the German Baptists is now in session here. The question as to whether the sisters should wear riding habits was taken up last evening, and the convention advised that nothing superfluous be worn. The question as to whether gold watches could be worn was also taken up, and after discussion it was decided that it was cause for expulsion from the church. It was also decided that attendance at places of amusement was wrong. No member who uses tobacco can be chosen as a delegate or put on a standing committee. The meeting voted down a motion to encourage local option, on the ground that the general rules of the church forbid taking part in exciting political events.

RUN INTO BY A TRAIN.

Three Persons Are Instantly Killed and Another Fatally Injured.

CANTON, Ohio, June 12.—At noon to-day the west-bound limited express on the Pittsburg, Fort Wayne & Chicago ran down a horse and buggy containing Lawrence and Peter Sieb, brothers, and two boys, brothers, Edward and Frank Seifert. The two Siebs and one of the boys were instantly killed, and their lifeless bodies flung a distance of thirty feet. The other boy was so badly injured that he lived but half an hour. The horse was killed and with the buggy was thrown a distance of 300 feet.

A Navy Cable Line in Sight.

NEW YORK, June 12.—The Chilian consul-general has advertised for proposals for the laying of a cable between Puerto Monte, south of Valparaiso, and a point in the straits of Magellan, near the Atlantic, where the British steamer Coleped sank about two months ago with a full load of passengers and a valuable cargo. Nothing was known of her loss for two week. On the discovery of the wreck the Chilian government determined to establish at once quick communication between its settlements in this distant region and its capital, which, when accomplished, will establish cable communications all the way from Canada nearly to Cape Horn, a distance of nearly 10,000 miles.

The Printers' Convention.

DENVER, Col., June 13.—The only business of importance transacted at the typographical convention to-day was the consideration of the special proposition offered by various cities for the location at those places of a home for aged printers, the most flattering coming from Colorado Springs. The convention this evening donated $300 for the relief of the Johnstown sufferers.

Cole Younger is Not Dead.

STILLWATER, Minn., June 12.—Cole Younger, the notorious outlaw, who is in the penitentiary here with his two brothers, was somewhat amused to hear of his own death out in Wyoming. The false report of his death is only one of many unreliable reports sent out by an irresponsible correspondent at Cheyenne.

Held to Answer for Robbing Wham.

TUCSON, Ariz., June 12.—Before the United States commissioner's court this afternoon, M. E. Cunningham, Gilbert and Wilford Webb, Lyman and Nathaniel Follett, Dave Rogers and Thomas Lamb were held to answer on the charge of robbery of United States Paymaster Wham. Edward Follett was discharged.

A Double Tragedy.

VINCENNES, Ind., June 12.—Seth Murray, a tenant on a farm four miles from the city, shot his wife. He then attempted to take the life of his son, but the gun he used, fortunately for him, contained no load. The murderer then terminated his own life by swallowing a large dose of prussic acid.

STATE AND TERRITORY.

Details of a Cold-Blooded Murder in Montana.

A RUNAWAY COUPLE MARRIED

Tacoma's Danger From Fire—Preparations for Work on the Oregon Pacific—Territorial Masonic Grand Lodge.

BOZEMAN, Mont., June 12.—The murder of Albert J. Springer by Howell Thomas in Ferguson's saloon at Rocker was unprovoked and brutal. Thomas was slightly under the influence of liquor, and had no boasted of his physical powers, especially those of self-defense. Mrs. A. Schweitzer, and then cut his throat with a razor. Rose died at 11 o'clock this forenoon. Springer was formerly a typesetter in Fresno county, but about 8 months since married a woman older than himself, sold his place last spring and moved here.

His stepdaughter, who is a married woman, had been working at Rose's house, but on account of some unpleasantness she decided to leave. She packed up her things this afternoon, but on starting for the door she was met by Rose, who flourished a pistol. She ran up stairs, Rose followed and fired three shots, one shot taking effect in her breast. Mrs. Jones took the butt of the pistol and began beating her over the head. When his wife and her young daughter rushed to the scene, he ran across the street to a neighbor's house, lay down on a bed formerly occupied by Mrs. Schweitzer, and then, with a razor, cut his throat from ear to ear. He died soon after, being taken to the hospital.

It is said he became much attached to Mrs. Schweitzer, and did not want her to leave the house. Some of the neighbors say he was insane.

THE MASAO MINING CONCESSION.

A Two-Thirds Interest Sold to a Chinese Syndicate for $320,000.

SAN FRANCISCO, June 12.—Colonel Mason, president of the Lower California Mining Company, left for San Diego to-day.

The colonel has been in this city on business connected with the company, and succeeded in selling to a syndicate of Chinese merchants in this city a two-fifths interest in the Masao mining concession, which covers an area of 115 square miles in Lower California.

The contract provides that the Chinese shall invest $80,000 in improvements within the next six months. They are also to assume all of the outstanding obligations and to pay all taxes on the property. Within two years they must erect reduction works, and two-thirds of the bullion of the mines must be reduced on Mexican soil.

By July 1st from 150 to 200 Chinese laborers from this city will be taken to the mines. A second installment of from 500 to 1000 coolies will follow in the fall.

The first work at the mines will be the construction of a water flume, six miles in length, at a cost of about $25,000.

Colonel Mason refused to state the amount paid by the Chinese syndicate for the mines, but from another source it was learned that the purchase price was $320,000.

TERRIBLE DISASTER IN CHINA.

Ten Thousand Lives Said to Have Been Lost in a Great Fire.

SAN FRANCISCO, June 12.—The steamer City of Peking arrived this evening from Hong Kong, via Yokohama. The *Shanghai Courier* of May 10 contains a news-letter received from a correspondent at Chung King, to the effect that Lu Chow, a city of some importance on the upper Yangtsze-Kiang, was reported as being nearly destroyed by fire about a month previous. Seven-eighths of the city are said to have been destroyed, and the loss of life, burnt and trampled to death, is estimated at 10,000.

Commenting on this, the *Shanghai Courier* says: "In case this startling news is true it is impossible as yet that this can have reached Shanghai before now, as it is just a month since the fire is reported to have occurred. Still, it is not conclusive proof that a great disaster has not happened as we thought we saw last month in the case of the fire at Chung King. We met a gentleman in Shanghai to-day who was in Ichang less than a month ago, and he informed us that a man with a fellow-passenger with him as far as Wan Kow, and by Wan Kow, about the fire, mentioning that three-fourths of the people of Lu Chow had been destroyed."

THE MELBOURNE EXPOSITION

Commissioner McCoppin Returns Over $20000 to the U. S. Treasury.

SAN FRANCISCO, June 12.—The report of Frank McCoppin, United States commissioner to the Melbourne exposition, has been made public here, under date of May 5, 1888.

Under instructions from the state department, the sum of $30,000 was placed at his disposal for the expenses of this commission, other than the compensation of the commissioners. The total expenses amounted to $20,976.

McCoppin states that this is, perhaps, the only instance in history of an exhibition at which our government was represented where a surplus had been turned into the United States treasury.

He says that, although the attendance was unprecedentedly large, the exhibition was a financial failure, involving a deficit of more than $1,000,000. The American exhibitors, out of a total of 839 exhibits, received 154 awards, of which 110 were of the first order of merit; 66 of the second order; 31 of the third order, and 17 honorable mentions.

A SUMMARY PROCEEDING.

A Citizen of Los Angeles Attempts to Build a House in the Street.

LOS ANGELES, June 12.—Workmen, under instructions from H. W. Mills, today began building a house in the middle of Spring street. Mills claims that the land occupied by the street and sidewalk was never deeded to the city and if was and must be paid for.

The city council will hold a meeting to-morrow to consider the matter.

In the meantime, they have ordered the police to clear the street, which was done, and Mills's workmen were arrested, but were afterwards released on bail.

It is stated that the city has no title by deed for land for streets, and the outcome of the case is awaited with interest.

It is claimed by others, however, that as the street had been used as a highway for years it is protected by the statutes limit. Fyler, Mr. Mills's claim will be found to be weak.

AUSTRALIAN APPLES.

They Are Now Selling in San Francisco for $3 Per Box.

SAN FRANCISCO, June 12.—By the last steamer from Australia, Allison & Gray, commission merchants, received a consignment of Australian apples. The lot, consisting of ten varieties, were sent those as an experiment, and if they should bring good prices, a regular trade will be established.

Mr. Gray, of the firm, says: "Earlier shipments will make their demand larger and bring better prices. This lot will pull even. If we had the shipment had been made by the May steamer, we could easily have disposed of them for $5 a box. Yes, the idea of shipping colonial fruit to this market I consider a good one. We can thus sell not conflict with our home product, and will give the general public fruit of this kind nearly all the year round."

Several other parties in this city received small consignments of apples by the same steamer.

JUSTICE VS. CUPID.

A Wedding Postponed to Order That a Lawsuit Might Be Decided.

LOS ANGELES, June 12.—An amusing scene took place in Justice Savage's court. A dressmaker who was suing a customer for a bill wanted the case continued because she was to be married the same hour. It was her first lawsuit, and also her first marriage. One of them had to be postponed. The court looking a little dubious about the propriety of putting off the case, the lady concluded to take a continuance on the wedding until evening. After hearing the evidence in her case, it was decided in her favor. The judge complimented her on her force of character, and hoped matrimony and law would never clash again in her life.

ANTHONY COMSTOCK HEARD FROM.

He Causes the Arrest of the Manager of An Engraving Company.

NEW YORK, June 12.—Anthony Comstock made a successful raid to-day. He arrested Olin D. Chase, manager of the Gast Lithographing and Engraving Company, and seized 1,000,000 lottery tickets and fifteen lithographic stones, about half a ton in weight, five numbering machines and sheets of paper for printing.

Five hundred thousand tickets were printed for lottery companies which, Comstock says, have no existence. They are: "The Original Little Louisiana Lottery Company, of San Diego, California, a supplement to the Louisiana State lottery of Kansas City and New York," The Original Little Louisiana Lottery Company, of San Francisco," and "The Original Little Louisianna Lottery Company, of Oakland, California."

Chase was held for trial at the Tombs police court.

STANLEY'S MOVEMENTS.

When Last Seen He Was on the Shores of Victoria Nyanza.

ZANZIBAR, June 12.—A letter received here from Uvuri, on the southeastern shore of Victoria Nyanza, dated December 22, 1888, reports the arrival there of Henry M. Stanley, with a number of invalided members of his force. The letter says that Stanley had sustained heavy losses; a large number of his men having died from disease and famine. The explorer had rejoined and left Emin Pacha at Unyaro, on the northwestern shore of the lake.

New York Bucket Shops Closed.

NEW YORK, June 12.—The bucket shops on New street and Broadway suspended business to-day as soon as they learned that the measure prohibiting their operations had become a law. Only one place was kept open. It goes under the title of the "Open board of brokers," its managers claimed that it was of the same order as any exchange and was not affected by any law aimed at the bucket shops.

A Democratic Opinion.

St. Louis Republic.

If the sensible people of Arkansas and other states which have a large negro population do not put brains to the front and send the young politicians who have been "spoiling for trouble" to the rear, the country will go out before the national democratic party goes in again. This is the cold, compressed truth of the situation.

MR. BRICE IS CHAIRMAN.

Barnum's Mantle Falls Upon Cleveland's Friend.

THE OPINION OF THE "WORLD"

Day Has Not Dawned, but Grover Has Set His Face to the White House—San Francisco Bidding for the Convention.

NEW YORK, June 12.—The corridors of the Fifth Avenue hotel were crowded to-day with prominent people. The democratic national committee met at noon to choose a successor to W. H. Barnum.

Shortly after noon the committee was called to order. Carlos French presented resolutions expressing regret at the death of W. H. Barnum, eulogizing the deceased as a Christian statesman, and for the fidelity, liberality and impartiality shown in his judgment and unflagging energy in his connection with the cause of political results.

Senator Gorman spoke at length upon the good qualities of the departed, after which the resolutions were unanimously adopted.

Suitable resolutions on the death of Captain F. W. Dawson, a member of the committee from South Carolina, were also adopted.

On motion of Judge McKenny, of Kentucky, seconded by Senator Gorman, of Maryland, Calvin S. Brice was then unanimously chosen chairman.

Senator Ransom, the North Carolina committeeman, was absent, his absence being caused by a broken leg. Herman Oelrichs, of the New York committeeman, was also absent in Europe. Both were represented by proxies.

Colonel Rice, of Indiana, represented New Mexico, and held the proxy of G. Gordon Lesse in Wyoming territory. The committee then said it was too early to discuss candidates on the grounds for 1892, others did not hesitate to show their preference for Cleveland as a candidate. Most of them, especially those from the West, expressed themselves in favor of a tariff reform platform, and fight it again on that issue.

A growing sentiment was manifested most strongly by the western members for holding the next national convention in San Francisco. It was looked much as though the choice would be between Chicago and San Francisco. Those in favor of holding it on the Pacific slope urged that it might tend to wrest that section from the republican column. Others, friends of Cleveland, intimate that the movement is intended to injure him and to rift reform, as the Pacific slope is a strong protection section.

THE "WORLD'S" OPINION OF BRICE.

NEW YORK, June 12.—The *World*, commenting editorially on Calvin S. Brice, says: "Mr. Brice was not placed in practical control of the democratic campaign last year by President Cleveland because of any ability which he had shown, as an argue last year by President Cleveland because of any ability which he had shown, as an argue last year by President Cleveland because of any ability which he had shown, as an argue

twenty miles and ships more kinds. GRANTS PASS is one of the most important Fruit Growing Districts in Oregon, and is surrounded by Mines of Gold, Silver, Copper and Coal, and the finest Timber in the State. Fruit Growing, Mining, Manufacturing and Milling are the principal industries. Grants Pass is the County Seat of Josephine County, and is the Head of Navigation on the Rogue River. It has a population of 1,500 people, and is growing rapidly. Its shipping facilities are unsurpassed, being on the main line of the Oregon & California Railroad, and on the Rogue River, which is navigable for steamboats of light draft. Its educational facilities are unsurpassed, having a fine Public School, and the Rogue River Academy, a flourishing institution of learning. Its manufacturing facilities are unsurpassed, having a Planing Mill, Sash and Door Factory, Woolen Mills, Flouring Mills, Foundry and Machine Shop

The Oregonian.

PORTLAND, THURSDAY, JUNE 13.

AMERICAN SHIPPING.

"How to Restore American Shipping" is the subject of an article by Representative Dingley, of Maine, in the current number of the *North American Review*. Mr. Dingley's suggestions on this subject are preceded by a statement showing the real causes of the decline of our shipping—a statement which possesses interest and value.

The most prosperous period of our merchant marine in the foreign trade, as Mr. Dingley shows, was from 1840 to 1855. Soon after 1855 its decadence began—though for several years the decline was slow. In 1855 over 70 per cent. of our exports and imports were carried by American vessels. Within the period from 1855 to 1861 it fell to 35 per cent., and from 1861 the decline was very rapid. During four years of the civil war we lost one-third of our tonnage in the foreign trade through capture by Confederate cruisers and sale to foreigners to escape capture. But even had there been no civil war, we could not have maintained our position on the ocean, because the conditions, both as to construction and sailing of vessels, since 1860, have so greatly changed.

Long before the war there was a decided falling off in American shipbuilding. This was due to several causes. Until the year 1860 foreign vessels were not allowed to participate in the business of transporting imports and exports on the same terms as American vessels. Against foreign vessels there was a discriminating tax, repeal of which placed foreign and American vessels on equal footing. Here was the starting point of the loss of our shipping in the foreign trade. Again, the world's carrying trade up to about 1855 was done by wooden sailing vessels; and inasmuch as we had cheaper and more abundant timber than any other nation, and the labor required to construct a wooden vessel from the timber in its forest was comparatively small, we could build cheaper vessels than our maritime rivals. But about this period iron steamships began to seize upon the ocean carrying trade, and Great Britain, as the possessor of rich mines of coal and iron near the seashore, with much cheaper labor to transform the ore into the completed steamship, and especially to man her after construction, obtained a far greater advantage than we had ever possessed. By a system of subsidies for steamship lines and by liberal encouragement to private ship yards the British government gave the ship builders and ship-owners of that country further advantages.

While Great Britain has been devoting her energies to ocean commerce, we have been engrossed in development of the West, wherein our people have found greater profit. In the building of railways and the extension of inland commerce there has been room for employment of all our energies. Our shipping in the domestic trade has enormously increased. It amounted to 1,939,314 tons in 1840; in 1886 it was 6,777,475 tons.

Since the causes of the decline of our shipping in the foreign trade are clear and plain, the question arises, How is this shipping to be built up again? It has been suggested that we change our registry law so as to permit citizens of the United States to buy vessels abroad. But Mr. Dingley shows that if we should do so we could not sail them, since the increased cost of running modern vessels, especially steamships, mainly in consequence of the higher wages paid the large number of officers and men they require, is a constant burden which renders competition with British vessels difficult, and which the "free ship" remedy does not reach.

It is also regarded as impolitic, and practically impossible, to return to the old system of imposing discriminating duties on foreign vessels and their cargoes. If we could do it, this protection against foreign competition, which was inaugurated by the founders of the government and continued down to 1890, would be ample to restore our shipping in the foreign trade. But any attempt to return to that policy now would probably lead to reprisals by other nations, which would defeat the object.

The method suggested as the most feasible one of equalizing the conditions so as to enable American vessels to compete with foreign ones in the over-ocean carrying trade is by a system of navigation bounties similar to those given in France and Italy. The French system, as Mr. Dingley explains, "offers a bounty of 30 cents per registered ton for every thousand miles sailed by a French vessel actually engaged in the foreign trade. The bill approved by the American Shipping League and introduced at the first session of the Forty-ninth congress by General Negley, of Pennsylvania, and referred, is substantially the same as the French law. A bill based on the same idea, but perhaps providing for a smaller bounty not to exceed a specified sum per ton per annum, and embodying additional provisions to guard against possible abuses, will undoubtedly be introduced at the next session of congress, with the indorsement of all the shipping leagues and many chambers of commerce in all parts of the country."

It is believed that "such navigation bounty to American vessels in the foreign trade, gradually reduced after five years, and terminating at the end of fifteen years, would give our foreign carrying trade such an impetus as to lead to the permanent revival of this branch of our merchant marine. The amount needed to make such a system effective has been estimated by experts at three millions the first year, rising to five millions the fifth year, and after the eighth year gradually diminishing. When it is remembered that the government has received since the close of the war over twenty-eight millions of dollars from the tonnage-tax on vessels in the foreign trade, and that this tax now yields nearly half a million annually, it will be seen that this fund alone would pay a large part of the expense of carrying out this policy."

Of all plans proposed for rendering aid to our shipping in the foreign trade this appears to be most practical in its character and to promise best results. It is believed that a bill embodying this system can be carried through congress, and it is not doubted that the president would approve it.

AN OFT-TOLD TALE.

T. D. Featherly, late of Butte, Montana, being dead, poses over his own signature as an "affectionate husband," he having taken care to leave this record of himself just before he committed suicide. His affidavit to this effect was necessary if he wished to leave such a reputation, as even his wife never suspected from his conduct toward her during the entire period of their married life that it belonged to him. On the contrary, his "affection" for the bottle was his most distinguishing characteristic during three years and as is usual in such cases he did not realize the depth of conjugal affection that possessed him until the patience of the woman was exhausted and she resolved to test its peculiar quality no longer. Of course he "could not live without her." She might have known that, for she had made the living long enough; but with recklessness not uncommon to selfish women who have the business, and house and children, and a drunken husband to look after, she did not seem to care to what degree he was driven by his intense affection for her. At all events she left him and instituted proceedings for a divorce. Then it was that this desperate protest of a woman was wrung from his tortured soul and leaving a tender letter in the way of funeral expenses he shot himself in his wife's family shop.

The one unusual feature of this case is that no grunch an "affectionate husband" he did not fatally shoot his wife and then clumsily wound himself and send the pistol with the story of his wrongs as he was borne to the hospital. The public should be duly thankful for this break in the dreary monotony of a story, the familiar details of which are as "an old tale, vexing the dull ears of the drowsy man."

DELAYS OF THE LAW.

A lawyer who is a member of the Illinois legislature introduced into the body at a late session a bill designed to promote promptness in the disposal of unimportant cases brought before the courts for trial. The bill provided for a "short-cause calendar day," the object being to place on a special calendar all cases that would occupy but a brief time in disposal and set apart one day of each week for the hearing of the same. Such a law would no doubt be beneficial in clearing the calendar of the less important cases and to this extent it would be of service, but the real grievance in the premises does not lie in these cases but in the more important ones upon which great financial interests hinge, or upon which public safety and the protection of community interests depend.

There should be some means of arriving at the truth and justice involved in a case so that litigation might not outlive plaintiff and defendant in a suit even though they should survive to old age, as was the case in the Myra Clark Gaines suit against the city of New Orleans. The Stewart will case is another illustration of the time that it takes to come to a final decision in a matter in which there is money for the lawyers, it being in course of hearing for some years and but recently settled by compromise between the litigants.

The common murder case, as it drags through trial, appeal and rehearing, without establishing a single new point in evidence or law, furnishes the most frequent and pernicious illustration of the law's delay. Engineered by subtle methods that in the end are liable to defeat justice it furnishes encouragement to lawlessness and invites mob violence.

This state has not been without illustrations upon this point, and even now a society tried community is watching with feverish anxiety the outcome of a case for which a change of venue was deemed prudent, ostensibly that an impartial jury might be secured, but really, perhaps, to fence against the possibility of violence in the event of customary delays, and the ultimate escape from justice that they presage. There is an urgent public demand that all such cases should be disposed of with as little delay as possible, without loitering over unnecessary forms and quibbles, irrelevant to justice.

THE OREGONIAN, a few days ago, in commenting upon a resolution passed by the state grange, relative to the management of the State Agricultural College remarked, in effect that if the state is ever to get returns for the money invested in this institution, its management and methods in the future must differ from those of the past. The *Benton Leader* censures this opinion, as unjust to the present management, stating that the change in that institution since last September has amounted to a revolution, adding: "No one can now visit the college and observe its workings without writing a note of admiration." THE OREGONIAN is glad to learn that this institution is at length being placed on a practical educational basis. The *Leader's* warm assurance of this fact is a simple acknowledgment of what the tax payers of the state long ago learned to their cost, that room for improvement was about all that there was of the college, up to a few months ago.

The resources of Georgia have been developed in many and marvelous ways since the war, and her productions have been in some instances cited as wonderful. Among these are two animals, the exhibition of which fully warrants Bismarck's comment for the great American hog. One of these is Colonel Clancey, who lives near Athens, who at a single meal eats, when he can get it, a quarter of mutton, five pounds of cheese and three of crackers. The name of the other is not given, but he can be called "colonel" at a venture. His meal consists of a peck of potatoes with two pounds of salt, and he contents himself for a relish, on a half bushel of onions. These alleged facts are published in the hope that the champion eater of the rural districts, who frequently disgusts the public by a recital of his gastronomical feats in the line of eggs and buckwheat cakes, will commit suicide through envy.

In Crook county the ranchmen are rapidly improving their flocks and herds. Their policy is to improve the quality and lessen the quantity of horses and cattle. They have been purchasing more pure-bred animals during the past twelve months than any time during the three years preceding. Crook county, while in a state of nature, was termed the stockman's paradise; but the conditions during the last few years have wholly changed, and the stockman must now pursue his business on a new line. He must have fewer animals—blooded animals—and must take care of them.

The schools of East Portland have just closed a very prosperous and satisfactory year. The board of directors for district 21 testified their approval of the work of the teachers by re-electing the most of them. This is as it should be. There is no reason why a teacher's tenure of office should be deemed insecure so long as he or she performs the duties required in a faithful and intelligent manner.

New York is ambitious to raise a marble arch to commemorate the centennial celebration recently held in that city. The cost is fixed at the modest sum of $150,000, and the public has been recently informed that all but $36,000 of this amount has been raised in that city alone. Of course the outside world will take the hint and come joyfully to the front with the small balance.

All of the daily papers of Seattle were burned out. But all of them are again published, though as yet in reduced form. New outfits have, however, been ordered, and they will soon appear in better form than ever. Some of them had outgrown their old "plants," and in ordering new ones they will naturally look to the wants of the future.

A directory of the town of Arlington, Gilliam county, is published, containing over 1000 names. It contains besides a good description of Gilliam county, the tax roll of the county for 1888, and much other useful information.

PERSONS AND AVENUES.

In the next three years New York will spend $6,000,000 for new pavements. Tammany handles it. State and national elections will occur as usual.

Sir Julian Pauncefote is extremely fond of fencing, and is rated as one of the most skillful of swordsmen. His predecessor was mightier with the pen, but he didn't know it was landed.

Collis P. Huntington has paid $150,000 for a small lot on upper Fifth avenue, New York, and will build on it a residence to cost $1,000,000. People will be glad to see that the Pacific railroad and Standard oil millionaires are slowly getting themselves comfortably housed.

James L. Babcock, the man who is to receive over $500,000 of his late uncle's estate, upon condition that he marries within the next five years, is in Savannah, Ga. Every mail still brings him assurance of the favorable result of applications made by widows and heiresses all over the country.

NEW TO-DAY.

LIME! LIME! LIME!!

Wanted a man to burn lime; who thoroughly understands making a fine business. Address Lime Kiln, care Oregonian. 13[illegible]

GOVERNMENT LAND.

We have just five more claims for homesteads, which are only three miles from railroad station and twenty-five from Portland; soil good and land not very stony. This is the most convenient land now left vacant this distance from town. LEACH & KING, room 11, Dekum building. 28mi6*

GRAND PICNIC

For the benefit of the Scottish and Johnstown sufferers, under the auspices of Willamette Tribe No. 6, Improved Order of Red Men, at the Gambrinus Garden, Sunday, June 16, 1889. Music by the Apollo Band. Tickets, gents each, 50 cents; admission, company with gentlemen, 10c. Positively no disreputable characters allowed. The Committee.

FOR SALE CHEAP.

One Dairy, consisting of 30 cows, one Holstein bull, with all necessary dairy appliances, with or without horses and wagon, together with a well established milk route and good will of business; also one fine Kimber stallion, 8 years old; all to be sold at private sale. For information inquire of R. D. EVELAN, executor of the estate of CHAS. W. GRILL, deceased, or NICHOLAS & DUADY, 26 Dekum Block, Portland, Oregon. 11[illegible]*

REAL ESTATE AT AUCTION.

A RARE CHANCE FOR SPECULATORS.

The Gains Tract, consisting of 14 2-3 acres, north of and abutting on Base Line, just outside of city limits of East Portland, beautifully situated, commanding a fine view, all under cultivation, several acres set out with young fruit trees, will be sold at auction at the Court House door, June 15, 1889, at 11 A. M. This property

A. RICHARDSON, Auctioneer.

5 ACRES FRONTING POWELL Valley road, 14 miles from East Portland, south of Mount Tabor; all level; adjoining land sold at $1000 per acre. Price $600 per acre.

CARR & GOLDSMITH,

S. W. Cor. First and Washington sts., Portland, Or.

N. B.—Now that the Waverly Motor line is assured, this land is worth $1000 per acre, and will bring that figure as soon as the motor line is in operation. 12[illegible]

GOLD! GOLD.

Better than gold are the beautiful an cheap lots at Newport, the terminus of the Oregon Grand Northwestern R. R. Get in quick, as this is the best chance at bedrock prices. See L. M. COX, Room 38, Portland Savings Bank, or E. F. BAKER, Newport, and make a stake.

The best bottom along the Portland and Vancouver motor line; 2 acres, a perfect panorama of river and mountains in view; only $1000, part cash.

ALSO,

Fine business property, 4-story brick buildings; heart of city, for $113,000; paying a rental of $700 per month.

Room 36, Portland Savings Bank.

"A CONTRAST."

The family that lives in a rented house for four years, paying $25 a month per year, rent principal, $960; interest on same at 8 per cent., $153 60; total, $1113 60, and at the end of that time have nothing to show for their money, and are no nearer owning a home of their own than they were in the beginning.

The family which takes advantage of the offer of the Installment Building and Loan Company now, and pays, on a $600 lot, $60 cash, and $10 per month, will have the lot and house and lot.....$ 360
And pays $26 per month for 50 months..... 1300
Pays interest, insurance, taxes, &c..... 250

Makes a total outlay of..... $1850
or but $736 40 more than those rent cost the other family, and have a better home than any rented house could be, and have left as a profit and saving by the transaction a home worth in four years from now in any part of Portland or its suburbs; or less than $1 50 per day $3750, a saving of $750, and a profit of $360 10.

The price of real estate is advancing all along the lines. The chance for a moderate home at a cost within the means of an ordinary salaried man, are constantly leaving in and around Portland. It takes but $3 50 for a starter, and any man can pay the balance of $1 50, at 6 per month, while he has a house to live in.

Taking a house this way is not going into debt. It is giving ourselves the best money can buy for a definite purpose of getting a home.

Call at No. 7 Stark st., and see how good a house and lot you can get on these terms.

THE INSTALLMENT BUILDING & LOAN CO.

REPUBLICAN CONVENTION AND PRIMARY MEETINGS.

Primary meetings of Republican voters of the city of Portland are hereby called, and will be held in the respective wards Thursday, June 13, 1889, between the hours of 6 and 8 o'clock P. M. of said day, to elect delegates to attend a Republican City Convention, which is hereby called to meet at the County Court Room, in the city of Portland, Saturday, June 15, 1889, at the hour of 1:30 o'clock P. M., for the purpose of nominating a candidate for City Police Commissioner and one candidate for Councilman in each ward, to be voted for at the coming city election, to be held on the third Monday, to-wit: the 17th day of June, 1889.

The following is the apportionment of delegates to the Convention, namely:

First Ward—Eleven delegates.
Second Ward—Nine delegates.
Third Ward—Thirteen delegates.

As judges of primaries the following appointments have been made by the committee namely:

First Ward—J. B. Wilcox, W. T. Hume and M. A. Howe.
Second Ward—F. Henshaw, M. Weidler and W. H. Fobes.
Third Ward—John Dudley, C. C. Bombleboyer and H. B. Gradon.

One judge in each ward to act as clerk.

The polling places for the primary meetings are as follows:

First Ward—Office in Fat Stock Exchange Building, west side of Fourth street, between A and Pine.
Second Ward—Shoe Shop in Turner Hall Building, east side of Fourth, between Morrison and Yamhill streets.
Third Ward—No. 12 south side of Columbia street, between Front and First.

W. F. MATTHEWS,
Chairman Republican City Committee.
Attest: S. L. WOODWARD, Secretary. 11[illegible]*

The Committee of Arrangements, appointed by the Portland Board of Trade, desire to give notice that Mr. Villard will address the business men and property holders of this city and vicinity upon matters of public interest, at the New Park Theater, on Friday, the 14th inst., at 8 P. M. A full attendance is desired. After the address an opportunity will be given to question Mr. Villard upon the past and present relations of the various corporations with which he has been and is identified, in their bearing upon the interests of Portland and the Northwest Coast.

THE IMMIGRATION BOARD.

Proceedings of the Regular Weekly Meeting Last Evening—Contract Let—New Printed Matter.

The regular weekly meeting of the Immigration board was held at 7:30 o'clock last night. There were present: H. Ward, president; Charles E. Sitton, vice-president; Wallace R. Struble, secretary; Ellis J. Hughes, Thomas P. Osborn and W. M. Killingsworth.

The reading of minutes of previous meeting was omitted, deferred.

The publication of T. S. Norris, in reference to the insertion of advertisement in "Northwestern Lumberman," was read, and, on motion of Mr. Hughes, the proposition declined.

The same action was taken upon the proposition of A. S. Bagley, submitting rates of advertising in *Pacific Rural Press*, of San Francisco.

Mr. Lucas, solicitor for Board, reported that he had secured thus far the total sum of $2260. In view of the present extraordinary demands upon the liberality of Portland it was deemed best to cease all further solicitation for funds.

The bills of E. W. Moore for $12 50 for photo grappling views of the city, and of the Moon Engraving Company, $22 45, for engraving, were paid.

The previous action of the board authorizing the engraving for the cover of the New Empire was, on motion of Mr. Osborn, rescinded, and the contract for printing 100,000 covers was let to L. Samuel for $100, the work to be done from stone already prepared, and from which the previous covers of this publication were printed.

It was decided, after some discussion, to reset ninety-six pages of "The New Empire," in order to provide for full statistical and descriptive matter to date. The increase in cost will be about $160.

The board also resolved to provide a handsome cover for the new "Portland Illustrated," at a cost of about $70, and the printing committee were empowered to secure bids for the same.

Adjourned.

OREGON STATE NORMAL SCHOOL.

Commencement Week at Monmouth—Planting the Class Tree—Interesting Programme.

A Monmouth, Polk county, correspondent sends the following notes in regard to the closing exercises of the Oregon State Normal school:

At 2 P. M. Monday, June 10, the faculty, students and friends from far and near gathered at the chapel for the class tree exercises. The Monmouth junior band introduced the programme with excellent music. A song from the class, and then the address by Rev. Z. H. McCollough, of San Francisco, followed, which was greatly appreciated by the large audience. Remarks were made by the different members of the faculty, after which, with the band leading, all went to the Normal lawn, north of the building, the class forming a circle around the tree. The exercises were short and impressive, the special feature being the class tree poem by A. J. Buckman. The closing song, words by Miss Nellie Collins, was sung by the class, and the tree, around which will cluster many bright memories of the past and lead inspirations for the future, was left as a living monument for the class of 1889.

Of all the events which are connected with commencement week, none are more enjoyable or pleasant than the students' reception, which always occurs Monday evening at 8 o'clock. The reunion of 1889, was certainly one of unusual interest and pleasure. The committee on arrangements spared no pains to make the occasion a success in every respect. The old hall was filled to its utmost capacity, (the greater number being students); with those who were anxious to exchange friendly greetings with their Normal friends.

The literary programme was introduced by music, address of welcome by C. W. Rider, of Monmouth, and response by Nellie Carnahan of Ashyille.

A recitation by Miss May Nelms, of Lewiston, Idaho, and an essay by Miss Mollie Merriman of Medford, were well received. The music was good. After the literary programme an hour was spent socially, which covered the evening's enjoyment in very pleasant manner.

A SOLDIER'S DUTY IN SERVICE.

That Is What the Third Regiment Will Be Taught on the Fourth of July.

The subjoined military orders were issued by Colonel Morgan of the Third regiment:

THE DALLES, Oregon, June 1, 1889.

General Orders, No. II.

The resignations of Lieutenant T. F. Milligan, of G company, and Captain J. N. Young and Lieutenant A. E. Dart, of B company, have been accepted by the governor.

The station of B company is hereby changed from Pendleton to Arlington.

Dr. O. C. Hollister has been appointed and commissioned captain and surgeon of the Third infantry, O. N. G., and he will be respected and obeyed accordingly.

The field and staff, non-commissioned staff, band, and A, B, C, D and E companies of this regiment, will go into camp of instruction at The Dalles, Or., July 1, 1889, and will break camp on the 5th.

Companies B, D and E will take train on the O. R. & N. Co., to arrive in The Dalles about 2:30 P. M. July 2, 1889.

Company commanders are not allowed to excuse anyman from attendance at this camp. Applications for permission to remain at home must be made out in writing, sworn to and sent to these headquarters not later than June 25, 1889.

Company commanders will report to me at once the number of men they will bring, in order that the necessary tents and camp equipage may be provided.

The Fourth will be celebrated in a glorious manner, and the regiment will be taught a soldier's duties in active service in a practical way, and a full attendance will be insisted on for the good of the service. By order of

CHARLES E. MORGAN Colonel.

JOSEPH P. FITZGERALD,
First Lieutenant and Adjutant.

REVENUE RECEIPTS IN MAY.

The Report of the Internal Revenue Collector Shows That $62,076 08 Was Collected.

The following amounts were collected by the internal revenue collector for the district of Oregon during the month of May:

BOND FOR DEED.

William Deemer to John Olsson, lots 6 and 7, blk 7, Carter's add., June 12; $800.

THE WEDDING BELLS DO RING.

Two Marriages—F. J. A. Mayer to Mary C. Wolfe and P. A. Kenny to Alice M. Chance.

Mr. F. J. Alexander Mayer, assistant secretary of the Oregon Fire and Marine Insurance Company, and Miss Mary C. Wolfe, youngest daughter of the late Captain John Wolfe, were married yesterday morning at the bride's residence, by Rev. Father O'Dea. The bridal couple left for Puget Sound immediately after the wedding, and from there will proceed to New York and thence to Europe, to spend a two-months' honeymoon. Upon their return they will occupy their new residence on Twenty-second and K streets.

KENNY-CHANCE.

Mr. F. A. Kenny, formerly business manager of the *Evening Telegram*, and Miss Alice M., eldest daughter of Dr. George H. Chance, were married yesterday morning at the residence of the bride's parents, corner of Second and Hall streets; Rev. Ald. Kummer solemnizing the nuptial ceremony. The wedding was strictly private, a few friends and relatives of the contracting parties only, being invited. Mr. and Mrs. Kenny will reside at No. 148 North Fifteenth street.

MODJESKA'S BRIEF SEASON.

The sale of reserved seats for the Modjeska engagement at the Exposition building next Friday and Saturday indicates that the attendance will be very large. Carpenters and scene painters are at work in the large hall of the building, transforming it into something like a theater, and Shakespeare's two delightful comedies will be presented with proper accessories, and by a company whose record is famous as exponents of Shakespearean plays, and worthy in all respects to support the distinguished artiste, Modjeska.

NORMAL TRACES OF HURRICANES.

When it is suspected by captains in the North Atlantic ocean that a hurricane is in the vicinity, the following are among the first and most important questions for the navigator to decide: In what direction is it moving? Is it liable to recurve?

The answers to these questions depend upon the latitude and the month. Between the 10th and 15th parallels for instance, a hurricane moves almost due west. In June and October its course changes rapidly to northwest and north, recurving about the 20th or 23d parallel. In July and September, however, it continues on its northwest course until it reaches latitude 27 degs. or 29 degs. north, and in August, latitude 30 degs. or 32 degs. north before recurving. These important laws established by the studies and long experience of Pedro Vines, of Havana, should be thoroughly understood by every navigator, and utilized in shaping his course to avoid a hurricane.

WEST INDIAN HURRICANES.

Although hurricanes may be encountered during any month of the year, yet there is such a marked increase in their number and violence during July, August, September and October, that these four months constitute what is called the hurricane season.

The hurricane regions are tropics north of the tenth parallel, the Caribbean sea, gulf of Mexico, and a broad belt curving northwestward from about St. Thomas, and following the gulf stream towards the grand banks of Newfoundland.

The earliest indications are usually high barometer, with such dry, fresh winds, and very transparent atmosphere. A long, low ocean swell from the direction of the distant storm. Light, feathery plumes of cirrus clouds, radiating from a point on the horizon where a whirlwind is indicates the bearing of the center. As the cirrus veil spreads overhead, with halos about the sun and moon, the barometer begins to fall, slowly but steadily, and the ocean swell increases. The air becomes heavy, hot and moist. Dark red and violet tints are seen at dawn and twilight. The heavy cloud bank of the hurricane soon appears on the horizon like a distant mountain range. The barometer falls more rapidly and the wind freshens, with occasional squalls of rain, mixed with hail.

The storm area in tropics in the tropics then further north, the cloud ring averaging about 500 miles in diameter, and the region of stormy winds 800 miles, or even less. In low latitudes the entire storm moves westward and northwestward, about seventeen miles an hour; in middle latitudes, northwestward and northward, moving more slowly as it recurves, and finally northeastward, with a velocity of translation of twenty or even thirty miles an hour, its area increasing rapidly as it follows the Gulf stream.

GEORGE WASHINGTON'S HAIR.

A Lock of It Found Among the Debris at Johnstown.

JOHNSTOWN, June 8.—Among the most interesting relics of the flood is a small gold locket found in the ruins of the Hurlburt house. The locket contains a small coil of dark-brown hair, and has engraved on the inside these following remarkable lines: "Lock of George Washington's hair, cut in Philadelphia while on his way to Yorktown, 1781."

Mr. Renford, one of the proprietors of the house, states that the locket was the property of his sister, who was lost in the flood, and was presented to her by an old lady in Philadelphia, whose mother had herself cut the hair from the head of the Father of His Country, and that there is no doubt that the statement is reliable.

PLAIN WORDS ABOUT FIREWORKS.

Mr. George Hughes, the old pioneer pyrotechnist, writes the following note to THE OREGONIAN:

I want to do my share to help Seattle in her day of trouble. I haven't any money. I have got some fireworks. I want to make these answer. Therefore I hereby offer to any city in the state of Oregon, desiring to discuss exhibition of fireworks in aid of the Seattle relief fund, to donate, free of all cost, one-half of any amount of fireworks they may order. This means true and honest business and thorough satisfaction.

Two Murderers Lynched.

HELENWOOD, Tenn., June 12.—Last night a mob broke into the jail and took Lloyd and Reynolds, two murderers, and hanged them to a tree near by.

The great vegetable substitute for pills is Simmons Liver Regulator.

Take the Northern Pacific Railroad, the dining-car route for all points East. Office, No. 121 First street, corner Washington.

PASSENGER LISTS.

OVERLAND.

Northern Pacific—Passed Pilcton June 11: J. R. Smith, E. W. Dittrick, E. Hilal, Miss L. Wells, Wm. S. Knapley, Miss M. Nicholson, G. I. Hamlin, W. B. Davenport and wife, J. C. Spottore, A. M. Ames, D. E. Washington, J. M. Brownwell and eight in second-class.

Oregon Short Line—Passed Shoshone June 12: J. W. Ewing, F. B. Hastings, J. F. McIntyre, John Daley, W. H. Cutler, W. E. Elliott, A. G. Campbell, J. M. Kellough, Walter McBride, O. P. Kinsey & W. K. L. Seward, H. Thayne, Alice Vancel, Effie Vancel, and fifty second-class.

Passed Modford, to arrive over the O. & C.: Mrs. C. B. White, Rev. S. C. Smith, T. C. Hemsley and two sons, Wm. Dyson, C. W. Pulling, W. E. Gober, Rev. A. Menzweser, Jno. Gager, T. O. Dey, W. W. Murphy, S. Marx, S. Siessinger, Mr. Damsey, Geo. Williams, J. W. Machamann, Harry Hill, A. Fleishner, C. Upton, R. S. Gorman and wife, C. A. Fleishner, C. Upton, R. S. Gorman and wife, C. Meese, H. S. Hagrander, E. J. Smith, Oscar Lewis, H. Adams and wife, S. Siebenhauer, F. H. Foster and wife, Geo. E. Aston and wife, S. Josepha and wife, S. Weir, F. E. Kennedy, Mrs. D. M. Stark, Ford, Dr. N. Addorly and wife, F. G. Stanton and wife, A. Schibas, S. Steinberg, T. Carroll, J. H. Burley, S. R. Jewell and wife, S. Luther, H. H. Hall, E. W. Marston and wife, Grace M. French, F. S. Draper, A. K. Woodburry, E. B. Wilson, F. L. Whitcomb, Miss Lippincott, Mrs. Lippincott, C. Lippincott, W. T. Anderson; also Raymond and Whitcomb excursion party with Chas. H. Wilson and F. T. Whitcomb in charge, and forty-eight second-class.

BUSINESS ITEMS.

The Vienna.

Washington street, leads all for lunches and oysters.

Other Things Do, Too.

"Money talks," says an exchange, "and lots of people like to hear it so long as it has cents to what it says." Other things talk, too, or rather, people talk for them, and talk sense, too. Rev. Jos. M. Saltmon, of Bangor, Pa., says: "Dr. Tutt's are the best liver pills I ever used." That is sense, truth, and will make blood. These pills are a household necessity everywhere. They are a blessing, as well.

Tickets to and From Europe.

Excursion tickets to Paris sold at Northern Pacific ticket office, No. 121 First street corner Washington.

That most delightfully situated residence property, being blocks 75 and 76, known as the Lovejoy block, East Portland, belonging to the estate of the late Pierre Maudet, also the five (5) acres directly situated to the south of that magnificent suburb, "Mt. Tabor," to which cars are now running regularly, will be sold at auction by John B. Gage, at the court house door, on Saturday, June 15, at 10 o'clock A. M. For particulars inquire of John Bigney, or Gilman & Co., auctioneers.

Notice to Pupils of Public Schools.—The newly adopted readers have arrived. Pupils can now take their old readers to The Wiley B. Allen Book and Music store 171 First st. and get the new books in even exchange. Those not supplied with the old readers can get the new books at "introductory" price, which is less than half what the price will be later on.

A good stomach is everything. Preserve a perfect temper by taking all your meals at the New York; the best restaurant of the city.

Wanted—A first-class broiler and short order cook; good wages. Apply at once at Freimann's restaurant, corner of First and Oak.

Young Ladies' Journal and other fashion plates for June at Ed Dekum's, 49 Washington street.

Pullman reservations made for all points East via the Northern Pacific Railroad. Office, No. 121 First St., corner Washington.

Spring Suits

We have them. The neatest, noblest styles ever brought here. The most complete lines of business and dress suits yet shown.

Don't imagine for an instant that because we only sell the best quality of clothing that's made, that our prices are high; on the contrary, you'll find that our prices are as low and perhaps lower than greatly inferior Clothing is sold for elsewhere.

See Our Corner Window.

Ba.brigqan

Underwear

We have a large stock of summer weight French Balbriggan undershirts and drawers, which we sell at the price of domestic goods, namely $1.50, $2.00 and $2.50 per suit. Also lines of summer Merino and All-Wool in summer weight. Prices $2.00, $3.00, $3.50 and $4.00 per suit.

Straw Hats

Car and see our line and if we don't sell you we will have nothing to say.

MYSTIC TIE BROTHERHOOD.

Annual Session of the Masonic Grand Lodge of Oregon Yesterday.

A Large Attendance—The Complete List of the Delegates Present—The Election of Grand Officers, Etc.

The grand lodge, A. F. and A. M., convened in annual session at the Masonic Temple yesterday. Following is a list of the grand officers and representatives of chartered lodges in attendance:

M. W., Jacob Mayer, G. M.
R. W., Burnham Van Dusen, Dep. G. M.
R. W., James F. Robinson, G. S. W.
R. W., Chas Taylor, G. J. W.
R. W., Dan'l C. McKercher, G. Treas.
R. W., F. J. Babcock, G. Sec.
W., J. R. N. Bell, G. Chaplain.
W., H. J. Bean, G. S. D.
W., Marion Cunningham, G. J. D.
W., J. J. Cawfield, G. S.
W., D. C. Tedford, G. S.
W., G. E. Chamberlain, G. Orator.
W., William Armstrong, G. Marshal.
W., Oscar C. Smith, G. S. Br.
W., David L. Moomaw, G. Sd. Br.
W., T. H. Crawford, G. Organist.
W., Gustaf Wilson, G. Tiler.

PAST GRAND OFFICERS PRESENT.

M. W., James R. Bayley, P. G. M.
M. W., M. G. Stroud, P. G. M.
M. W., W. P. Wright, P. G. M.
M. W., T. McF. Patton, P. G. M.
M. W., D. P. Mason, P. G. M.
M. W., T. S. Reams, P. G. M.
M. W., S. Chadwick.

REPRESENTATIVES OF CHARTERED LODGES.

Multnomah, No. 1, Oregon City—T. F. Ryan, W. T. Burney, A. X. Davis.
Willamette, No. 2, Portland—A. P. DeLin, Thomas Gray, Frank Y. Drake.
Lafayette, No. 3, Lafayette—E. B. Collard, C. W. Talmadge.
Salem, No. 4, Salem—William Miller, F. Tolson.

Fossil, No. 89, Fossil—Charles McKenzie.
Long Creek, No. 90, Long Creek—J. M. Conaway.
Cove, No. 91, Cove—George H. Holmes.

GRAND OFFICERS ELECTED.

An election for grand officers for the ensuing year was held, at which the following were elected: Christopher Taylor, G. M.; James T. Robinson, D. G. M.; J. C. Moreland, G. S. W.; N. P. Bunnell, G. J. W.; D. McKercher, G. T.; S. F. Chadwick, G. S.; R. P. Earhart, trustee of educational fund.

CUT RATES ON IRON.

The Chicago Roads Much Incensed Over the Recent Action of the Northern.

CHICAGO, June 11.—The Northern Pacific has created a great stir among the Northwestern roads by the sending of a big consignment of twenty-five cars of iron for a lighthouse on the North Pacific coast on a cut rate of twenty-three cents per hundred. The tariff on this material from Mount Vernon, Ohio, to the coast is $1.43, but the Northern Pacific, after securing the control for the freight at the rate of twenty-three cents below the published tariff, issued a supplement quoting the rate of $1 20 for the commodity.

The Chicago roads are considerably excited over this act on the part of the Northern Pacific. They claim that the Northern Pacific, not being an initial line, has no right to publish tariffs at all, and they are of the opinion that the publication of the tariff after the contract had been made was in violation of the interstate commerce law.

It is understood that the matter will be brought to the attention of the interstate commerce commission at an early date.

Several freight agents of the interested roads say that if the Northern Pacific intends to signalize its consolidation with the Wisconsin Central by cutting rates in Chicago territory, they will favor a combination to turn all the competition of Pacific coast and Montana business over to the Union Pacific.

A SECRET MARRIAGE.

A Romantic Chapter in the Life of Miss Emma Bond.

ST. LOUIS, June 11.—The *Republic's* Nevada Mo., special says: A romantic chapter was developed here to-day in the life of Miss Emma Bond, whose terrible sufferings at Taylorville, Ill., in the summer of 1882 excited general sympathy all over the United States.

In 1887 Miss Bond visited friends in Hepler, Kansas, and while there met Mr. Justus. The acquaintance culminated in something stronger than friendship, and last October they met by agreement in St. Louis, and were married.

For reasons best known to themselves, they decided to keep the marriage a secret and succeeded in doing so until a few days since, when a misplaced letter conveyed to the wife's relatives the first information which they had obtained of the situation. Mr. Justus was then conducting his business, that of a wool merchant at Hepler, and his wife was at her home in Illinois.

The discovery of the letter was followed by an avowal of the truth and an arrangement to live together. Sunday Justus reached Nevada and married there until his wife arrived to-day. They will visit friends of the husband for a few days, and then go to Hepler to live.

Mrs. Justus has apparently recovered from the effects of the brutal treatment which she suffered.

TO FACILITATE EXECUTIONS.

A Company Incorporated in Chicago to Relieve the Sheriffs.

CHICAGO, June 11.—At the state capitol yesterday a license was issued to the American Execution Co. The capital stock is $25,000, and the avowed object is to take the burden of all executions off the hands of the sheriffs.

Chicago is to be the headquarters of the company, but it is the intention to operate over the entire country in every state where capital punishment is in law, and the executions are to be accomplished in entire accord with the laws of the respective states.

One of the incorporators was seen last night. Decided attention to the fact that very frequently the work of the executioner proved very bungling, and he thought that any sheriff would be glad to obtain the services of experienced hands at the business.

When asked about New York, he said all preparations would be made for using electricity, and rather intimated that in his opinion this method of execution would acquire national popularity.

The Lutheran Synod at Rock Island.

ROCK ISLAND, June 11.—The Augustin Lutheran synod met in this city to-day. There were present, including those from the Pacific coast, 150 clerical and 250 lay delegates. This number will be somewhat augmented during the next three days, as a good many delegates have not reached here yet.

Reverend Lindahl read his report, in which he called special attention to the mission work among Mormons in Utah, where four missionaries are now engaged, and recommended that a number of English missionaries be sent there.

The election of officers resulted in the re-election of President B. P. A. Lindahl, of Illinois; secretary, N. Forsander, of Iowa, and treasurer, C. G. Thulin, of Moline, and the election of Rev. Professor P. J. Sword, of St. Paul, as vice president.

A Penal Altercation.

CLAY CENTER, Kan., June 11.—J. B. Wollington, a traveling man, was fatally shot this morning by Hugh Burns, a physician, and an old and highly respected citizen of this city. The shooting grew out of a personal altercation on the street, and had its origin in domestic wrongs of a particularly aggravating nature.

Switzerland's Proposal Rejected.

BERLIN, June 11.—The government has notified the Swiss authorities that it cannot possibly agree to the proposal made for the expulsion from Switzerland of Herr Stahlgemuth, the German police inspector. It has also informed them that Germany reserves the right to take action.

Semi-Officially Denied.

BERLIN, June 11.—The statement that the delay on the part of Prince, the American secretary of state, in authorizing the American commissioners to sign the Samoan treaty, is due to the question of allowing Germany's claim to indemnity, is semi-officially denied here.

A Suicide's Terrible Leap.

IRONWOOD, Mich., June 11.—William Atkinson, a wealthy and prominent citizen, committed suicide by jumping into the shaft of the Ashland mine. His mangled body was found at the bottom of a 400-foot shaft. No cause is assigned.

Murdered His Mother.

LEBANON, N. H., June 11.—Near Meriden this morning, Lucius Freeman, with an ax, killed his mother and John Morgan. The murderer has been captured. He is thought to be insane.

White Men Killed by Apaches.

TUCSON, June 11.—It is reported that two white men were killed in the Sierra Madre mountains by Apache Indians. Four Indians were seen, but the band is thought to be larger.

A Furniture Dealer's Failure.

ALBUQUERQUE, N. M., June 11.—Dr. C. D. Faxton, police judge, and a large dealer in furniture and glassware, assigned to-day. Liabilities, $11,000; assets, probably $15,000.

The Paris Exposition.

PARIS, June 11.—Three hundred and fifty-four thousand persons visited the exposition yesterday. Of this number, 86,983 made the ascent of the Eiffel tower.

Millers in Convention.

MILWAUKEE, June 11.—The Millers' National Association convened in annual session this afternoon.

A Nobleman's Marriage.

LONDON, June 11.—The marriage of the Duke of Portland and Miss Dallas Yorke took place to-day.

NOTE AND COMMENT.

The cherry market is overdone and dealers buy at their own price from producers. It costs 25 cents to pick, pack and bring a 10-pound box here. Twenty-five cents will just make the produce whole on its outlay and not pay him anything for producing the fruit. There are no canneries to use the fruit, and Seattle—one of the best of all our customers—is destroyed. If we had canneries that would pay 3 cents a pound, that would save the expense of boxing and packing the fruit. Cherries do not dry well, or are not valuable when dried, so the producer is helpless. Yet California sells a hundred times the cherries we have and never fails to find a market. Their cherries go by car loads and ours can and will go so when matters are regulated.

New York proposes now to raise a statue to Horace Greeley. If there is a man that city should honor it may well be Greeley, but how will the great editor of the *Tribune* best be reproduced for time? In bronze, or granite, or marble, but the question refers to the garb the bronze or granite shall wear. Granite is a better memorial for him than bronze, marble would be too artificial, but how shall we dress the granite? Greeley wore his clothes so queerly that it would not be Greeley unless the trousers were turned up and the soft felt hat was tipped up in front. The sculptor will probably refuse to see his subject in such a light, and may even promise on a Grecian wrap or Roman toga—but Greeley would never know himself in such a heathen garb.

A recent news item says that the East will take all our prunes at fair rates. We happen to know of a chance several New England cities had to appreciate fruit that was of good varieties and commanded a good sale at fair prices all through our own region, Montana, Dakota, etc. They ranked our Petites, or French prunes, the same as Turkish figs—ones that said there at 6c by the 1401 pound Lumberlands, while these were put up handsomely in 25-pound boxes, lined with white paper. Those prunes readily sold all through the Inland Empire and our home market at 7 cents, and after being landed East at a cost of 2½ cents for transportation sold there for half what they had brought here. Exactly 5000 pounds were sent East, comprising Silver prunes, Italians, Columbias and Petites, and the loss on them, compared with the prices secured for all sold here, was not less than $250. It may be that the East would take our dried fruit at their own price, but the producer who shipped the 5000 pounds referred to will be sure to receive specific bids before he sends on any more.

Talk is cheap, but according to California talk the fruit grown in that state is dear. They assert that the value of the fruit crop for the year 1889 will be $24,000,000. If their fruit lands average to pay a profit equal to $240 an acre the orchards and vineyards must cover 100,000 acres. If the different plantations average twenty-five acres each there would be 4000 of them. If they average only ten acres each there would be 10,000 of them. But that average of profit is more than they claim, for the average profit is not over $120 an acre, at which rate there would be 200,000 acres of fruit, or 8000 farms of twenty-five acres; or 20,000 farms of ten acres each. There is no doubt that there are thousands of fruit-growers and the $24,000,000 of value is not unreasonable. A glance at their figures may encourage us to begin something like it for Oregon, in time. Dried fruits are valued at $6,568,000, fresh fruits the same, raisins $3,500,000, citrus fruits the same. The total products from fruits, grain, vegetables, wool, the dairy and wine are estimated at $183,000,000. We must be pushing ahead to keep in sight.

Coal will be very valuable when they develop it in Eastern Oregon, as they have plenty of need for fuel and nothing to supply it with. J. Montague, of Roseburg, says he has just come from Gilliam county, where he has a brother living, and shows samples of coal that he says crops out six inches thick on the side of a canyon, 200 feet up the bluff, which is 300 feet high. The "bloom or "outcrop" is mixed with a slight quantity of base material. He dug in a few feet and brought out a better quality that will burn. He says an expert at Portland told him this bed was only valuable as an indication, the probability being that by sinking down there will develop a richer bed of true coal of better quality. The men who found this small vein know nothing of coal and have no means to work it. The expert tells them the formation is favorable for a find. The top of the bluff for 100 feet is basalt and the layer of coal is found between this basalt and a thin stratum of slate; under this again is sandstone and layers of slate and sandstone alternate. Any information existing there then antedates that terrible time when the volcanoes were active and melting lava overspread the earth. That was some millions of years ago.

Where We Differ From Hudibras

"And proved their doctrine orthodox
By apostolic blows and knocks."
Hudibras.

Whilst we most gladly rest content
With facts for knock-down argument.

JUNE RACES.

Walla Walla Race Meeting

At Walla Walla.

Beginning Thursday, June 20,

—AND—

Ending Saturday, June 22.

PROGRAMME.

FIRST DAY—THURSDAY.

Running—¼-mile dash; purse, $100.
Trotting—For 2-year-olds owned in Washington. May 1, 1889; 2 in 3; purse, $100.
Running—½-mile dash; purse, $100.

SECOND DAY—FRIDAY.

Running—¾-mile dash; purse, $100.
Trotting—3:00 class, 3 in 5; purse, $100.
Running—1-mile; purse, $100.

THIRD DAY—SATURDAY.

Running—¼-mile dash; purse, $100.
Trotting—2:30 class; 3 in 5; purse, $100.
Trotting—For 2-year-olds; 2 in 3; purse, $100.

CONDITIONS.

In all races four or more are required to enter and three to start.

Entries for trotting races close at 5 P. M. June 15. Payment must accompany entry.

Entries for running races close at 8 P. M. of the day preceding that upon which the race is to take place.

Purses will be paid at the finish of each race, and will be 70 per cent to first horse, 20 per cent to second horse, and 10 per cent to third horse.

The Association reserves the right to alter and amend, or postpone any or all of these races, should the Board of Directors in their judgment and for cause deem it expedient to do so.

REDUCED RAILROAD FARE.

Rates of one and one-fifth fares for the round trip have been made by the O. R. & N., O. & W. T. and N. P. railroad companies from all points on their lines from and including Portland, Huntington, Seattle, Tacoma, Spokane Falls and Lewiston.

Racing animals coming pay full fare and return free.

Arrangements have been made with the railroad companies that horsemen going from Portland to Spokane Falls, or other eastern points, with racing stables, can come to Walla Walla from Wallula without additional charge through rates, the only additional expense being the full fare from Wallula to Walla Walla.

Records made at this meeting will not be considered as a bar at the fall meetings.

For further information or entry blanks, call on or address A. BYRD or HENRY KELLING, Secretary.

HOLLADAY'S ADDITION

PRICES FROM $600 A LOT UPWARDS.

TO EAST PORTLAND.

This magnificent property comprises 1400 lots and lies immediately between the city of East Portland on the south and the city of Albina (population 4000) on the north, being really a "reserve" between these combined population of SIXTEEN THOUSAND. It is high, commanding a view of the entire East Portland and Albina and is reached by the street cars of the Willamette Bridge Railway Co. in the heart of East Portland, across the Morrison street bridge, and the other running due west across the river terminating in Portland. In addition to these two lines the cars of the Vancouver motor line run to the road Company's steam ferry or by the small ferries running from Portland to Albina. Some of the "west side" are located in this addition. Many of the most prominent residents of Portland and East Portland property in Holladay's addition and many elegant and substantial residences will be constructed this season. A magnificent Boulevard, Holladay avenue, 100 feet wide, cuts through the entire property from west to east, the most popular drives out of the city. This connects with the new steel railroad and wagon bridge now building on the west, thus giving easy access into Portland from this most desirable property. Address or call at

A Chance for a Bargain

GLENCOE PARK

Where It is Located.

GLENCOE PARK is due east from East Portland, three and one-half blocks from Sunnyside.

GLENCOE PARK on the north is bounded by the East Portland and Mount Tabor Motor Line, on the South by Hawthorne avenue, the finest avenue on the East Side, with motor line already constructed.

GLENCOE PARK is laid out to conform with the streets of East Portland. Streets running east and west are O, P, Q, R, S, T and Hawthorne avenues.

GLENCOE PARK streets running north and south are Myrtle and Alder avenues. Myrtle avenue extends from Hawthorne avenue to Base Line road, thus affording residents of this beautiful suburb the choice of the two finest drives from East Portland to Mount Tabor.

GLENCOE PARK lots are 50x100 feet, 50x118 feet, 50x127 feet. Terms of sale, quarter cash, balance on monthly installments without interest.

GLENCOE PARK lots slope gradually to the west, affording perfect drainage and fine view.

GLENCOE PARK lots can be supplied with pure well water at a depth of 15 to 20 feet. If you purchase a lot in the center of this tract you have your choice of the two motor lines by walking three blocks either way. You will find the owner, R. Shannon, on the ground from 10 A. M. to 4 P. M. each day. Take East Portland and Mount Tabor motor line, as it is completed to Glencoe Park, or inquire of W. H. Cameron, S. W. cor. Fourth and Alder sts., East Portland.

BARGAINS!

A few of the choicest villa lots on the western slope of Mount Tabor; sightly, good water, good soil. All lots front on Prospect avenue, which is graced and sidewalked, and but one minute's walk from two car lines. Elegant homes will surround you if you buy here. No such desirable property at Mt. Tabor has ever before been put on the market. Call and learn particulars. LADRU ROYAL, Portland Savings Bank Building.

WHEN YOU INVEST

Buy where you can realize on your property at once if necessary and where you are sure of a permanent growth.

BROOKDALE

Affords just such an opportunity and is within the means of all. It is situate on Hawthorne avenue, 3 high, level and clear, is 50 per cent cheaper than any property in the neighborhood and can be had on easy terms. Large lots, low prices, quick sales.

LAMBERT & SARGENT 1117 Fourth Street, East Portland.

DEATH OF MAYOR WHEELER.

He Passed Peacefully Away at East Portland Yesterday Afternoon.

Special Meeting of the Council—Appropriate Action—The Funeral Resolutions Adopted —Republican City Convention—Notes.

Mayor E. C. Wheeler, who has been sick with heart disease for the past four months, died yesterday afternoon at the residence of J. T. Stewart, at 1:15. Mr. Wheeler has been a resident of East Portland for about ten years, during which time he was a member of the city council one term, and has been mayor for the past two years. His term for the latter office would have expired July 1. Mr. Wheeler was 53 years of age, and he leaves a wife and child. The city hall and engine houses have been draped in mourning out of respect to him.

The funeral will take place to-morrow at 10 A. M., from the residence of J. T. Stewart, Fourth and A. The remains will be conveyed to Lone Fir cemetery for interment.

It is expected that the business houses will be closed between 9 A. M. and 1 P. M. to-morrow in accordance with the request of the president of the common council.

SPECIAL COUNCIL MEETING.

A special meeting of the city council was called yesterday afternoon at 4 o'clock by the president, R. Merrick, to take appropriate action in view of the death of Mayor Wheeler.

It was moved and carried that the city hall be draped for thirty days, out of respect for the late mayor, and Hawkins, Dempsey and Marshal Morgan were made a committee to see that the draperies were procured.

Hawkins and Carey, assisted by the recorder, were appointed as a committee to draw up resolutions of respect for the deceased. The committee will report at the next regular meeting, at which time the resolutions will become a part of the minutes of the meeting.

It was decided that the city officers will attend the funeral in a body and a committee was appointed to make the necessary arrangements and secure carriages.

The recorder was instructed to invite the Portland and Albina city officials to attend the funeral, and the business men are asked to close their places of business during the funeral.

Republican City Convention.

The republican city convention met last evening at the council chamber and was called to order by J. H. Hall, chairman of the city central committee. E. A. Bancroft was elected temporary chairman, and E. E. Long temporary secretary.

On motion of J. H. Hall a committee on credentials was appointed consisting of one delegate from each ward as follows:

First ward—David A. Morris, E. A. Bancroft, P. Shickley, R. B. McMillan and F. W. Thomas.

Second Ward—J. H. Hall, H. C. Hill, Ed Brandon, J. M. Lewis and E. E. Long.

Third Ward—T. M. Hurlburt, P. G. Landin, M. A. Flinn, Ike Shannon and Joseph Floyd.

Fourth Ward—F. Frank, J. G. Watt, C. Sprague, F. Haskins and T. A. Davey.

The committee on order of business reported the following order to be observed in the permanent organization and nomination of a ticket:

First, that the temporary officers be made the permanent officers of the convention; second, nomination of mayor; third, nomination of recorder; fourth, nomination of treasurer; sixth, nomination of assessor; seventh, nomination of four councilmen by the delegations from the respective wards and confirmation of the same; eighth, nomination and confirmation of central committee.

RESOLUTIONS ADOPTED.

Mr. F. E. Long moved that a committee be appointed to draw up suitable resolutions upon the death of Mayor Wheeler. The motion was carried and the following committee was appointed: H. C. Hill, H. C. Reed, Dr. M. A. Flinn.

Following preamble and resolutions were unanimously adopted upon report of the committee:

Whereas, The messenger of death has summoned from our midst our honored mayor, E. C. Wheeler; therefore be it

Resolved, That by the death of Mayor E. C. Wheeler the community has lost an able, honest, energetic and upright citizen, whose sterling qualities and manly bearing won for him the love, respect and admiration of all.

That the republican party has lost thereby one of its most prominent, efficient and fearless leaders.

That we tender to the bereaved and sorrowing family our heartfelt sympathies in the irreparable loss which they are called upon to suffer.

JOHN H. HALL,
M. A. FLINN,
H. C. HILL,
Committee.

THE TICKET.

The following ticket was then placed in nomination: For mayor, J. T. Stewart; for recorder, W. R. Bishop; for marshal, Frank Harvey; for treasurer, W. D. Pape; for assessor, H. H. Holmes.

Nominees for councilmen—First ward, M. J. McMahon; second ward, J. M. Stott; third ward, E. Martin; fourth ward, A. William Happeny.

Central committee—First ward, H. C. Smith; second ward, J. H. Hall; third ward, Thomas Hurlburt; fourth ward, J. G. Watt.

A BRUTAL ACTION.

The other evening Mrs. John D. Critchell, of Holladay addition, started to call on Mrs. Lena Whitmarsh, who lives in McMillen's addition. She had reached Mrs. Whitmarsh's house and was about to enter, when her child's pet dog, Fanny, had followed her. Fanny barked and made a noise as she was passing. The fellow seized a club and, hurling aimed the dog back to the woman. The injured lady ran to save the dog, and before she could get behind her the fellow struck her side and struck the animal a heavy blow with the club, killing it. He then walked away, laughing and saying that the dog would never run after any one again. He called back after he had gone some distance and said his name was Moore.

SPECIAL NOTICE.

The members of the common council and the officers of the city of East Portland are hereby requested to be present at the council chamber in said city at 9:30 A. M., June 14, to attend the funeral of the late Hon. E. C. Wheeler, which will take place from the residence of J. T. Stewart, at the corner of Fourth and A streets, on June the 14th, at 10 o'clock A. M. All business houses are requested to close between the hours of 9 o'clock A. M. and 1 o'clock P. M. of that day. R. MERRICK, President of the Council.

GOOSE FINED THIRTY DOLLARS.

Robert Coone and wife, who kept the Half-way house on the Milwaukie road, were arraigned in Justice Mayo's court yesterday forenoon, charged with selling liquor on Sunday. The case was before a jury composed of A. H. Logan, Jas. Stott, Jas. Humphrey and E. L. Pierce. The evidence was conclusive that the defendants sold the liquor, and the jury after a few moments' deliberation, brought in a verdict of guilty as charged. Both were fined $15 each and cost.

PERSONAL.

Miss Dolie Phillips, principal of the Kansas City schools, arrived yesterday, and is now visiting with her sister, Mrs. O. P. Mason. She will remain here until September, when she will resume her duties in the Kansas City schools.

SPECIAL SCHOOL ELECTION.

In consequence of the resignation of Mr. J. T. Stewart, who has moved out of the district, the directors have ordered a special election to take place June 24, to elect another director for the unexpired term.

LAWN PARTY.

The lawn party this evening to be given by the young people of St. David's church will be held at the corner of Mr. Jones, between Third and Fourth, Stephens addition. The Fifth street cars pass within one block.

FOR SALE.

Saloon fixtures, including pictures, chandeliers, tables, chairs, bar, billiard tables, etc., from Dodson's saloon, corner of Fourth and J. Inquire of H. Lieman, Water and N streets.

FOR SCHOOL DIRECTOR.

At the solicitation of many friends, Mr. Thomas Parrott has consented to become a candidate for school director at the special election, June 24.

HENRY VILLARD IS HERE.

He Will Address the Business Men at the New Park To-morrow Night.

Henry Villard, ex-president of the Northern Pacific Railroad Company, and party, arrived on a special train from Tacoma at 7:20 yesterday morning. He was accompanied by Thomas F. Oakes, president; C. H. Prescott, second vice president; and Paul Schulze, general land agent of the Northern Pacific; C. C. Beaman, of the law firm of Evarts, Choate & Beaman, of New York city, and William Sak man, of the banking house of Speyer & Co., of New York, Frankfort and London. The party are quartered at Mrs. Comstock's boarding house, No. 1 C Alder street, and will be here until next Tuesday. They will return via Tacoma, stopping at Spokane Falls and other places.

Mr. Villard was busy all day yesterday with railroad matters. He was able to take a look about town, and noticed a great deal of improvement since his last visit here six years ago.

At the Arlington Club yesterday Mr. Villard received a committee of the Board of Trade, consisting of Colonel John McCraken, W. S. Ladson, Ellis G. Hughes and Richard Koehler, who invited him to address a meeting of the business men of the city at the New Park theater at 8 o'clock to-morrow evening. He consented to do so.

Mr. Villard positively declines to be interviewed. He says that whatever he has to say he will tell the merchants to-morrow night. Mr. Villard is in fair health and is looking well.

WHITCOMB-RAYMOND EXCURSIONISTS.

This Party, Numbering 78, En-Route to Alaska, Will Arrive in Portland To-Day.

The following is a list of the first Whitcomb and Raymond Alaska party that will arrive in Portland to-day. The party is in charge of Charles H. Whitcomb and Frank P. Whitcomb, of Boston, Massachusetts:

Wilson, Mrs. Charles H	Boston, Mass.

OREGON PIONEER ASSOCIATION.

The Sixteenth Annual Reunion Which Will Be Held in Portland Tuesday, June 18.

According to the constitution and by-laws of the Oregon Pioneer Association, whenever the 15th of June falls on Saturday, the reunion shall be held on the following Tuesday. This accounts for the change of time, and this statement is made for the benefit of those who at ll cling to the idea that the reunion is to take place on the 15th inst.

All arrangements have been made for a grand good time at this annual gathering.

The citizens of Portland have done their share, and all that is now needed to make the occasion a gratifying success is for the pioneers to come to the city with their wives, children and grandchildren, and give the newcomers here the opportunity of seeing the kind of people who founded this state and made it a part of our Union—second to none in the constellation of states.

The annual address will be delivered by Hon. Orange Jacobs, of Seattle, W. T., and the occasional address by Hon. James K. Kelly, of this city, who will make special allusion to the part early settlers took in the Indian wars prevailing at that time, and in which he participated, and how he, as the principal colonel of one of the regiments of volunteers.

The pioneer exercises will be held in the North Pacific Industrial Exposition building, and in the evening a grand ball will be given for those who wish to so indulge; and at the same time excellent opportunity will be afforded for a social gathering of those who wish to talk over the scenes of days long ago, when ox teams were the only trains by which folks could arrive in Oregon.

To avoid confusion, no one will be admitted to the Exposition building in the evening, except by ticket, which all pioneers may obtain of the secretary of the association at 160½ Second street, when they pay their annual dues, without extra charge.

To-night the committee of arrangements will hold their final meeting, at which all preliminaries will be settled and a full programme arranged.

Interior press please copy.

A TERRIBLE NUISANCE.

Fearful Stench From Johnson Creek—Residents Along It Clamor for a Sewer.

There is great complaint about the stench created by the refuse from a brewery, which is thrown into Johnson creek and deposited along the creek, especially in the vicinity of Twenty-first and G streets.

The creek runs through some of the finest residence property in the city, and residents along it are fearful that the stench from it will breed a pestilence. They are very anxious to have the proposed sewer built to carry off the water of this creek, and complain of the delay of the council in this matter.

The job has been delayed on account of threat and opposition by nine large property owners along the line, and the annoyance caused by this delay is a sort of righteous retribution on some who opposed the Tanner creek sewer and carried it into the courts.

The council has been waiting and trying to get the sewer built without having any trouble, but there is so much complaint and such urgent necessity for the sewer, they will probably decide to go ahead with work and let those who want to make trouble go ahead and get what satisfaction they can. There has been delay enough in this matter.

CLAIMS SHE WAS KIDNAPED.

Lee Tong in Great Trouble Over the Loss of His Little Daughter.

Lee Tong, a Chinese merchant doing business on Second street and residing on Alder street, between Third and Fourth, was in great trouble yesterday, on account of his daughter, a child of 8 years, being kidnaped, as he expressed it. The child, it appears, was taken away by the Woman's North Pacific Presbyterian Board of Missions on the ground that it was held in bondage by two Chinese woman of bad character.

Lee Tong claims the child as his own, and persons acquainted with him say it is his child, and that he is a respectable Chinaman who has a wife and family, and that the taking of the child was an outrage. It is a very difficult matter to be certain about such things; but when it comes down to taking away any one's children there ought to be no mistakes made. The matter will probably be investigated.

PERSONAL.

Masters Walter and Guy Holman, the sons of Mr. Edward Holman, will leave shortly for Oysterville, W. T., to spend the summer.

Miss Allie E. Higgins, daughter of Mr. William L. Higgins, of this city, who has been teaching school at Colfax, W. T., for the past year, has returned to Portland. Miss Higgins will spend the summer vacation with her parents.

We recommend the use of Angostura Bitters to our friends who suffer with dyspepsia, but only the genuine, manufactured by Dr. Siegert & Sons. At druggists.

Purchase your tickets and reserve your sleeping car accommodation at No. 121 First street, corner Washington, office Northern Pacific Railroad.

THE NEEDY SEATTLEITES.

The Committee Soliciting Yesterday Met With Excellent Success.

The Portland Natural Ice Company Donate a Carload of Ice to the Sufferers—Twenty-five Cases of Condensed Milk.

A committee, consisting of Messrs. C. H. Dodd and H. J. Corbett, were out soliciting subscriptions for the sufferers by the Seattle fire yesterday, and met with very encouraging success the citizens, feeling that the unfortunate city needed assistance, and they were willing, even eager to give it.

Many of the contributors yesterday told the committee to call again in case the amount received was in any way inadequate to give the relief required. Some spoke of the backwardness of some of Portland's financial institutions, and the matter will be brought to the attention of the banks and insurance companies. The committee purposes to call again on those institutions who have not contributed as banks or insurance companies, and it is expected their subscriptions will be in keeping with their means as the need is great.

A CAR LOAD OF ICE.

Mr. Dodd, yesterday, received a letter from the Portland Natural Ice Company notifying him as chairman of the Seattle relief committee that they had made arrangements with S. G. Fulton of the Northern Pacific whereby they would ship immediately a car load of ice to Seattle, the Northern Pacific transport ng it free of charge.

The following was one of the first dispatches received in this city, offering aid to the Seattle sufferers, after the fire.

HIGHLAND, Ill., June 8, 1889.

To Oliphant & Co., Portland, Or.: If any suffering at Seattle, donate from nearest stock, twenty-five cases milk. In our name.

ESTRETIA MILK CONDENSING CO.

The goods went forward on the relief car on Friday last.

A SUGGESTION.

There are a large number of person in this city in moderate circumstances, who have not been called upon to contribute, and who will probably not be. These persons are anxious to give something towards helping those in need in Seattle, if they only knew where to leave su criptions. It is suggested that the committee designate two, three or more places in different sections of the city, where subscriptions can be left; also the names of the subscribers. If this plan is adopted, it is thought that probably several thousand dollars may be collected in this manner.

YESTERDAY'S COLLECTIONS.

Messrs. Dodd and Corbett, who were out collecting yesterday, raised about $75 without any trouble, the citizens subscribing liberally and without hesitation. They will start out again to-day and hope to receive several large sums from persons who either refused to give, or else with reluctance gave small sums when called upon several days ago.

The following persons left their names and the sums set opposite them at THE OREGONIAN business office yesterday:

Mrs. C. Stewart	$ 2 00
Northwest Pilots and Master's Association	50 00
Cash	3 00
P. J. Mann	50 00
Young People's Ass'n First Baptist church	22 50
N. P. T. and Standards	9 20
F. Rauch	1 00
J. W. Hampson	4 00
James Ellis	4 00
Sabbath school scholars	75
Total for day	$ 74 45

Late in the afternoon $3.35 was received from the Dalles *Times-Mountaineer*. In the previous issue, Mr. John Michell, the editor of that paper, was given credit for contributing $153. The citizens of The Dalles should have also received the credit for contributing this sum.

IN THE LONG, LONG AGO.

What Happened When Gen. Winfield Scott Once Visited Portland.

"Do you see that short thick-set man with the gray moustache crossing the street?" said an old resident standing in front of his place of business, to a reporter yesterday.

"Yes, who is he, and what of him?"

"Just to show you how the years roll around, I will tell you an incident. A good many years ago General Winfield Scott came to this city in a little steamer from San Francisco. She crept up to the bank on the city front, and the citizens were anxious to see him, so they "gathered at the river," and formed a line to shake hands with him as he came ashore.

"Collier Robbins had a nice flower garden for those days, and Mrs. Robbins sent up a basket of flowers for General Scott, and that old man with the gray mustache, who was then a rosy cheeked boy of 15, was rigged up in a uniform and carried the flowers to the General. I was as big then," continued the old resident, "as I am now, but it must have been a good while ago, as the rosy cheeked boy had changed to a gray headed old man."

A PETTY SNEAK THIEF.

Mr. F. A. Carpenter, of the U. S. Signal Office, Meets With a Small Loss.

Mr. Ford A. Carpenter, assistant observer at the signal service office, was robbed yesterday morning of some $8 or $10 and his cuff buttons and gold collar button. He sleeps in the signal service office in order to take observations at 5 A. M. A part of his work at this time is to go down and note the river gauge, which occupies him about twenty minutes.

He has not been accustomed to lock the door when he went out for this purpose, and when he returned yesterday morning he found that some one had been there while he was gone, and that things were turned upside down and his purse rifled of its contents and the cuff buttons and collar button taken from his shirt.

The thief must be an enterprising fellow, to climb to the fourth story so early in the morning. He has probably been watching the comings and goings of Mr. Carpenter, and had his movements down fine. Hereafter the door will be shut and locked when he leaves the office.

BRIEF MENTION.

Pleasure boats for rent, at Stark street.

Depot for Maskey's fine candies. All orders delivered free of charge. H. Gerson & Co., corner First and Ash. Telephone No. 459

Go to H. Sinsheimer, No. 214 First street, for the best pianos and organs. He carries only the standard instruments, such as Steinway & Sons and other pianos, Burdett and Story and Clark organs, the best in the world. Easy payments.

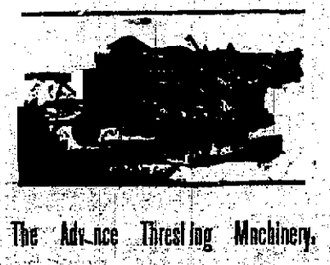
AGENT FOR



The Advance Threshing Machinery.

The best and fastest thresher in America, and a machine that stands without a rival. The ADVANCE Thresher has NEVER been REPLACED by any other machine on the Coast, but has replaced several others that HAVE FAILED to fill WARRANTEE. Why get some OLD STYLE machine because it is cheap when you can get an ADVANCE on the start and do good work in any kind of grain. You do not have to cut and try with the ADVANCE, but start your power, then commence threshing at once. I take the liberty of referring you to the following parties owning ADVANCE Threshers (without their knowledge): Dr. H. A. Davis, Harrisburg, after wearing most of the season trying to run a cheap machine, bought an ADVANCE and averaged 2200 bushels per day. M. J. White & Co., Dixie, same experience, but after getting an ADVANCE averaged 2046 bushels per day. Knox Bros., Albany, with a little 28-inch machine averages 1650½ bushels per day. Henry T. Bold Spangle, writes, after trying a ——— machine the best part of the season bought an ADVANCE. Was then able to run without a blacksmith and carpenter shop. The ENGINE is guaranteed to pull more than any other, and will outtravel all others on the road. If you hear any loud boasts, please tell the parties the ADVANCE THRESHER and ENGINE are sold on their merits entirely. And I am willing to prove all I claim in any field at any time. Do not be humbugged by buying any machine until you see the ADVANCE. I also handle steam fitting goods from pipe, laundry machinery and many other specialties. Send for catalogue of what you want.

THE NATIONAL GUARD.

A Mass-Meeting Decides That Its Presence Is Absolutely Essential.

SEATTLE, June 13.—There was but a single interesting feature about the day, and that was a meeting of citizens held at the armory to consider as to how soon it would be safe to withdraw the military forces from the city. The meeting was largely attended, and many expressions of opinion were made, but the drift of all, however, being that the national guard is of present absolute essential to the safety of the city. All the toughs and bummers of Seattle know, from experience in the Chinese riots of 1886, that the militia will shoot, and shoot to kill, and for that reason they have a wholesome respect for the boys in blue wherever they see them. There have been no depredations in the burnt district when the militia were on guard, and the experiment of withdrawing the soldiers and placing police in charge has demonstrated that it would be worse than folly to let the civil authorities again resume sway. Talk, however, is not full to be the fault of the police, who simply are not strong enough to cope with the mob of rioters. Chief Butterfield finds ample employment for the fifty-six men under him, outside of the burnt district, but he says he is anxious to assume police control of the city whenever he is granted more men.

General Curry to-day tendered to Colonel Haines the use of the Second regiment of the national guard. The colonel has not yet determined whether it will be advisable to accept or not. He has, however, decided that the services of company H, First regiment, at Vancouver are needed, and to-day he issued orders to the captain, directing him and his company to report at Seattle without delay. The company is expected here to-morrow, and then the whole of the First regiment will probably go into camp in the university grounds.

Hundreds of men are at work on the burnt district, many of them being in the employ of the city.

Brick are being rapidly cleaned, and work on very many new structures of a substantial nature is under way.

The Franklin band came into town to-day and gave a delightful concert at the armory.

Nothing was heard to-day of the man supposed to have been murdered by the mob.

RELIEF FROM CHICAGO.

CHICAGO, June 13.—Two hundred dollars was received by the mayor to-day for the Seattle sufferers.

RELIEF FROM BISMARCK, DAKOTA.

BISMARCK, Dak., June 13.—This city has sent $1000 to the Seattle sufferers.

THE PAINTERS' CONVENTION.

Eighty Acres of Land Donated for a Home for the Aged and Indigent.

DENVER, Colo., June 13.—At the third day's session of the International Typographical convent on the matter relative to the sending of a delegate to Paris during the international congress, which convenes next month, was referred to the committee of the whole.

Considerable discussion was caused by the receiving of a communication from the Knights of Labor in the matter of the using of space in the government printing office at Washington. The matter was referred to a special committee, comprising Sutton, of Washington, Cassidy, of Trenton, N. J., Rolshaw, of Bloomington, Ill., Metcalf, of Buffalo, Minn., and Richards, of Waco, Texas. Several propositions for the establishment of a home for invalid and indigent printers were then submitted to the meeting. The committee to which they were referred reported unanimously in favor of accepting the proposition submitted by the sessions of Colorado Springs, who offered eighty acres of land near that city as a gift, on condition that the home be started within two years and completed within three years. The convention, amid much enthusiasm, by a rising vote adopted the report of the committee, both because of the value of the land, and because Colorado Springs is the leading health resort of the country for lung troubles.

The reports of the various committees were then taken up, the consideration of which took up the remainder of the day.

The president ruled that there were no vacancies, and consequently no election of officers will be held until next year. An appeal was taken, and the ruling of the chair was sustained.

An elegant banquet will be given at the Windsor hotel to-night. The convention will probably adjourn to-morrow.

A CHIPPEWA UPRISING.

Several Inoffensive Swedes Murdered by Them Near Mille Lacs Lake.

ST. PAUL, June 13.—A telegram was received at Governor Merriam's office this evening, which contains the startling intelligence that the Chippewa Indians in the vicinity of Mille Lacs lake are or co more at their bloody work of butchering inoffensive settlers.

It is as follows:

NORA, June 13.

Chippewa Indians at Mille Lacs lake commenced killing and driving out the white settlers last night. Six whites were killed and wounded. All of them were inoffensive Swedes. There is no known cause. I don't know how many may have been killed last night. Help us to quiet the Indians if possible. KEVIN MCILERN.

Prompt measures will be taken to suppress the uprising.

ANOTHER REPORT.

MINNEAPOLIS, June 13.—The *Tribune*'s special from Nora says: Evan Nicholson arrived here from the Mille Lacs reservation to-day, and reported that the Mayhinons were shot and killed by the Indians last night, and that three families who had located there were missing. The settlers are getting very anxious and are expecting an attack at any minute. The Indians have been having a dance and have come from all parts of the reservation, and are drinking and are making the woods ring with their hideous howls.

"The people of Nora are making arrangements to raise a company of home rangers to send out to their relief if news of any further depredations is received."

General Ruger, the commanding officer at Fort Herming has made arrangements to leave at once for Nora with several companies of regulars, upon receiving intelligence of any further troubles.

THE CANADIAN PACIFIC.

An Application Made for Reading Privileges on a Maine Branch.

NEW YORK, June 13.—A special to the *Post* says that an application of the Canadian Pacific for bonding privileges over the new short line across the state of Maine is pending in the treasury department, and has been referred to the solicitor for an official opinion. It is not impossible that the decision will not be rendered until after the senate committee on relations with Canada has made its report, which will certainly not be until December 1.

A dispatch has been sent out from Ottawa that a decision averse to the application has been made, and excitement has been created in Canada in consequence.

CORNELL STUDENTS HUMILIATED.

A Picked Nine of Fraternity Men Badly Beaten by Their Professors.

ITHACA, N. Y., June 13.—The faculty of Cornell University treated the students to a genuine surprise last night. At the last faculty meeting the professors challenged a picked nine of the fraternity students to a game of baseball. The students were in consternation. What should they do if they won the game from the professors? On the other hand, how was it possible to let them win? Finally, they decided to beat them very solidly. The result was the most humiliating that ever a faculty gave students. Those professors, supposed to be all head and no muscle, danced and pranced all over them to the tune of 33 to 11.

A BENZINE STILL BURSTS.

One Man Burned to Death and Two Others Fatally Injured.

PITTSBURG, June 13.—A benzine still at the Bear Creed oil refinery, at Coleman's station, boiled over this afternoon, setting fire to the still house. The burning fluid flowed down the hillside, catching Augustus Jack, the stillman, James Kirkpatrick, the foreman, and Charles Dunn before they could get out of the way. Jack was burned to a crisp and died in a few minutes. The others were horribly burned and will probably die.

Deserted in Washington.

WASHINGTON, June 13.—Dispatches received from Chicago this afternoon state that Tom Desmond, the Irish nationalist, and a member of the Clan-na-Gael society, and well known on the Pacific slope, was wanted for complicity in the Cronin murder.

Desmond is at present in Washington, where he has been, according to his own statement, since the 21st of May.

When shown the dispatch from Chicago, he went immediately to the police station and offered to surrender himself, but, as the officers would not arrest him, left his address, and said that he was willing to go to Chicago at any time.

While in Washington, Desmond has made no secret of his whereabouts and has met nearly all of the prominent Irishmen in the city.

Desmond says that both he and McDonald, who was arrested in New York, were in New York on the day that Cronin was murdered.

Thomas H. Walsh, a clerk in one of the government departments, and a well-known Irish land leaguer, corroborates both statements.

A Message for Sullivan.

CHICAGO, June 13.—About noon to-day a messenger arrived at the jail, and announced that he wanted to see Alexander Sullivan on important business. A minute later Sullivan was hurried down from his cell and the messenger handed him a piece of paper that looked like a letter. The prisoner read the contents, smiled, folded the paper up, and put it in his pocket. The nature of the message, which was from the prisoner's wife, could not be ascertained, but it was understood that it was a letter dated either from London or Queenstown, informing him that she would be on her way to America by the time the message reached his hands.

Arrest of a Noted Desperado.

RIO GRANDE CITY, Tex., June 13.—The sheriff to-day arrested Romulo Martinez, one of the most notorious desperadoes who ever infested the frontier counties. Martinez and his brother were among the leaders of the revolutionists, and the avowed personal enemies of many of the present office ials of Mexico.

Ayer's Sarsaparilla requires smaller doses, and is more effective, than other blood medicines.

Through Pullman sleepers and dining cars; also second-class sleepers through to the East via Northern Pacific Railroad. Office, No. 12 First St., corner Washington.

JOHNSON'S OWN AND SEATTLE.

HELIEF FROM CHICAGO.

CHICAGO, June 13.—Two hundred dollars was received by the mayor to-day for the Seattle sufferers.

RELIEF FROM BISMARCK, DAKOTA.

BISMARCK, Dak., June 13.—This city has sent $1000 to the Seattle sufferers.

THE PAINTERS' CONVENTION.

What should they do if they won the game from the professors? On the other hand, how was it possible to let them win? Finally, they decided to beat them very solidly. The result was the most humiliating that ever a faculty gave students. Those professors, supposed to be all head and no muscle, danced and pranced all over them to the tune of 33 to 11.

A BENZINE STILL BURSTS.

One Man Burned to Death and Two Others Fatally Injured.

PITTSBURG, June 13.—A benzine still at the Bear Creed oil refinery, at Coleman's station, boiled over this afternoon, setting fire to the still house. The burning fluid flowed down the hillside, catching Augustus Jack, the stillman, James Kirkpatrick, the foreman, and Charles Dunn before they could get out of the way. Jack was burned to a crisp and died in a few minutes. The others were horribly burned and will probably die.

Deserted in Washington.

WASHINGTON, June 13.—Dispatches received from Chicago this afternoon state that Tom Desmond, the Irish nationalist, and a member of the Clan-na-Gael society, and well known on the Pacific slope, was wanted for complicity in the Cronin murder.

Desmond is at present in Washington, where he has been, according to his own statement, since the 21st of May.

When shown the dispatch from Chicago, he went immediately to the police station and offered to surrender himself, but, as the officers would not arrest him, left his address, and said that he was willing to go to Chicago at any time.

While in Washington, Desmond has made no secret of his whereabouts and has met nearly all of the prominent Irishmen in the city.

Desmond says that both he and McDonald, who was arrested in New York, were in New York on the day that Cronin was murdered.

Thomas H. Walsh, a clerk in one of the government departments, and a well-known Irish land leaguer, corroborates both statements.

A Message for Sullivan.

CHICAGO, June 13.—About noon to-day a messenger arrived at the jail, and announced that he wanted to see Alexander Sullivan on important business. A minute later Sullivan was hurried down from his cell and the messenger handed him a piece of paper that looked like a letter. The prisoner read the contents, smiled, folded the paper up, and put it in his pocket. The nature of the message, which was from the prisoner's wife, could not be ascertained, but it was understood that it was a letter dated either from London or Queenstown, informing him that she would be on her way to America by the time the message reached his hands.

Arrest of a Noted Desperado.

RIO GRANDE CITY, Tex., June 13.—The sheriff to-day arrested Romulo Martinez, one of the most notorious desperadoes who ever infested the frontier counties. Martinez and his brother were among the leaders of the revolutionists, and the avowed personal enemies of many of the present office ials of Mexico.

Ayer's Sarsaparilla requires smaller doses, and is more effective, than other blood medicines.

Through Pullman sleepers and dining cars; also second-class sleepers through to the East via Northern Pacific Railroad. Office, No. 12 First St., corner Washington.

JOHNSON'S OWN AND SEATTLE.

All along the course of the coroner's investigation prejudice was aimed at Sullivan. Every witness was put on the dock to ascertain if he could not somehow say, or be made to say, something that would incriminate Sullivan. It seems to me that in its conduct since the investigation ceased to be an inquiry into the death of Dr. Cronin and became an inquiry as to whether the foul deed could not be fastened upon Alexander Sullivan. It was not by me the murder of Dr. Cronin, so much as can this charge be laid to the door of Alexander Sullivan."

Father Dorney denounced the murder at length. He believed that there would soon be a reaction in the public mind as to Sullivan.

Regarding the Irish society divisions and quarrels, Father Dorney said: "From what I have seen of the testimony, alleged to have been given at the inquest, there is no room for so much malignity shown against Sullivan as could possibly be found towards the opposing factions among his friends. I also feel certain that much of the newspaper talk against him has been originated and kept up by his personal enemies."

"Before Sullivan's arrest, members of his friends did not care to express any opinion in his favor, for fear of their utterances being misconstrued as attempts to divert the course of public justice, yet no sooner was his arrest made than his friends felt free to give utterance to their sentiments, and now you will find that there are hundreds of the friends of Alexander Sullivan who have the same faith and confidence in his innocence as I have myself."

Father Dorney is pastor of St. Gabriel's Roman Catholic church, one of the handsomest sacred edifices in Chicago. He is extremely popular in his congregation, nearly every person in which is of Irish birth or parentage.

MAHONEY'S ALIBI.

Great Efforts Being Made in His Behalf by the Clan-na-Gael.

NEW YORK, June 13.—The *Mail and Express* this evening says:

A detective from Scotland Yard stood on Chambers street, just of the county courthouse for over two hours. He had his eye on 301 Broadway, which is the office of David M. Newberger, counsel for J. J. Maroney, accused of complicity in the murder of Dr. Cronin.

Major Rudolph Fitzpatrick, of 147 West Eighty-third street, who was adjutant general in the Fenian army that invaded Canada, is one of the men who is willing to swear that Maroney was in his place the day that Cronin was murdered. Fitzpatrick has an English wife, who is an ardent supporter of Irish aspirations. Fitzpatrick and wife are relied upon as two who will help establish an alibi for Maroney.

The attempt to prove the prisoner's innocence will not stop with the evidence of Fitzpatrick and wife, and E. J. Rowe, an Ex-Clan-na-Gael man, will also support the claim of an alibi.

One of Maroney's callers yesterday at the Tombs was Thomas J. Dennehy, of the Welfare Club, of Brooklyn. He holds a position with EVEN MICHAELS, county, and is a trusted man in the anti-Detroy Breslin wing of the Clan-na-Gael.

Maroney, Dennehy, and General Miller, the latter a member of the Press Club, now dead, went across the Atlantic on a "mission" about quite two years ago. Maroney was known as Mellville. Dennehy has many Clan-na-Gael men in his camp, and he is expected to take a part in the alibi business.

"The executive committee of the Clan-na-Gael, or United Brotherhood of America, met last night and decided that Maroney and McDonald should be kept in New York, if possible by any form of law. About 30 members did not attend the gather. Some were reached by telegraph, and Patrick Egan, who is on the ocean was not, of course, reached.

The meeting is said to have been held in Philadelphia, and those said to have been present were Ronayne, Tinney, Bradley, Condon and Leonard.

These men are anxious about Maroney, because the British government wants him.

MICHAEL ROLAND INTERVIEWED.

KANSAS CITY, June 14.—Michael Roland, the recorder of Kansas City, whose name has been connected with that of Alexander Sullivan and other members of the Clan-na-Gael in connection with the Cronin murder mystery, expressed his opinion to several reporters to-night that Cronin was murdered by members of the Clan-na-Gael. He thought that some of the more ignorant members, shading the general belief that Cronin was a spy, killed him in a mistaken idea that they were doing the order a favor.

NIGHTLY MEETINGS OF THE CLAN-NA-GAEL.

KANSAS CITY, June 13.—Nightly meetings of the Clan-na-Gael have been held for the past three weeks. The meetings have been conducted with the strictest secrecy.

THE NEW YORK ARRESTS.

Governor Hill Refuses to Surrender Maroney and McDonald.

ALBANY, June 13.—A requisition was presented to Governor Hill to-day from Governor Fifer, of Illinois, for the surrender of Maroney and McDonald, charged with the murder of Dr. Cronin.

The governor denied the application, without prejudice and without a renewal of the same, simply on the grounds that the application was not accompanied by an indictment, and that no proof whatever was presented showing that the accused were guilty of the crime charged against them, as required by the laws of this and all other states.

The application was based solely upon the affidavit made upon information and belief.

THE HABEAS CORPUS PETITIONS.

NEW YORK, June 13.—The petitions upon which Judge Andrews last evening granted a writ of habeas corpus for the production in the supreme court of Maroney and McDonald, the men arrested here for complicity in the Cronin murder, were filed to-day in the supreme court. That of McDonald's case was made by Thomas J. Dennehy and was presented by John Delahanty, and that in Maroney's case was made by Edward J. Rowe and presented by E. W. Newberger. The petitioners described themselves as new friends, and alleged that the men were not held by legal commitment, and that there was an entire absence of identification. The matter will come up for argument to-morrow.

A SAN FRANCISCAN WANTED.

Tom Desmond Suspected of Complicity in the Cronin Murder.

SAN FRANCISCO, June 13.—Tom Desmond, an Irish nationalist from San Francisco, is wanted by the police for supposed complicity in the butchery of Dr. Cronin. He escaped from the surveillance of the police in New York Monday, and the Pinkertons are after him.

He registered here at McCoy's hotel April 16, and it is said that he was in frequent conference with a man registered as W. G. Melville, who is believed to be Maroney, now under arrest in New York.

Chief Hubbard says that Desmond has been located in San Francisco, and that hands can be laid on him whenever he is wanted.

Hubbard received information this afternoon of the arrest of another suspect at a point south of here. He is said to resemble Frank Williams, who rented the Carbon cottage.

DESMOND'S RECORD.

SAN FRANCISCO, June 13.—Thomas Desmond, mentioned in the dispatches to-day as being wanted for complicity in the Cronin murder, is well known here, having been a prominent figure during the sand-lot agitation. He was the main support of Denis Kearney, and through the latter's influence was elected sheriff and served a full term. He then went back to his trade of carriage painting. Desmond first gained notoriety in 1867, as one of the crew of the Catalpa, fitted out in England to rescue Fenian prisoners in Australia. Chief of Police Crowley denies that he has been instructed to arrest Desmond.

THE GRAND JURY.

A Number of Witnesses Repeat the Testimony Given Before the Coroner.

CHICAGO, June 12.—The proceedings of the grand jury in the Cronin case are guarded with strict secrecy. A number of witnesses were heard to-day, but none are likely to give sensational evidence.

All the witnesses examined during the afternoon had previously testified at the coroner's inquest. They were Detectives Palmer,

[illegible] Henry Harris
[illegible] Rev. E. B. Bowen
[illegible] Miss Laura Marr
[illegible] Miss Susie L. Cumber
[illegible] Dr. and Mrs. C. V. Leach
[illegible] Miss Agnes E. Pack
[illegible] Miss Eva L. Wallace
[illegible] Miss Cardee

Professor M. G. Royal, Pendleton, Or.

Presentation of diplomas to Misses Emma St. [illegible] Annie Parker, Agnes Peak, Ursula Farrow, Jessie Parker, Wallace Pamella T. Loomis, [illegible] Annie Fawcett, May Bissem, Alice Famous, Stella Tyler, and Magger T. L. [illegible]. C. E. Leighton, C. V. Leach, E. E. Shields, A. L. Callow, A. C. St. John, M. S. Wait, E. D. Vaut, W. H. Hunt and Geo. S. Hopkins.

Professor I. P. Vowen was called to the front and presented by his pupils with a handsome gold-headed cane, after which Professor Vowen presented each of the pupils with a magnificent gold hunting case watch; for which the generous pupils made appropriate responses.

The institute has made wonderful progress during the past year and the trustees of Fresno Wellsmore and the building will have to be enlarged to accommodate all the pupils that are making application for seats during the coming year.

The annual meeting of the alumni was held today, and twenty-one members added to the roll. The following officers were elected for the ensuing year: Miss Nina L. French, president; Elmer H. Webb, vice president; Miss Lulu Mary Sweeney; George E. Hopkins, corresponding secretary.

THE STATE CAPITAL.

Supreme Court Proceedings—The Beardsley Murder Trial Ended.

SALEM, Or., June 13.—In the supreme court today the case of the Commercial National bank of Ogden, respondent, vs. Jeff Mundy and Nick Johnson, partners, doing business under the firm name of Mundy & Johnson, and John Parkinson and Thomas R. Davidson, appellants, on appeal from Multnomah county, was argued and submitted.

Articles of incorporation were filed in the secretary of state's office today by the Mason County Improvement company; W. M. Ryan, W. H. Odell and Thomas Geener incorporators; capital stock, $25,000; object to construct and operate a motor line from Salem to Silverton, buy and sell real estate, etc.

The following have graduated: Classical course—William C. Alderson, A. B., Frank M. Anderson, A. B., Maggie Bryson, A. B., Jessie M. Cross, A. B., William T. Rigby, A. B. Latin and scientific—Albert W. Bowers, A. B., Rebecca G. Brown, A. B. Philosophy, modern literature and art—Maria Elizabeth Boise, B. L., Laura Mae Dimick, B. L., Florence Ida Lois Abrams, Acta A. Forrest, Nellie Mae Howe, Edith Genevieve Hughes, Mary O. Pavvin and Lulu L. Thompson.

THE BURDEN TRIAL.

In the Beardsley case, the examination of witnesses was concluded shortly after noon, and the argument opened by the counsel. Judge Boise finished his instruction to the jury at 5 o'clock, when they were sent out.

FROM CHEHALIS.

A Goodly Contribution in Aid of Seattle—New Lumber Firms.

CHEHALIS, June 13.—Notwithstanding the fact that Chehalis is the nearest point between Chehalis and Seattle, that we have had but little business relations with that place, her great calamity has touched a tender chord which has given ready response. As soon as it was fairly understood that many people had lost their all and were dependent on charity, even temporarily, Mayor Barry called a meeting of citizens to take proper action for Chehalis to contribute for such distressing calls. At the meeting soliciting committees were appointed, who immediately went to work, and a motion was unanimously carried that the council be asked to make a liberal contribution from the city treasury. To add to the good cause the Searcy Comedy Company, which was billed for Saturday night here, offered to donate the net proceeds, and the sum so raised was $84.12. Only a few boxes of clothing, etc., have been received and forwarded to Seattle, and the total contributions from here will exceed $500. It is safe to say that the people of Chehalis will be found in the front rank in the matter of charity.

The Chehalis Lumber company has commenced to cut 50,000 feet per day. The output is to be all shipped to Portland. The lumber is to come from a mill at the Cowlitz, some 40 miles east of here, and the company has purchased [illegible]

THE FAMINE IN CHINA.

Women and Children Being Sold Into Slavery in the Stricken Districts.

SAN FRANCISCO, June 13.—A Chinese paper says that sales of women and children have become a regular occurrence in the famine stricken districts of China.

"It is as much a matter of notoriety," writes a missionary, "as the selling of cattle and sheep. Women and children are not brought to the market, however. The traffic takes place privately. A woman between 25 and 30 years of age is sold for from $5 to $10; a girl under 20 years for from $1 to $3. 50. What is the meaning of this traffic? Is it merely owing to the demand for female domestic in the great cities, or has it a more direct connection with the famine? Some people incline to the latter view. They declare that the famished people by their pressing need have resorted to cannibalism and that, although the parents will not kill and eat their own children, they are less scrupulous about selling them for other persons to kill and eat.

"It is impossible to credit this. A strong probability is that the famine regions are merely supplying cheap victims for the brothels of the cities."

WITHOUT A WEDDING GARMENT.

A Reporter Refused Admission to a Banquet on Account of His Clothes.

SAN FRANCISCO, June 13.—A spirited controversy, which has now been formally brought before the Press Club, has been awakened between the managing editor of the *Alta* and the dramatic critic of the *Chronicle*, who is also president of the Bohemian Club, owing to an occurrence which happened about a week ago.

On the evening of June 4 the Bohemian Club gave a dinner to Lieutenant Jarlin, one of the surviving officers of the man-of-war Vandalia, which was wrecked at Apia, Samoa, in the recent storm. Invitations were sent to the various newspapers in this city, and reporters present. An *Alta* reporter proceeded to the club rooms, but was refused admission because he appeared in the customary business suit, and not in evening dress.

He reported the matter to the managing editor of his paper, who became indignant, and immediately addressed an open letter to the president of the club, denouncing in strong terms the practice of requiring a reporter to appear in dress suits when he is merely on detail work. The suits would be a needless expense. The correspondence on the subject is decidedly crisp.

TO FORESTALL THE UNION PACIFIC.

The New Short Line Projected by the Southern Pacific Management.

SAN FRANCISCO, June 13.—The presence in this city of Donald McLean, general manager of the Wyoming and Pacific Improvement company, and David McClenahan, general superintendent of the same company, has given rise to the rumor that the Southern Pacific directors are interesting themselves in a new transcontinental railroad, to run from Ogden to the Missouri river, in order to prepare their railway system against the time when the Union Pacific shall follow up its expensive surveys in Northern and Southern California by building into Los Angeles or San Francisco.

The projected Pacific Short Line is thought to be the railroad that the Pacific railway people are looking to as the means of reaching at Chicago connections east of the Missouri river. The survey of the road from Sioux City to Ogden is 962 miles long, as against 1032 miles for the Union Pacific.

CALIFORNIA NEWS ITEMS.

San Francisco Notes.

SAN FRANCISCO, June 13.—The appointment by Governor Waterman of James Mc. M. Shafter to be superior judge of the city and county of San Francisco, in place of Judge Jeremiah Sullivan, resigned, was confirmed by the senate.

During the month of May, 7781 passengers travelled Eastward and 7691 Westward over the Southern Pacific route.

Moore, Ferguson & Co., commission merchants, have applied to the board of supervisors for a reduction of their personal property assessment from $6000 to $3000. Of this assessment $5675 is charged to grain. The firm alleges that the grain in question was purchased in this city since the 1st of March 4, when it came in by shipment from Oregon, and therefore is not assessable. They also claim that the sum was assessed in Oregon.

The Southern Pacific officers have found an illegal boring of opium concealed under the floor of the engine room of the steamer Mexico. The smuggling operations were discovered by the inspectors who found 10 ounces of opium on board the steamer Arizona last night for Murray, Idaho, to engage in the defense of his brother-in-law, John McCormick, charged with murder. McCormick had killed the alleged claim jumper McCormick would never have been indicted had it not been that the judge gave the impression to the grand jury that the old, reckless fellow ought to be offended if it was the duty of McCormick to retreat to the wall and to do everything to avoid the difficulty before shooting.

Rewards Ordered Paid.

HELENA, Mont., June 13.—The Wells-Fargo Express Company has instructed Assistant Superintendent Simpson to pay the standing rewards offered by the company for the capture of the two men who killed Agent Hall at Silver Bow Junction, Burns & Silver, which amounts to $4000. Mr. Simpson will pay them as soon as the apportionments have been made.

A LITTLE TOO ZEALOUS—PERHAPS.

Lee Tong's Child Restored to Its Parents—Affecting Scene Between Mother and Daughter.

Lee Tong the Chinese merchant whose child was taken away from his home on Alder street Wednesday by a Women's Presbyterian Board of Missions, secured the return of the little one yesterday by the aid of the sheriff, and by giving bonds to produce her in court when required.

It would probably have astonished the lady missionaries to see how the scene feelings moved the Chinese mother when her child was restored to her as would have been exhibited under the same circumstances by an American woman. The poor woman had been crying and moaning all night, and had fainted several times in a style which would have done credit to a missionary woman if robbed of her child. The scene when the child was returned to her was one that no eyewitness can quite touching, the affection displayed by the mother and child for each other and their joy at being re-united being as apparent as if they were Christians.

There appears to be no evidence that there is anything immoral about Lee Tong's house or family any more than there is about the average Chinese merchant, and it is to be feared there has been over-zealousness in this matter. While the public will sympathize with all judicious efforts to make the people of Portland good, the general opinion is that taking a child from even Chinese parents against their wishes, and locking it in the jail, is a little too much of the good old, but now happily obsolete, style of barnacle-man's body in order to save his soul.

CAPE MEARES LIGHT STATION SITE.

The Selection of the Ground Approved by President Harrison.

A considerable tract of public land at Cape Meares was temporarily reserved some time since for lighthouse purposes. During a visit to the cape some time since, Major T. H. Handbury, United States engineer, and Captain G. Schoss selected the portion of the land which they deemed necessary for the lighthouse reservation, and recommended it be permanently reserved.

The selection was approved, and the following proclamation issued by President Harrison:

"EXECUTIVE MANSION, May 29, 1889.

It is hereby ordered that the following described tracts of land situate in fractional township 1 south, range 10 and 11 west, of the Willamette meridian, Oregon, be permanently reserved for lighthouse purposes at Cape Meares, Oregon, viz: Lot No. 1, section 12; lots 1, 2, 3 and 4; section 18, township 1 south, range 11 west; west ½ northwest ¼ (lots 1 and 2) section 13, township 1 south, range 10 west, Oregon.

BENJAMIN HARRISON."

The remainder of the land temporarily reserved is now open to settlement.

A Portland Graduate.

NEW YORK, June 13.—Among the graduates from Warsaw College Tuesday was Casey Barker, of Portland.

Tickets to and From Europe.

Excursion tickets to Paris sold at North-ern Pacific ticket office, No. 121 First street, corner Washington.

Leading officials of the Michigan Central railroad at Chicago have been indicted by the Federal grand jury for alleged violation of the interstate commerce law in making special rates for the shipment of certain grain. The penalty, in the event of conviction, is $20,000 for each offense, and the penalty for each car of grain carried is $1000.

WOMEN AND CHILDREN SOLD INTO SLAVERY.

Women and Children Being Sold Into Slavery in the Stricken Districts.

SAN FRANCISCO, June 13.—A Chinese paper says that sales of women and children have become a regular occurrence in the famine stricken districts of China.

San Francisco Notes.

SAN FRANCISCO, June 13.—The appointment by Governor Waterman of James Mc. M. Shafter to be superior judge of the city and county of San Francisco, in place of Judge Jeremiah Sullivan, resigned, was confirmed by the senate.

During the month of May, 7781 passengers travelled Eastward and 7691 Westward over the Southern Pacific route.

Moore, Ferguson & Co., commission merchants, have applied to the board of supervisors for a reduction of their personal property assessment from $6000 to $3000. Of this assessment $5675 is charged to grain. The firm alleges that the grain in question was purchased in this city since the 1st of March 4, when it came in by shipment from Oregon, and therefore is not assessable. They also claim that the sum was assessed in Oregon.

The Southern Pacific officers have found an illegal boring of opium concealed under the floor of the engine room of the steamer Mexico. The smuggling operations were discovered by the inspectors who found 10 ounces of opium on board the steamer Arizona last night for Murray, Idaho, to engage in the defense of his brother-in-law, John McCormick, charged with murder. McCormick had killed the alleged claim jumper McCormick would never have been indicted had it not been that the judge gave the impression to the grand jury that the old, reckless fellow ought to be offended if it was the duty of McCormick to retreat to the wall and to do everything to avoid the difficulty before shooting.

Rewards Ordered Paid.

HELENA, Mont., June 13.—The Wells-Fargo Express Company has instructed Assistant Superintendent Simpson to pay the standing rewards offered by the company for the capture of the two men who killed Agent Hall at Silver Bow Junction, Burns & Silver, which amounts to $4000. Mr. Simpson will pay them as soon as the apportionments have been made.

GENERAL BARNETT'S WILL.

It Cuts Off His Son and Daughter With Five Dollars Each.

ST. LOUIS, June 13.—Five years ago General W. P. Harney, who died a few weeks since at the age of over 90 years, married his old and faithful housekeeper, Mary Meyer. Their union created a sensation and aroused much indignation among the general's relatives, but none more intensely than Mrs. Harney herself, who, admitted no protests, but leaves her all his property, with the exception of $5. The estate is estimated to be worth $50,000.

Charles H. Turner, an attorney here, has received a letter from John M. Harney, a son of the living officers of the man-of-war Vandalia, which was wrecked at Apia, Samoa, in the recent storm. Invitations were sent to the various newspapers in this city, and reporters present. An *Alta* reporter proceeded to the club rooms, but was refused admission because he appeared in the customary business suit, and not in evening dress.

He reported the matter to the managing editor of his paper, who became indignant, and immediately addressed an open letter to the president of the club, denouncing in strong terms the practice of requiring a reporter to appear in dress suits when he is merely on detail work. The suits would be a needless expense. The correspondence on the subject is decidedly crisp.

TO FORESTALL THE UNION PACIFIC.

The New Short Line Projected by the Southern Pacific Management.

SAN FRANCISCO, June 13.—The presence in this city of Donald McLean, general manager of the Wyoming and Pacific Improvement company, and David McClenahan, general superintendent of the same company, has given rise to the rumor that the Southern Pacific directors are interesting themselves in a new transcontinental railroad, to run from Ogden to the Missouri river, in order to prepare their railway system against the time when the Union Pacific shall follow up its expensive surveys in Northern and Southern California by building into Los Angeles or San Francisco.

The projected Pacific Short Line is thought to be the railroad that the Pacific railway people are looking to as the means of reaching at Chicago connections east of the Missouri river. The survey of the road from Sioux City to Ogden is 962 miles long, as against 1032 miles for the Union Pacific.

GENERAL BARNETT'S WILL.

It Cuts Off His Son and Daughter With Five Dollars Each.

ST. LOUIS, June 13.—Five years ago General W. P. Harney, who died a few weeks since at the age of over 90 years, married his old and faithful housekeeper, Mary Meyer. Their union created a sensation and aroused much indignation among the general's relatives, but none more intensely than Mrs. Harney herself, who, admitted no protests, but leaves her all his property, with the exception of $5. The estate is estimated to be worth $50,000.

Charles H. Turner, an attorney here, has received a letter from John M. Harney, a son of General Harney, who lives at San Diego, Cal., stating that he was coming to St. Louis to test the will, on the ground that undue influence was exerted over his aged father when the will was made during his illness.

General Harney's will reads as follows:

I, William S. Harney, of the city of St. Louis, and state of Missouri, do make this for my last will and testament, as follows, to-wit:

First—I give and bequeath to my son, John M. Harney, the sum of five (5) dollars.

Second—I give and bequeath to my daughter, Eliza R. Dancas, the sum of five (5) dollars.

Third—All the rest of my estate, real and personal, and mixed, of whatever nature described and wherever situated, I give and bequeath to my beloved wife, Mary S. Harney, and her heirs forever.

Fourth—I hereby constitute and appoint my beloved wife, Mary S. Harney, executrix of this my last will, and direct that she be not required to give any bond as such executrix.

In witness whereof I have herewith set my hand and seal, this 26th day of October, 1885.

WILLIAM S. HARNEY.

CONFERENCE OF COLORED MEN

Representatives From Fourteen Counties of Mississippi Endorse Harrison.

JACKSON, Miss., June 13.—A conference of colored men was held here today. Fourteen counties of the state were represented. The object of the meeting was for the general settlement of the colored race, politically and otherwise throughout the Southern states.

Resolutions were adopted expressing the hope that the election of Harrison and the passage of the national election law, which is now being advocated, would prove to be important events in the progress of the race, favoring the Blair bill and declaring that a railroad bill passed by the last legislature, which provides for separate accommodations for colored and white people, was a species of class legislation intended to degrade intelligent colored passengers.

President Harrison's course was strongly indorsed, and it was declared that he had unmistakably demonstrated to the satisfaction of the country and the colored people that the efforts of the Democratic persons who impudgeded caste prejudices into the republican party have not, and will not, receive any countenance or encouragement from this administration.

Lord Coull Drowned.

PICTOU, Ont., June 13.—Lord A. P. Coull, the evangelist, was drowned yesterday in the Bay of Antigonish, near Queensborough. The body was found this morning a few feet from the shore. Lord Coull had just come from Brooklyn, where he has left an only son. The funeral will be held on Friday morning, accompanied by his servant.

For a disordered liver try Beecham's Pills.

GRAY'S HARBOR.

The Railroads Will Soon Furnish Quick Transportation—Buildings Now Ind.

MONTESANO, WN., June 10.

In common with the noble and generous hearted people of America, we of beautiful Montesano lay aside selfish ambition, and unite in the common sorrow for our grief stricken brethren of Johnstown and of our neighbor of the proud and queenly Seattle.

For the present deemed sufficient to satisfy the act, the MAYOR has vetoed the street railway ordinance. There is considerable disappointment in this early demise of the scheme, but the hope is feared. The veto is backed by the company too heavy a mortgage on the future to warrant him in approval.

"The woods are full" of men and teams, clearing and grading the new railroad between this place and Aberdeen, the present point of railroad communication. Before another week it is expected over 1000 men will be at work helping to open the path that will let the world in to our fertile shores.

Reasonable hopes are now entertained that the Olympia & Gray's Harbor railroad will be built the present season. Prominent builders representing sufficient capital have been along the route, and express perfect satisfaction with the country and commend the feasibility of the undertaking. Olympia is much interested in the scheme as her enable people are bottled up, with little hope for expansion, until she can shake hands with the outside world. Of course she has a narrow gauge road, but the broad gauger people of the west feel as uncomfortable on a narrow gauge road as an agnostic on a hobby horse.

A movement is on foot to mitigate the difficulties in getting into and out of this place. Soon Chehalis will be reached and Summit division or section will be finished to deep water, and then a steamer to make daily round trips from Seattle and Tacoma. Hon. Karr Shields is to meet trains with passengers that will be put on. It is hoped the Fleetwood, a great favorite with our people, or the Washington, will be secured to make this run. Mr. George E. Williams is now working continually for the accomplishment of this enterprise.

We need more building material. We need more houses. We need men of enterprise who will build houses and business rooms for the hundreds who come and the many who come again for the lack of those business and residence opportunities. If some active person or progressive syndicate will come here and build 100 houses every one will be occupied before the paint is dry.

WASHINGTON NEWS ITEMS.

Not an Applicant for Office.

WASHINGTON, June 13.—An old gentleman named Lewis Townsend, of Virginia, called to pay his respects to the president today. On his card was inscribed: "Seventy-four years old to-day; voted for Harrison and Granger in 1836, Harrison and Tyler in 1840, Harrison and Morton in 1888; am not an applicant for office." The president saw him less few minutes.

Pensions Granted.

WASHINGTON, June 13.—Pensions have been granted the following: Oregon—Original invalid, Wm. M. Dew. Washington Territory—Mexican survivor—John M. Smith.

To Be Appraiser of Merchandise.

WASHINGTON, June 13.—The president this afternoon appointed Donald McLean, of New York, to be general appraiser of merchandise for the port of New York.

Strike Among Stokers.

ANTWERP, June 13.—The steamship stokers here have struck.

Reserve seats on any steam ship line in the Atlantic service to Europe can be secured at Northern Pacific ticket office, No. 121 First street, corner Washington.

SPORTING NOTES.

Races on Eastern and Western Tracks—A Two-Round Match.

JEROME PARK, June 13.—The spring meeting of the American Jockey Club closed here to-day. The track was heavy and sticky.

Three-quarters of a mile—Starlight won in 1:22, Montana second, Nuchige third.

Mile and an eighth—Emceland won in 2:09¾. Fashion second, Ed third.

Mile and a-half—Erie won in 2:47¾. Diable second, Zephyrus third.

Fourteen hurdles—Jacks—Volunteer won in 1:36¾, Chevalier Cloth second, Prodigal third.

Mile and one-eighth—Ben Harrison won in 1:55¾, Bohemian second, J. Job third.

Mile—Guarantee won in 1:46. Maia second, Sabinetta third.

Mile and a-half—Ben won in 2:47¾. First Attempt second, Uzilla third.

ST LOUIS JOCKEY CLUB RACES.

St. Louis, June 13.—The track was good to-day, and the attendance large.

Seven furlongs, three-year-olds and upwards—Ten won, Ernest Race second, Mirth third; time, 1:31½.

Mile, three-year-olds—Voyageur won, Long Dance second, Glockner third; time, 1:45¾.

Seven furlongs, two-year-olds—Penn P. won, Starter Caldwell second, Watterson third; time, 1:34½.

One and one-eighth miles—Callenio won, Gardner second, Bionas third; time, 1:58¾.

Mile, three-year-olds—Clara C. won, Strideaway second, Queen of Trumps third; time, 1:44¾.

TEN-ROUND MATCH AT BUTTE.

BUTTE, M. T., June 13.—At the Opera house this evening, 1200 people were present, when Davis Davis undertook to knock out George Keasler, ten rounds. He did not do it. In fact, he became very near being knocked out himself. Davis went into the ring at 193 pounds, and Keasler at 160. The little man forced the fighting from the start, scoring first blood in the first round. He landed heavily on Keasler's face in the second round, but indeed did not succeed in getting to his opponent's body. Keasler's left eye was closed in the fourth round, and his face was badly bruised. In the seventh round Keasler received a severe blow on the jaw, which dazed him, and Davis followed up his advantage, but was unable to put him out. In the eighth round Keasler was weak, and Davis had the best of the fighting. In the ninth round Keasler was very weak, and Davis had the best of the fighting. In the tenth round Keasler was very weak, and Davis had the best of the fighting. In the eleventh round Keasler was very weak, and Davis had the best of the fighting. In the twelfth round Keasler was very weak, and Davis had the best of the fighting. In the thirteenth round Keasler was very weak, and Davis had the best of the fighting. In the fourteenth round Keasler was very weak, and Davis had the best of the fighting. In the fifteenth round Keasler was very weak, and Davis had the best of the fighting. In the sixteenth round Keasler was very weak, and Davis had the best of the fighting. In the seventeenth round Keasler was very weak, and Davis had the best of the fighting. In the eighteenth round Keasler was very weak, and Davis had the best of the fighting. In the nineteenth round Keasler was very weak, and Davis had the best of the fighting. In the twentieth round Keasler was very weak, and Davis had the best of the fighting.

DEATH OF MAYOR WHEELER.

He Passed Peacefully Away at East Portland Yesterday Afternoon.

Special Meeting of the Council—Appropriate Action—The Funeral—Resolutions Adopted—Republican City Convention—Notes.

Mayor E. C. Wheeler, who has been sick with heart disease for the past four months, died yesterday afternoon at the residence of A. T. Stewart, at 1:45. Mr. Wheeler has been a resident of East Portland for about ten years, during which time he was a member of the city council one term, and has been mayor for the past two years. His term for the latter office would have expired July 1.

Mr. Wheeler was 55 years of age, and he leaves a wife and child. The city hall and engine houses have been draped in mourning out of respect to him.

The funeral will take place to-morrow at 10 A. M. from the residence of A. T. Stewart, Fourth and A. The remains will be conveyed to Lone Fir cemetery for interment.

It is expected that the business houses will be closed between 9 A. M. and 1 P. M. to-morrow in accordance with the request of the president of the common council.

SPECIAL COUNCIL MEETING.

A special meeting of the city council was called yesterday afternoon at 4 o'clock by the president, E. B. Sherlock, to take appropriate action in view of the death of Mayor Wheeler.

It was moved and carried that the city hall be draped for thirty days, out of respect for the late mayor. Bishop, Lewis and Shirey, auditing committee, Mc-Mahon, street committee, and Bishop, Lewis and Shirey, needs committee, to see that the draping is done.

Rankin, Lewis and Shirey, assistant, as the reception ways appointed as a committee to draw up resolutions of respect to be presented to the council in accordance with report at the next regular meeting, at which time the resolutions will become a part of the official records.

It was decided that the city officers will attend the funeral in a body and a committee was appointed to make the necessary arrangements and secure carriages.

The recorder was instructed to invite the Portland and Albina city officials to attend the funeral, and the business men are asked to close their places of business during the funeral.

Republican City Convention.

The republican city convention met last evening at the council chamber and was called to order by J. H. Hall, chairman of the city central committee. F. A. Bancroft was elected temporary chairman, and E. R. Long temporary secretary.

On motion of J. H. Hall a committee on credentials was appointed consisting of one delegate from each ward as follows:

D. A. Morris, J. H. Hall, T. A. Davy and Charles Sprague.

A committee on order of business was also appointed in the same manner consisting of E. B. McMillan, H. C. Hill, T. M. Harlburt and J. G. Watt.

A recess of ten minutes was taken in order to give the committees time to report.

REPORT OF THE COMMITTEE.

The committee on credentials reported the following delegates as being entitled to seats in the convention:

First Ward—David A. Morris, F. A. Bancroft, P. Sharkey, E. B. McMillan and H. W. Thomas.

Second Ward—J. H. Hall, H. C. Hill, Ed Brandon, J. M. Lewis and E. E. Long.

Third Ward—T. M. Harlburt, P. O Lundin, M. A. Flinn, Peter Shannon and Joseph Floyd.

Fourth Ward—F. Frank, J. G. Watt, C. Sprague, E. Harkins and T. A. Davey.

The committee on order of business reported the following order to be observed in this permanent nomination and election of a ticket:

First, that the temporary officers be made the permanent officers of the convention; second, nomination of mayor; third, nomination of recorder; fourth, nomination of treasurer; fifth, nomination of assessor; sixth, nomination of police judge; seventh, nomination of four councilmen by the delegations from the respective wards; and confirmation of the same; eighth, nomination and confirmation of central committee.

RESOLUTIONS ADOPTED.

Mr. E. E. Long moved that a committee be appointed to draw up suitable resolutions upon the death of Mayor Wheeler. The motion was carried, and the following committee was appointed: H. C. Hill, J. H. Hall and Dr. M. A. Flinn.

Following preamble and resolutions were unanimously adopted upon report of the committee:

WHEREAS, The messenger of death has summoned from our midst our honored mayor, E. C. Wheeler; therefore be it

Resolved, That by the death of Mayor E. C. Wheeler the community has lost an able, honest, energetic and upright citizen, whose sterling qualities and manly bearing have won for him the love, respect and admiration of all.

That the republican party has lost thereby one of its most prominent, efficient and fearless leaders.

That we tender to the bereaved and sorrowing family our heartfelt sympathies in the irreparable loss which they are called upon to suffer.

JOHN H. HALL,
M. A. FLINN,
H. C. HILL,
Committee.

THE TICKET.

The following ticket was then placed in nomination: For mayor, J. T. Stewart; for recorder, W. R. Bishop; for marshal, Frank Harvey; for treasurer, W. D. Pape; for assessor, H. H. Holmes, Nominees for councilmen—First ward, M. J. McMahon; second ward, J. M. Stott; third ward, E. Martin; fourth ward, William Halfpenny.

Central committee—First ward, C. C. Smith; second ward, J. H. Hall; third ward, Thomas Harlburt; fourth ward, J. G. Watt.

A BRUTAL ACTION.

The other evening Mrs. John B. Ostenbold, of Holladay addition, started to call on Mrs. Louis Whitmarsh, who lives in McMillen's addition. She had reached Mrs. Whitmarsh's house and was about to enter, when her child's pet dog ran out and followed her, unaware and unasked at so late an evening. She drove the dog back to the house, and again closed the door. The dog then went and lay on the steps behind her, but he rudely kicked her aside and struck the animal a heavy blow with the club, killing it. He then walked away, laughing and saying that the dog would never run after any one again. He called back after he had gone some distance and said his name was Morse.

SPECIAL NOTICE.

The members of the common council and the officers of the city of East Portland are hereby requested to be present at the council chamber in said city at 9:30 A. M., June 14, to attend the funeral of the late Hon. E. C. Wheeler, which will take place from the residence of A. T. Stewart, at the corner of Fourth and A streets, on June the 14th, at 10 o'clock A. M. All business houses are requested to close between the hours of 9 o'clock A. M. and 1 o'clock P. M. of that day. R. SHERRICK, President of the Council.

COONE FINED THIRTY DOLLARS.

Robert Coone and wife, who kept the Half-way house on the Milwaukie road, were arraigned in Justice Mayo's court yesterday forenoon, charged with selling liquor on Sunday. The case was before a jury composed of A. H. Logan, Jas. Stout, Jas. Humphrey and E. L. Thorpe. The evidence was conclusive that the defendants sold the liquor, and the jury after a few moments' deliberation, brought in a verdict of guilty as charged. Coone were fined $15 each and costs.

PERSONAL.

Miss Della Phillips, principal of the Kansas City schools, arrived yesterday, and is now visiting with her sister, Mrs. O. P. Masten. She will remain here until September, when she will resume her duties in the Kansas City schools.

SPECIAL SCHOOL ELECTION.

In consequence of the resignation of Mr. J. T. Stewart, who has moved out of the district, the directors have ordered a special election, to take place June 24, to elect another director for the unexpired term.

HAWK PARTY.

Remember the hawk party this evening to be given by the young people of St. David's church at the residence of Mr. Jones, W street, between Third and Fourth, Stephens addition. The Fifth street cars pass within one block.

FOR SALE.

HENRY VILLARD IS HERE.

He Will Address the Business Men at the New Park To-morrow Night.

Henry Villard, ex-president of the Northern Pacific Railroad Company and party, arrived on a special train from Tacoma at 7:20 yesterday morning. He was accompanied by Thomas F. Oakes, president; C. H. Prescott, second vice president; and Paul Schulze, general land agent of the Northern Pacific; C. C. Beaman, of the law firm of Evarts, Choate & Beaman, of New York city; and William Salomon, of the banking house of Speyer & Co., of New York, Frankfort and London. The party are quartered at Mrs. Comstock's boarding house, No. 165 Alder street, and will be here until next Tuesday. They will return via Tacoma, stopping at Spokane Falls and other places.

Mr. Villard was busy all day yesterday with railroad matters. He was able to take a look about town, and noticed a great deal of improvement since his last visit here six years ago.

At the Arlington Club yesterday Mr. Villard received a committee of the Board of Trade, consisting of Colonel John McCraken, W. S. Ribson, Ellis G. Hughes and Richard Koehler, who invited him to address a meeting of the business men of the city at the New Park theater at 8 o'clock to-morrow evening. He consented to do so.

Mr. Villard positively declines to be interviewed. He says that whatever he has to say he will tell the merchants to-morrow night. Mr. Villard is in fair health and is looking well.

WHITCOMB-RAYMOND EXCURSIONISTS.

This Party, Numbering 76, En Route to Alaska, Will Arrive in Portland To-Day.

OREGON PIONEER ASSOCIATION.

The Sixteenth Annual Reunion Which Will Be Held in Portland Tuesday, June 18.

According to the constitution and by-laws of the Oregon Pioneer Association, whenever the 15th of June falls on Saturday, the reunion shall be held on the following Tuesday. This accounts for the change of time, and this statement is made for the benefit of those who still cling to the idea that the reunion is to take place on the 15th inst.

All arrangements have been made for a grand good time at this annual gathering. The citizens of Portland have done their share, and all that is now needed to make the occasion a gratifying success is for the pioneers to come to the city with their wives, children and grandchildren, and give the newcomers here the opportunity of seeing the kind of people who founded this state and made it a part of our Union—second to none in the constellation of states.

The annual address will be delivered by Hon. Orange Jacobs, of Seattle, W. T., and the occasional address by Hon. James K. Kelly, of this city, who will make special allusion to the part early settlers took in the Indian wars prevailing at that time, and in which he bore a conspicuous and honorable part as colonel of one of the regiments of volunteers.

The public exercises will be held in the North Pacific Industrial Exposition building, and in the evening a grand ball will be given for those who wish to so indulge; and at the same time excellent opportunity will be afforded for a social gathering of those who wish to talk over the scenes of days lang syne, when ox teams were the only means by which folks could arrive in Oregon.

To avoid confusion, no one will be admitted to the Exposition building in the evening, except by ticket, which all pioneers may obtain of the secretary of the association at 189½ Second street, when they pay their annual dues, without extra charge.

To-night the committee of arrangements will hold their final meeting, at which all preliminaries will be settled and a full programme arranged.

Interior press please copy.

A TERRIBLE NUISANCE.

Fearful Stench From Johnson Creek—Residents Among It Clamor for a Sewer.

There is great complaint about the stench created by the refuse from a brewery, which is thrown into Johnson creek and deposited along the creek, especially in the vicinity of Twenty-first and G streets.

The creek runs through some of the finest residence property in the city, and residents along it are fearful that the stench from it will breed a pestilence. They are very anxious to have the proposed sewer built to carry off the water of this creek, and complain of the delay of the council in this matter.

The job has been delayed on account of threatened opposition by nine large property owners along the line, and the annoyance caused by this delay is a case of righteous retribution on some who opposed the Tanner creek sewer and carried it into the courts.

The council has been waiting and trying to get the sewer built without having any trouble, but these fellows bench complaints and such urgent assembly for the sewer, that they will probably decide to go ahead with work and let those who want to make trouble go ahead and get what satisfaction they can. There has been delay enough in this matter.

CLAIMS SHE WAS KIDNAPED.

Lee Tong in Great Trouble Over the Loss of His Little Daughter.

Lee Tong, a Chinese merchant doing business on Second street and residing on Alder street, between Third and Fourth, was in great trouble yesterday, on account of his daughter, a child of 8 years, being kidnaped, as he expressed it. The child, it appears, was taken away by the Woman's North Pacific Presbyterian Board of Missions on the ground that it was held in bondage by two Chinese woman of bad character.

Lee Tong claims the child as his own, and persons acquainted with him say it is his child, and that he is a respectable Chinaman who has a wife and family, and that the taking of the child was an outrage. It is a very difficult matter to be certain about such things; but when it comes down to taking away any one's children there ought to be no mistakes made. The matter will probably be investigated.

PERSONAL.

Masters Walter and Guy Holman, the sons of Mr. Edward Holman, will leave shortly for Oysterville, W. T., to spend the summer.

Miss Alice G. Higgins, daughter of Mr. William L. Higgins, of this city, who has been teaching school at Colfax, W. T. for the past year, has returned to Portland. Miss Higgins will spend the summer vacation with her parents.

We recommend the use of Angostura Bitters to our friends who suffer with dyspepsia, but only the genuine, manufactured by Dr. Siegert & Sons. At druggists.

Purchase your tickets and reserve your sleeping car accommodation at No. 121 First street, corner Washington, office Northern Pacific Railroad.

THE NEEDY SEATTLEITES.

The Committee Soliciting Yesterday Met With Encouragement.

The Portland Natural Ice Company Donate a Carload of Ice to the Sufferers—Twenty-five Cases of Condensed Milk.

A committee, consisting of Messrs. G. H. Dodd and H. J. Corbett, were out soliciting subscriptions for the sufferers by the Seattle fire yesterday, and met with very encouraging success the citizens feeling that the unfortunate city needed assistance, and they were willing, even eager to give it.

Many of the contributions yesterday told the committee to call again in case the amount received was in any way inadequate to give the relief required. Some spoke of the bankruptcy of some of Portland's financial institutions, and the matter will be brought to the attention of the banks and insurance companies. The committee purposes to call again on those institutions who have not contributed as banks or insurance companies, and it is expected their subscriptions will be in keeping with their means as the need is great.

A CAR LOAD OF ICE.

Mr. Dodd, yesterday, received a letter from the Portland Natural Ice Company notifying him as chairman of the Seattle relief committee that they had made arrangements with S. G. Fulton of the Northern Pacific whereby they would ship immediately a car load of ice to Seattle, the Northern Pacific transporting it free of charge.

The following was one of the first dispatches received in this city, offering aid to the destitute sufferers after the fire.

HIGHLAND, Ill., June 6, 1889.

To Oliphant & Co., Portland, Or.: If any suffering at Seattle, donate from nearest stock, twenty-five cases milk. In our name.

HETRETIA MILK CONDENSING CO.

The goods went forward on the relief car on Friday last.

A SUGGESTION.

There are a large number of person in this city in moderate circumstances, who have not been called upon to contribute, and who will probably not be. These persons are anxious to give something towards helping those in need in Seattle, if they only knew where to leave subscriptions. It is suggested that the committee designate two, three or more places in different sections of the city, where subscriptions can be left; also the names of the subscribers. If this plan is adopted, it is thought that probably several thousand dollars may be collected in this manner.

YESTERDAY'S COLLECTIONS.

Messrs. Dodd and Corbett, who were out collecting yesterday, raised about $750 without any trouble, the citizens subscribing liberally and without hesitation. They will start out again to-day and hope to receive several large sums from persons who either refused to give, or else with reluctance gave small sums when called upon several days ago.

The following persons left their names and the sums set opposite them at THE OREGONIAN business office yesterday:

Mrs. G. Stewart	$ 2 00
Northwest Pilots and Master's Association	50 00
Cash	2 00
P. J. Mann	50 00
Young People's Ass'n First Baptist church	22 50
N. P. T. and Standards	9 20
P. Haskell	1 00
J. W. Hampson	4 00
James Ellis	4 00
Sabbath school scholars	75
Total for day	$ 74 45

Late in the afternoon $2 25 was received from the Dalles *Times-Mountaineer*. In the previous issue, Mr. John Michell, the editor of that paper, was given credit for contributing $158. The citizens of The Dalles should have also received the credit for contributing this sum.

IN THE LONG, LONG AGO.

What Happened When Gen. Winfield Scott Once Visited Portland.

"Do you see that short thick-set man with the gray moustache crossing the street?" said an old resident standing in front of his place of business, to a reporter yesterday.

"Yes, who is he, and what of him?"

"Just to show you how the years roll around, I will tell you an incident. A good many years ago General Winfield Scott came to this city in a little steamer from San Francisco. She tied up to the bank on the city front, and the citizens were anxious to see him, so they gathered at the river," and formed a line to shake hands with him as he came ashore.

"Collier Robbins had a nice flower garden for those days, and Mrs. Robbins sent up a basket of flowers for General Scott, and that old man with the gray mustache, who was then a rosy cheeked boy of 16, was rigged up in a uniform and carried the flowers to the general. I was as big then," continued the old resident, "as I am now, but it must have been a good while ago, as the rosy cheeked boy had changed to a gray headed old man."

A PETTY SNEAK THIEF.

Mr. F. A. Carpenter, of the U. S. Signal Office, Meets With a Small Loss.

Mr. Ford A. Carpenter, assistant observer at the signal service office, was robbed yesterday morning of some $8 or $10 and his cuff buttons and gold collar button. He sleeps in the signal service office in order to take observations at 5 A. M. A part of his work at this time is to go down and note the river gauge, which occupies him about twenty minutes.

He has not been accustomed to lock the door when he went out for this purpose, and when he returned yesterday morning he found that some one had been there while he was gone, and that his pockets were turned upside down, and his purse rifled of its contents and the cuff buttons and collar button taken from his shirt.

The thief must be an early riser fellow, to climb to the fourth story so early in the morning. He has probably been watching the incomings and outgoings of Mr. Carpenter, and had his movements down fine. Hereafter the door will be shut and locked when he leaves the office.

BRIEF MENTION.

Pleasure boats for rent, at Stark street.

Depot for Maskey's fine candies. All orders delivered free of charge. H. Gerson & Co., corner First and Ash. Telephone No. 459.

Go to H. Sinsheimer, No. 214 First street, for the best pianos and organs. He carries only the standard instruments, such as Steinway & Sons and other pianos, Burdett and Story and Clark organs, the best in the world. Easy payments.

The many friends of Professor W. F. Worschkiel will be glad to learn that he has returned to Portland to stay, and may be found at his studio No. 195 First street, up stairs, from 9 A. M. to 4 P. M. Practical instruction given in all branches of Vocal art.

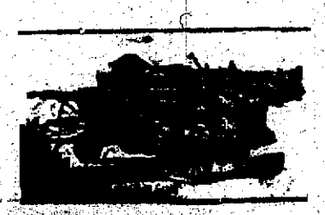
AGENT FOR



The Advance Thrashing Machinery.

The best and fastest thresher in America, and a machine that stands without a rival. The ADVANCE Thresher has NEVER been REPLACED by any other machine on the Coast, but has replaced several others that HAVE FAILED to all WARRANTEE. Why get some OLD STYLE machine because it is cheap when you can get an ADVANCE on the start and do good work in any kind of grain. You do not have to cut and try with the ADVANCE, but start your power, then commence threshing at once. I take the liberty of referring you to the following parties owning ADVANCE Threshers (without their knowledge): Dr. H. A. Davis, Harrisburg, after wasting most of the season trying to run a cheap machine, bought an ADVANCE and averaged 2206 bushels per day. M. F. White & Co., Dixie, same experience, but after getting an ADVANCE averaged 2046 bushels per day. Knox Bros., Albany, with a little 28-inch machine averaged 1650½ bushels per day. Henry T. Bold, Spangle, writes, after trying a ——— machine the best part of the season, bought an ADVANCE. Was then able to run without a blacksmith and carpenter shop. The ENGINE is guaranteed to pull more than any other, and will outtravel all others on the road. If you hear any loud boasts, please tell the parties the ADVANCE THRESHER and ENGINE are sold on their merits entirely. And I am willing to prove all claim in any field at any time. Do not be humbugged by buying any machine until you see the ADVANCE. I also handle steam fitting goods from pipe, laundry machinery and many other specialties. Send for catalogue of what you want.

THE NATIONAL GUARD.

A Mass-Meeting Decides That Its Presence Is Absolutely Essential.

SEATTLE, June 13.—There was but a single interesting feature about the day, and that was a meeting of citizens held at the armory to consider as to how soon it would be safe to withdraw the military forces from the city. The meeting was largely attended, and many expressions of opinion were made, the drift of all, however, being that the national guard is at present absolutely essential to the safety of the city. All the toughs and bummers of Seattle know, from experience in the Chinese riots of 1886, that the militia will shoot, and shoot to kill, and for that reason they have a wholesome respect for the boys in blue wherever they see them. There have been no depredations in the burnt district when the militia were on guard, and the experiment of withdrawing the soldiers and placing police in charge has demonstrated that it would be worse than folly to let the civil authorities again resume sway. This, however, is not felt to be the fault of the police, who simply are not strong enough to cope with the mob of rioters. Chief Butterfield finds ample employment for the fifty-six men under him, outside of the burnt district, but he says he is anxious to assume police control of the city whenever he is granted more men.

General Curry to-day tendered to Colonel Haines the use of the Second regiment of the national guard. The colonel has not yet determined whether it will be advisable to accept or not. He has, however, decided that the services of company H, First regiment, at Vancouver are needed, and to-day he issued orders to the captain, directing him and his company to report at Seattle without delay. The company is expected here to-morrow, and then the whole of the First regiment will probably go into camp in the university grounds.

Hundreds of men are at work on the burnt district, many of them being in the employ of the city.

Brick are being rapidly laid, and work on very many new structures of a substantial nature is under way.

The Franklin band came into town to-day and gave a delightful concert at the armory.

Nothing was heard to-day of the man supposed to have been shot by a sentry on the water front last night.

Several attempts have been made by a gang of firebugs to burn the Grant street bridge. A force of sixteen policemen guard the structure night and day, and so far have succeeded in foiling the incendiary endeavors.

Amongst the contributions received to-day was one of $588 75 from the Portland Y. M. C. A.

It is one week to-day since the fire started, and the people have just begun to realize it completely in its full extent. Many conveniences and elegancies of which they have been deprived were not thought of in the excitement succeeding the fire, but their actualism in starting immediately to rebuild was not on that account effervescent or unreasonable, if the signs of substantial and extended improvement manifest in the old business district are a criterion. There is no statement of preparation, and no lure of the energetic movement toward building another and better Seattle.

THE STOCKTON FUND.

STOCKTON, Cal., June 13.—Stockton's contributions for the Johnstown and Seattle sufferers amounts to $675. The executive committee to-day decided to divide the money equally between Johnstown and Seattle.

RELIEF FROM CHICAGO.

CHICAGO, June 13.—Two hundred dollars was received by the mayor to-day for the Seattle sufferers.

RELIEF FROM BISMARCK, DAKOTA.

BISMARCK, Dak., June 13.—This city has sent $1000 to the Seattle sufferers.

THE PRINTERS' CONVENTION.

Eighty Acres of Land Donated for a Home for Ill or Aged and Indigent.

DENVER, Colo., June 13.—At the third day's session of the International Typographical convention, the matter relative to the sending of a delegate to Paris during the international congress, which convenes next month, was referred to the committee of the whole.

Considerable discussion was caused by the receiving of a communication from the Knights of Labor in the matter of the using of plates in the government printing office at Washington. The matter was referred to a special committee, consisting of Washington, Cassidy, of Trenton, N. J., Rolesol, of Bloomington, Ill., Metcalf, of Duluth, Minn., and Richards, of Waco, Texas.

Several propositions for the establishment of a home for rival and indigent printers were then submitted to the meeting. The committee to which they were referred reported unanimously in favor of accepting the proposition submitted by Sessions, of Colorado Springs, who offered eighty acres of land near that city as a gift, on condition that the home be started within two years and completed within three years. The convention, amid much enthusiasm, by a rising vote adopted the report of the committee, both because of the value of the land, and because Colorado Springs is the leading health resort of the country for lung troubles.

The reports of the various committees were then taken up, the consideration of which took up the remainder of the day.

The president ruled that there were no vacancies, and consequently no election of officers will be held until next year. An appeal was taken, and the ruling of the chair was sustained.

An elegant banquet will be held at the Windsor hotel to-night. The convention will probably adjourn to-morrow.

A CHIPPEWA UPRISING.

Several Inoffensive Swedes Murdered by Them Near Mille Lacs Lake.

ST. PAUL, June 13.—A telegram was received at Governor Merriam's office this evening, which contains the startling intelligence that the Chippewa Indians in the vicinity of Mille Lacs lake are once more at their bloody work of butchering inoffensive settlers.

It is as follows:

NOMA, June 13.

Chippewa Indians at Mille Lacs lake commenced killing and driving out the white settlers last night. Six whites were killed and wounded. All of them were inoffensive Swedes. There is no known cause. I don't know how many may have been killed last night. Help must be quick. The Indians are on the warpath.

EVEN NICHLSEN.

Prompt measures will be taken to suppress the uprising.

ADDITIONAL REPORT.

MINNEAPOLIS, June 13.—The Tribune's special from Moorhead says: Evan Nicholson arrived here from the Mille Lacs reservation to-day, and reported that the Mequisons were shot and killed by the Indians last night, and that three families who had located there were missing. The settlers are getting very anxious and are expecting an attack at any minute. The Indians have been having a dance and have come from all parts of the reservation, and are drinking and are making the whole camp with their hideous howls.

The people of Moorhead are making arrangements to raise a company of home rangers to send out to their relief if news of any further depredations is received.

General Ruger, the commanding officer at Fort Hunting has made arrangements to leave at once for Mora with several companies of regulars, upon receiving intelligence of any further troubles.

THE CANADIAN PACIFIC.

An Application Made for Bonding Privileges on a Maine Branch.

NEW YORK, June 13.—A special to the Post says that an application of the Canadian Pacific for bonding privileges over the new short line across the state of Maine was made to the treasury department, and has been referred to the solicitor for an opinion. It is not improbable that the decision will not be rendered until after the senate committee on relations with Canada has made its report, which will certainly not be until December 1.

A dispatch has been sent out from Ottawa that a decision averse to the application has been made, and excitement has been created in Canada in consequence.

CORNELL STUDENTS HUMILIATED.

A Picked Nine of Fraternity Men Badly Beaten by Their Professors.

ITHACA, N. Y., June 13.—The faculty of Cornell University treated the students to a genuine surprise last night. At the last faculty meeting the professors challenged a picked nine of the fraternity students to a game of baseball. The students were in consternation. What should they do if they won the game from the professors? On the other hand, how was it possible to let them win? Finally, it was decided to beat them very mildly. The result was the most humiliating that ever befell a faculty's cane students. Those professors, supposed to be all head and no muscle, danced and pranced all over them to the tune of 33 to 11.

A CRIPPEWA UPRISING.

THE CRONIN MURDER.

Sullivan's Friends Have No Doubt of His Innocence.

WORK OF THE NEW GRAND JURY

Governor Hill Refuses to Surrender Maroney and McDonald—A San Franciscan Added to the List of Suspects.

CHICAGO, June 13.—"What do I think of the present status against Alexander Sullivan?" said Rev. Father Dorney to-day. "I don't see that there has been any case made out against Alexander Sullivan. I have been for years a warm friend of Alexander Sullivan's. I am his friend to-day, and I now have implicit faith in his innocence of any knowledge or participation in this brutal crime. I don't and can't believe such a thing possible of a man whom I have known closely and under various and trying circumstances.

"All along the course of the coroner's investigation prejudice was aimed at Sullivan. Every witness was put on the dock to ascertain if he could not possibly say or be made to say something that would incriminate Sullivan. It seems to me that in its earliest stage the investigation ceased to be an inquiry into the death of Dr. Cronin and became an inquiry as to whether the foul deed could not be fastened upon Alexander Sullivan. It was not who are the murderers of Dr. Cronin? so much as can this charge be laid to the door of Alexander Sullivan?"

Father Dorney denounced the murder at length. He believed that there would soon be a reaction in the public mind as to Sullivan.

Regarding the Irish society divisions and quarrels, Father Dorney said: "From what I have seen of the testimony alleged to have been given at the inquest, there has been as much maligning shown against Sullivan as could possibly be found towards the opposing Irish societies' committees. I also can say that much of the newspaper talk against him has been originated and kept up by his personal enemies.

"Before Sullivan's arrest, members of his friends did not care to express any opinion in his favor, for fear of their utterances being falsely construed as attempts to divert the course of public justice, yet no sooner was his arrest made than his friends felt free to give utterance to their sentiments, and now you will find that there are hundreds of the friends of Alexander Sullivan who have the same faith and confidence in his innocence as I have myself."

Father Dorney is pastor of St. Gabriel's Roman Catholic church, one of the handsomest sacred edifices in Chicago. He is extremely popular in his congregation, nearly every person in which is of Irish birth or parentage.

MAHONEY'S ALIBI.

Great Efforts Being Made to Fix the Robbery on the Clan-na-Gael.

NEW YORK, June 13.—The Mail and Express this evening says:

A detective from Scotland Yard stood on Chambers street, west of the county court house, to-day for over two hours. He had his eye on 121 Broadway, which is the office of David M. Nowberger, counsel for J. F. Maroney, accused of complicity in the murder of Dr. Cronin. "I don't see that there has been any case made out against Alexander Sullivan. I have been for years a warm friend of Alexander Sullivan's. I am his friend to-day, and I now have implicit faith in his innocence of any knowledge or participation in this brutal crime. I don't and can't believe such a thing possible of a man whom I have known closely and under various and trying circumstances.

Maroney, accused of complicity in the murder of Dr. Cronin. He had his eye on

Major Rudolph Fitzpatrick, of 147 West Sixty-third street, who was adjutant general in the Fenian army that invaded Canada, is one of the men who is willing to swear that Maroney was in his place the day that Cronin was murdered. Fitzpatrick has an English wife, who is an ardent supporter of Irish aspirations. Fitzpatrick and wife are relied upon as two who will help establish an alibi for Maroney.

The attempt to prove the prisoner's innocence will not stop with the evidence of Fitzpatrick and wife, and E. J. Rowe, an Ex-Clan-na-Gael man, will also support the claims of an alibi.

One of Maroney's callers yesterday at the Tombs was Thomas J. Dennehy, of the Wolfone Club, of Brooklyn. He holds a political office in Kings county, and is a trusted man in the anti-Devoy Breslin wing of the Clan-na-Gael.

Maroney, Dennehy and General Millet, the latter a member of the Press Club, now dead, went across the Atlantic on a "mission" not quite two years ago. Maroney was known as Mellville. Dennehy has many Clan-na-Gael men in his camp, and he is expected to take a part in the alibi business.

The executive committee of the Clan-na-Gael, or United Brotherhood of America, met last night and decided that Maroney and McDonald should be kept in New York if possible by any form of law. All of the members did not meet together. Some were reached by telegraph, and Patrick Egan, who is on the ocean was not, of course, reached.

The meeting is said to have been held in Philadelphia, and those said to have been present were Ronayne, Tirney, Bradley, Condon and Leonard.

These men are anxious about Maroney, because the British government wants him.

MICHAEL BOLAND INTERVIEWED.

KANSAS CITY, June 14.—Michael Boland, the recorder of Kansas City, whose name has been connected with that of Alexander Sullivan and other members of the Clan-na-Gael in connection with the Cronin murder mystery, expressed the opinion to a Journal reporter to-night that Cronin was murdered by members of the Clan-na-Gael. He thought that some of the more ignorant members, thinking the accused doctor-chief Cronin was a spy, killed him in a mistaken idea that they were doing the order a good.

NIGHTLY MEETINGS OF THE CLAN-NA-GAEL.

KANSAS CITY, June 13.—Nightly meetings of the Clan-na-Gael have been held for the past three weeks. The meetings have been conducted with the strictest secrecy.

THE NEW YORK ARRESTS.

Governor Hill Refuses to Surrender Maroney and McDonald.

ALBANY, June 13.—A requisition was presented to Governor Hill to-day from Governor Fifer, of Illinois, for the surrender of Maroney and McDonald, charged with the murder of Dr. Cronin.

The governor denied the application, without prejudice and without a renewal of the same, simply on the grounds that the application was not accompanied by an indictment, and that no proof whatever was presented showing that the accused were guilty of the crime charged against them, as required by the laws of this and all other states.

The application was based solely upon the affidavits made upon information and belief.

THE HABEAS CORPUS PETITIONS.

NEW YORK, June 13.—The petitions upon which Judge Andrews last evening granted a writ of habeas corpus for the production in the supreme court of Maroney and McDonald, the men arrested here for complicity in the Cronin murder, were filed to-day in the supreme court. That in McDonald's case was made by Thomas J. Dennehy and was presented by John Delahanty, and that in Maroney's case was made by Edward J. Rowe and presented by D. W. Nowberger. The petitioners described themselves as bear friends, and alleged that the men were not held by legal commitment, and that there was an entire absence of identification. The matter will come up for argument to-morrow.

A SAN FRANCISCAN WANTED.

Tom Desmond Suspected of Complicity in the Cronin Murder.

SAN FRANCISCO, June 13.—Tom Desmond, an Irish nationalist from San Francisco, is wanted by the police for supposed complicity in the butchery of Dr. Cronin. He escaped from the surveillance of the police in New York Monday, and the Pinkertons are after him.

He registered here at McCoy's hotel April 16, and it is said that he was in frequent conference with a man registered as W. G. Melville, but who is believed to be Maroney, now under arrest in New York.

Chief Hubbard says that Desmond has been located in San Francisco, and that hands can be laid on him whenever he is wanted.

Hubbard received information this afternoon of the arrest of another suspect at a point south of here. He is said to resemble Frank Williams, who rented the Carlson cottage.

DESMOND'S RECORD.

SAN FRANCISCO, June 13.—Thomas Desmond, mentioned in the dispatches to-day as being wanted for complicity in the Cronin murder, is well known here, having been a prominent figure during the sand-lot agitation. He was the main support of Denis Kearney, and through the latter's influence was elected sheriff, and served a full term. He then went back to his trade of carriage painting. Desmond first gained notoriety in 1867 as one of the crew of the Catalpa, fitted out in England to rescue Fenian prisoners in Australia. Chief of Police Crowley denies that he has been instructed to arr

Original poem ..... Miss Laura Marr
Address ..... Professor M. G. Royal, Pendleton, Or.

Presentation of diplomas to Misses Emma St. John, Louise Barr, Agnes Peck, Linnie Baines, Susie Grimes, Eva Wallace, Pamella F. Loomis, Annie Parker, Minnie Pearl, May Strain, Alice Parsons, Stella Tyler, and Messrs. T. L. Laughlin, C. E. Leighton, C. V. Leach, E. E. Shields, A. L. Callow, L. C. St. John, H. C. Ward, E. D. Yarr, W. J. Parker and Gerald S. Hopkins.

Presentation of prizes for excellence in penmanship, Professor L. H. Vernon was called to the front and presented by his pupils with a handsome gold headed cane, after which Professor Pollatschek was presented by the entire class with a magnificent gold hunting case watch, for which the gentlemen both made appropriate responses.

The institute has made wonderful progress during the past year under the direction of Professor Pollatschek, and the building will have to be enlarged to accommodate all the pupils that are making application for seats during the coming year.

The annual meeting of the alumni was held today, and twenty-six members added to the roll. The following officers were elected for the ensuing year: Miss Nina L. French, president; Elmer E. Shields, vice president; Miss Laura Marr, secretary; George S. Hopkins, corresponding secretary.

THE STATE CAPITAL.

Supreme Court Proceedings—The Beardsley Murder Trial—Etc.

SALEM, Or., June 13.—In the supreme court today the case of the Commercial National bank of Ogden, respondent, vs. Jeff Mundy and Nick Johnson, partners, doing business under the firm name of Mundy & Johnson and John Perkinson and Thomas R. Davidson, appellants, on appeal from Multnomah county, was argued and submitted.

Articles of incorporation were filed in the secretary of state's office today, by the Marion County Improvement Company; W. H. Byars, W. H. Odell and Clarence Gesner incorporators, capital stock, $75,000; object to construct and operate a motor line from Salem to Silverton, buy and sell real estate, etc.

The commencement week at Willamette university. The following have graduated: Classical course—William C. Alderson, A. B., Frank M. Augsbury, A. B., Maggie B. Brown, A. B., James T. Gilbert, A. B., Ida M. Hoyt, A. B. Latin and scientific—Albert W. Bowers, A. B., Rebecca G. Brown, A. B. Philosophy, modern literature and art—Marie Elizabeth Boise, B. L., Laura Mae Dimick, B. L. Conservatory of music—Lois Abraham, Nellie A. Fox, Nellie Mae Howe, Edith Genevieve Hughes, Mary O. Farvin and Lulu L. Thompson.

THE MURDER TRIAL.

In the Beardsley case, the examination of witnesses was concluded shortly after noon, and the argument opened by the counsel. Judge Boise finished his instruction to the jury at 6 o'clock, when they were sent out.

FROM CHERALIS.

A Goodly Contribution in Aid of Seattle—New Lumber Plants.

CHERALIS, Ipha 13.—Notwithstanding the fact that Cheralis is not a commercial center like Chehalis and Seattle, that we have had but little business relations with it at that place, her great calamity has touched a tender chord which has given ready response. As soon as it was fairly understood that many people had lost their all and were dependent on charity, even temporarily, Mayor Berry called a meeting of citizens to take proper action for Cheralis to contribute for sweet charity's sake. At the meeting soliciting committees were appointed, who immediately went to work, and a motion was unanimously carried making the amount to make liberal contributions for the occasion. To aid in the good work the Dewey Comedy Company, which was billed for Saturday night here, offered to donate the net proceeds, and the same to realize was got. At the meeting this evening committees reported that they had been very successful, but over $500 have been received and forwarded to Seattle, and the total contributions from Cheralis people and will be done by next week. The saw mill in the north part of town is ready to cut lumber from a mill at Independence, some six miles east of here, and the machinery now in place will be moved to the railroad

started last night for Murray, Idaho, to engage in the defense of his brother-in-law, John McCormick, charged with murder. McCormick is a pioneer Montanan, and formerly resided in Missoula. The theory of his defense will be based on the alleged claim that McCormick would never have been indicted had it not been that the judge gave an instruction to the grand jury with special reference to the case, which, it is said, is the duty of Mr. Forbis' clients to attend to and do everything to avoid the difficulty before shooting.

Rewards Ordered Paid.

HELENA, Mont., June 13.—The Wells-Fargo Express Company has instructed Assistant Superintendent Simpson to pay the standing rewards offered by the company for the capture of the two cutthroats who killed Agent Jobat and Operator Burnell at Silver, which amounts to $600. Mr. Simpson will pay it as soon as the apportionments have been made.

A LITTLE TOO JEALOUS—PERHAPS.

Lee Tong's Child Restored to Its Parents—Affecting Scene Between Mother and Daughter.

Lee Tong the Chinese merchant whose child was taken away from his home on Alder street Wednesday by the Women's Presbyterian Board of Missions, secured this return of the little one yesterday by a said of the sheriff, after by giving bonds to produce her in court when required.

It would probably have astonished the lady missionaries to see that the same feelings moved the Chinese mother when her child was restored to her as would have been exhibited under the same circumstances by an American woman. The poor mother had been crying and moaning all night, and had visited several times in a style which would have done credit to a missionary woman if robbed of her child. The scene when the child was returned is described by an eyewitness as touching in the affection displayed by the mother and child for each other and their joy at being re-united being as apparent as if they were Christians.

There appears to be no evidence that there is anything immoral about Lee Tong's house or family any more than there is about the average unregenerate white man, and it is to be feared there has been over-solicitude in this matter. While the public will sympathize with all judicious efforts to make the people of Portland good, the general opinion is that taking a child from even Chinese parents against their wishes, to Christianize it, smells a little too much of the good old, but now happily obsolete, style of burning a man's body in order to save his soul.

CAPE MEARES LIGHT STATION SITE.

The Selection of the Ground Approved by President Harrison.

A considerable tract of public land at Cape Meares was to-peremptorily reserved some time since for lighthouse purposes. During a visit to the cape some time since, Major T. H. Handbury, United States engineer, and Captain U. Sebree selected the position of the lands which they deemed necessary for the lighthouse reservation, and recommended it be permanently reserved.

The selection was approved, and the following proclamation issued by President Harrison:

"EXECUTIVE MANSION, June 10, 1889.

It is hereby ordered that the following described tracts of land situate in fractional township 1 south, ranges 10 and 11 west, of the Willamette meridian, Oregon, be permanently reserved for lighthouse purposes at Cape Meares Oregon, viz: Lot No. 2, section 12; lots 1, 2, 3 and 4, section 13, township 1 south, range 11 west; west ¼ northwest ¼ (lots 1 and 2) section 18, township 1 south, range 10 west, Oregon.

BENJAMIN HARRISON."

The remainder of the land temporarily reserved is now open to settlement.

A Portland Graduate.

NEW YORK, June 13.—Among the graduates from Warsaw College Tuesday was Casey Harker, of Portland.

Tickets to and From Europe.

Excursion tickets to Paris sold at Northern Pacific ticket office, No. 121 First street, corner Washington.

Leading officials of the Michigan Central railroad at Chicago have been indicted by the Federal grand jury for alleged violations of the interstate commerce law in making special rates for the shipment of certain grain. The penalty in the event of conviction is five years in the penitentiary and a fine not exceeding $5,000.

THE FAMINE IN CHINA.

Women and Children Being Sold Into Slavery in the Stricken Districts.

SAN FRANCISCO, June 13.—A Chinese newspaper says that the sale of women and children has become a regular occurrence in the famine stricken districts of China.

"It is as much a matter of notoriety," writes a missionary, "as the selling of useless donkeys. Women and children are not brought to the market, however. The traffic takes place privately. A woman between 20 and 30 years of age is sold for from $5 to $10; a child under 10 years for from $1 to $1 50. What is the meaning of this traffic? It is entirely owing to the demand for female children in the great cities, or has it a more direct connection with the famine? Some people incline to the latter view. They declare that the famished people in their frenzy need human flesh to eat. Whether that be true, although the parents will not kill and eat their own children, they are less scrupulous about selling them for other persons to kill and eat.

It is impossible to credit this. A strong probability is that the famine regions are merely supplying cheap victims for the brothels of the cities."

WITHOUT A WEDDING GARMENT.

A Reporter Refused Admission to a Banquet on Account of His Clothes.

SAN FRANCISCO, June 13.—A spirited controversy, which has now been formally brought before the Press Club, has been occasioned by the managing editor of the Call, under the dramatic title of *Interviewitis*, who is also president of the Bohemian Club, owing to an occurrence which happened about a week ago.

On the evening of June 5 the Bohemian Club gave a banquet to Lieutenant Jarlin, one of the surviving officers of the man-of-war Vandalia, which was wrecked at Apia, Samoa, in the recent storm. Invitations were sent to the various newspapers of the city to be present at the banquet. An effort was succeeded in the club rooms, but was refused admission because he appeared in the customary business suit, and not in evening dress.

He reported the matter to the managing editor of his paper, who became indignant, and immediately addressed an open letter to the president of the club, denouncing in strong terms the practice of requiring a reporter to appear in dress suit when he could perform his duty. The letter correspondence on the subject is decidedly crisp.

TO FORESTALL THE UNION PACIFIC.

The New Short Line Projected by the Southern Pacific Management.

SAN FRANCISCO, June 13.—The presence in this city of Donald McLean, general manager of the Wyoming and Pacific improvement Company, and David McLaren, general superintendent of the same company, has given rise to the rumor that the Southern Pacific directors are interesting themselves in a new transcontinental railroad from Ogden to the Missouri river, in order to prepare their railway system against the time when the Union Pacific shall follow up its extensive surveys in Northern and Southern California by building lines to Los Angeles or San Francisco.

The projected Pacific Short Line is thought to be the railroad that the Pacific railway people are looking to as the means of reaching the Chicago connections east of the Missouri river. The survey of the road from Sioux City to Ogden is 982 miles long, as against 1092 miles for the Union Pacific.

CALIFORNIA NEWS ITEMS.

San Francisco Notes.

SAN FRANCISCO, June 13.—The appointment by Governor Waterman of James Mc. M. Shafter to be superior judge of the city and county of San Francisco, in place of Judge Jeremiah Sullivan, resigned, gives genuine satisfaction here.

During the month of May, 7721 passengers traveled Eastward and 7801 Westward over the Southern Pacific road.

Bauer, Dyer & Co., commission merchants, have appealed to the board of supervisors for a reduction of their personal property assessment from $6,000 to $3,000. On this assessment $6,000 is charged to grain. The allegation that the grain in question has not landed in this city until late in the afternoon of March 4, when it came in by shipment from Oregon, and therefore is not assessable. They also claim that the grain was consigned to Oregon.

The Southern Pacific officers have found the actual basing of opium discovered under the floor of the engine room of the steamer Mexico. This concerns the seizure of 1,000 cans of opium on board the steamer May 4.

GENERAL HARNEY'S WILL.

It Cuts Off His Son and Daughter With Five Dollars Each.

ST. LOUIS, June 13.—Five years ago General W. S. Harney, who died a few weeks ago at the age of seventy-seven years, married his old and faithful housekeeper, Mary Steyer. Their union created a sensation and aroused much indignation among the general's relatives, but now more surprise is manifested, as in his will, admitted to probate, he leaves but one fifth of his property, with the exception of $10. The estate is estimated to be worth $60,000.

Charles H. Turner, an attorney here, has received a letter from St. John, M. Harney, a son of General Harney, who lives at San Diego, Cal., stating that he was coming to St. Louis to test the will, on the ground that undue influence was exerted over his aged father when the will was made during his illness.

General Harney's will reads as follows:

I, William S. Harney, of the city of St. Louis, and state of Missouri, do make this for my last will and testament as follows, to-wit:

First—I give and bequeath to my daughter, Eliza E. Benone, the sum of $5.

Third—All the rest of my estate, real and personal, and wherever situated, I give and bequeath to my beloved wife, Mary S. Harney, and her heirs forever.

Fourth—I hereby constitute and appoint my beloved wife, Mary S. Harney, executrix of this my last will, and direct that she be not required to give any bond as such executrix.

In witness whereof I have hereunto set my hand and seal, this 26th day of October, 1883.

WILLIAM S. HARNEY.

CONFERENCE OF COLORED MEN.

Representatives From Forty-seven Counties of Mississippi Endorse Harrison.

JACKSON, Miss., June 13.—A conference of colored men was held here to-day. Forty-seven counties of the state were represented. The object of the meeting was for the general settlement of the colored race, politically and otherwise throughout the Southern states.

Resolutions were adopted expressing the hope that the election of Harrison and the passage of the national election law, which is now being advocated, would prove to be important events in the progress of the South, favoring the Blair bill, and declaring that the railroad bill passed by the last legislature, which provides for separate accommodation for colored and white people, was a species of class legislation intended to degrade intelligent colored passengers.

President Harrison's course was strongly indorsed, and it was declared that he has unmistakably demonstrated to the intelligence and worth of the colored people that the efforts of country and the colored people who indorsed caste prejudices into the republican party have not, and will not receive any countenance or encouragement from this administration.

Lord Coleridge Recovered.

PICTOU, Ont., June 13.—Lord A. P. Cecil, the evangelist, was arrested yesterday on the charge of Animo, near Antigonish. The body of two children from a burned house. The father was charged with murder. Lord Cecil had just come from Brockville, which place he left on Tuesday morning, accompanied by his servant.

SPORTING NOTES.

Races on Eastern and Western Tracks—A Ten-Round Match.

JEROME PARK, June 13.—The spring meeting of the American Jockey Club closed here to-day. The track was heavy and sticky.

Three-quarters of a mile—Starlight won in 1:22, Maximus second, Mucilage third.

Mile and an eighth—Raceland won in 2:00¾. Fenelon second.

Mile and a half—Erie won in 2:47¼, Diablo second, Zephyrus third.

Fourteen hundred yards—Volunteer won in 1:23¾, Brown Charlie second, Prodigal third.

Mile and quarter steeplechase—Ben Harrison won in 1:55¾, Scimitar second, J. Job third.

Mile—Guarantee won in 1:46, Mala second, Salvation third.

Mile—J. A. J. won in 1:47¾, First Attempt second, Utility third.

LOUISVILLE, June 13.—LOUIS JOCKEY CLUB RACES.

ST. LOUIS, June 13.—The track was good to-day, and the attendance large.

Seven furlongs, three-year-olds and upwards—Irene won, Emeral Race second, Mirth third; time, 1:30¾.

Mile, three-year-olds—Vengeur won, Long Dance second, Gloconsur third; time, 1:45¾.

Seven furlongs, two-year-olds—Penn P. won, Starter Culdve 1 second, Watterson third; time, 1:29¾.

One and one-eighth miles—Callenie won, Gardner second, Rhonda third; time, 1:58¾.

Mile, three-year-olds—Clara C. won, Strideaway second, Queen of Trumps third; time, 1:44¾.

TEN-ROUND MATCH AT BUTTE.

BUTTE, M. T., June 13.—At the Opera house this evening, 1200 people were present, when Davis Davis undertook to knock out George Kessler in ten rounds. Davis, 165 pounds, science; Kessler, 158. Davis was knocked out himself, the fourth round being knocked out himself. Davis went into the ring at 190 pounds, and Kessler at 158. The latter man forced the fighting from the start, scoring first blood in the first round.

In the second round there was heavy slugging. Kessler has never been whipped, and Butte people have acquired great confidence in him. The fight is worth about $1000 to the winner.

RACES AT HELENA.

HELENA, June 13.—The first racing of the season under the auspices of the Montana Agricultural, Mechanical and Mineral Association took place yesterday. The principal event of the day was the match for a quarter dash for a purse of $500, the match being pulled Bob Wade and Daniel E., of Baker's stables. The day was very warm, and the track fast. In the pools Bob Wade started in at favorite at $25 to $12. Later the horses sold almost even. Daniel E. won in 22¾.

THE INTERSTATE COMMISSION.

The Hearing on the Exceptions Filed Concerning Free Passes.

WASHINGTON, June 13.—During the progress of the inquiry by the interstate commerce commission on the 3d of May, last, into the question of the issuance of free transportation, the attorneys of several of the roads summoned to appear took exceptions to the order of the commission requiring them to show their pass lists, and the commission later set to-day for the hearing on the exceptions now filed by the counsel.

Yesterday the commission received notice from the counsel representing two of the roads to the effect that it would be impracticable for them to be in Washington to-day, and asking leave to file printed briefs in place of oral arguments. This request was granted, and the counsel of the other roads which took exceptions to the order, will be notified that they can have the same privilege.

He Will Change His Tune.

Detroit Free Press.

'Any man who accumulates over $10,000 should be made to divide," said Charles Gordon, a Milwaukee socialist, a few weeks ago. The other day he got the pay of $14,000 from Belgium, and we don't think he'll cavort around of the law will run to and take 9000 of it and divide it among the poor.

NEWSPAPER ARCHIVE®

SPRINGFIELD

LANE COUNTY, OREGON

Its Great Water Power, Timber, Manufacturing and Agricultural Resources. Its Proximity to the State University Present Business Relationship by Rail and Its Future Prospects.

The town of Springfield is situated on the east bank of the Willamette River, 3½ miles east from Eugene City and 3 miles from the State University. It is located 13 miles below the point where the river issues from the Cascade Mountains, and is in the most productive part of the Willamette Valley and State of Oregon. A fact, which which will not be disputed by anyone acquainted with the locality and state.

The prosperity of the place, its great water power and manufacturing facilities, has been sadly delayed for years because it lacked railroad facilities. The Oregon and California Railroad having been constructed three-quarters of a mile away, on the opposite side of the river, in a competitive sense, made the handling of the common products of the country very unremunerative and the skilled product nearly impossible. Happily these embarrassing drawbacks are now about to be removed by a change of the railway to the town itself, and the certainty of, in the near future, having a branch from the Southern Pacific Railway, starting from Springfield and ultimately connecting on the east side of the mountains with a line, the preliminary surveys of which have been made, and that will start from the C. & O. line at the Klamath River crossing, and will extend up the river, entering Oregon at the Klamath Lakes, and extend north to the Columbia River. The cross route, starting from Springfield, after connecting with this line, will, without doubt, be continued on to a connection with the C. P. R. R. at or near Humboldt Station, in Nevada, thus adding to the S. P. R. R. lines a network of railways in Oregon which will fully develop all resources of the state. This line, when constructed, will bring Portland, Southeastern Oregon and the towns of the Willamette Valley into the same relationship, as to distance of transit to the Atlantic states and territories, as San Francisco and towns in the Sacramento Valley. As an indication of these facts, we give here a brief quotation from a recent letter from General Manager A. N. Towne to a property holder and former resident of Springfield, in reference to the start from that point, where he says: "See Mr. Koehler, who will be able to suggest some plan whereby he can help you out with your product from Springfield for the present, perhaps, by a line laid down to the river, with the view of extending on from Springfield up over the mountains in the future."

The water power is one of the most extensive in the state, can be increased from present power of 1500 horse to 4000 horsepower, and is certainly and beyond all question the safest to be found in the state and manageable with least expense.

MANUFACTURING—There is now located on the power, within town limits, extensive lumbering mills for sawing, planing and preparing from the raw material timber, and finishing lumber to the extent of millions of feet for the consumption of the country, an extensive flouring mill and a building ready for the manufacturing of sash, doors, etc. Arrangements have been perfected likewise for the location of an iron foundry and machine shops, the manufacturing of all classes of cooper work. Material for such wants will be prepared from the raw material for shipment to foreign ports. What is now needed to work up the products of the country is the establishment of paper and woolen and agricultural machinery; also machines for manufacturing excelsior, starch, shingles, the material for which is abundant. Parties looking for a place at which to locate such industries will find this one of the most favorable of locations. Sufficient grounds will be given without cost for all needed building purposes, for such machinery and room for handling the same. Lease at $7.50 per horse-power per year for a period of ninety-nine years, and for the first two-years' lease at mere nominal rates. Lots needed by owners and operators can be had at very low rates, and in exceptional cases without cost. This will likewise be found to be a most favorable location for dry goods and grocery stores, and these are particularly wanted now; also a shop where custom made and imported boots and shoes can be obtained. A doctor, surgeon, druggist, jeweler, gunsmith, saddle and harness shop, barber shop, hotels, butcher, hardware houses, all needed.

FOR HEALTH—There is no town on the Pacific Slope that can boast of better facilities for drainage and pure water. It is not only supplied with the inexhaustible sources of the mountains, which can be handled with great ease and cheapness for house purposes, but because of the fall from the surface of the water power into the stream, in all 33 feet, sewerage and perfect cleanliness can be made perfect with slight cost.

TIMBER RESOURCES.—This is one of the very important resources requisite to the business of this locality. The vast forests of fir, cedar, hemlock, pine, maple, alder and ash, with limited supplies of oak and ash, can all be floated to the doors of the mills with but little expense, save cutting and putting into the stream, and for purposes of paper pulp the vast forests of balm and the perfect straw of the various grains is beyond all demand. For starch purposes the potatoes can be supplied in quantities to meet all demands, at prices varying from 12½ to 25 cents per bushel in all seasons. Supplies of wool are produced in the lower valleys of excellent quality, and as soon as the railroad lines shall be completed across the mountains the wool of 80,000 to 100,000 sheep can be obtained from that part of Oregon lying east of the Cascade and south of the Blue Mountains.

SPRINGFIELD AND EUGENE—I have before stated that Springfield and Eugene City are in close proximity to each other, the distance between them being now but three miles, with a new village already laid out between them, other portions of the intervening distance being sold in small tracts of a few acres and buildings commenced. The region of country round about is not only extensive, but very fertile, producing all the classes of grain and other products common to this latitude, but the network of railways will in the near future, and because of the manufacturing facilities of Springfield, be the means of uniting the two places in one consolidated city and one corporation that in population and business will exceed any other city in the state, except Portland.

Parties Wishing to Make Inquiry are Respectfully Referred to JOHN KELLY and ALMOND WHEELER of Springfield, or to F. C. HUMPHREY, ESQ., Banker, Eugene City.

TWO GIRL GRADUATES,

Receive Their Diplomas From Right Rev. R. Wister Morris.

St. Helen's Hall Seminary for Young Ladies Closes Its Twelfth Year With the Regular Commencement Exercises.

The commencement exercises of St. Helen's Hall, Portland's model seminary for young ladies, were held yesterday afternoon in the large assembly-room of the institution. The graduating class consisted of two young ladies, both of Portland—Miss Ella Elrsch and Miss May Goldsmith.

The services attending their departure from school life were marked the close of the twelfth year of St. Helen's hall.

In spite of the fact that there were only two graduates, the past year has been one of the most successful of the institution's long and honored career as an educational establishment.

At 3 o'clock the large hall was filled with a number of the friends and relatives of the pupils. Besides Miss Rodney the eminently successful principal and her two assistants Miss Clementina Rodney and Miss Lydia Rodney, and the entire corps of teachers, there were present the retired dignitaries of the hall the Right Rev. R. Wister Morris, Rev. Mr. Habersham, Rev. Mr. Atkinson, Rev. Mr. Cole, Rev. Mr. McEwan, Rev. Mr. Gilwood, Rev. Mr. Eells, and Judge Matthew P. Deady of The Dalles, and Judge Matthew P. Deady.

Bishop Morris presided over the exercises, and after the opening number introduced Miss Ella Elrsch, the salutatorian, who read a short essay in Latin. Miss May Goldsmith then read a number of essays, after which the excessive warmth of the afternoon the bishop announced that Miss Elrsch's German essay on "Happiness" would be omitted. She, however, read a very fine composition, entitled "The Four Generations," of which the General Emperor William II is the living representative.

Miss Goldsmith then read an English composition on "Singing Birds." Both of the young ladies are "singing birds" of no mean order of merit, and their musical gifts, most of them from their school mates, thus sharing the love and esteem in which they were held.

Miss Ella Hirsch wore a beautiful gown of white China crepe, with Miss Rodney's compliments. Miss Goldsmith's gown with accordion skirt and waist was made plain and simple, but were the prettier for that.

After the closing of the exercises in the assembly hall Bishop Morris handed the prize for penmanship to Miss Nana Hoyt. It was a beautifully bound and handsomely illustrated volume of "Poetry and Song," by William Cullen Bryant.

EXERCISES AT THE CHAPEL.

At the close of these services the clergy and teachers, with the pupils of the school and the large assembly of their friends, repaired to St. Helen's chapel, where the religious services were continued, the address being made by the bishop, followed by Miss Ella Elrsch and Miss May Goldsmith.

The Bishop stated that the past year had been a very successful one, and that very satisfactory progress had been made in every department. There had been 52 pupils, of which 32 were boarders.

This was the twentieth year of the school, and the present graduating class without the presence of Mr. Rosenberg, for so long the esteemed teacher of music. The bishop desired to emphasize that this educating of girls was a real and unostentatious work that did little to show or attract attention, but which, nevertheless, had a power for good in the world. He stated that this had been a year of unusually good health in the whole school, and one for the graduating class, they would never forget. He also referred to the future of the school, and that it is believed this model conduct can be largely due to good home training.

The Rev. Mr. Sutcliffe, of The Dalles, followed the bishop with a thoughtful and well-expressed address on the subject of educating girls.

The bishop then delivered the diplomas to Miss Elrsch and Miss Goldsmith, and dismissed the audience with the benediction.

THE ART STUDIO.

The exhibition of drawings and paintings in the art studio were the subject of much critical and admiring attention. The following review was published at Astoria, as it necessitates the shipping of a new crew there at greatly increased expense to the ship owners.

Mr. Dunbar, however, had arranged not to have the Kitty stop at Astoria, and about a mile above that city the towboat cast loose, and a tug attached a lawyer to the Kitty and away she went right by the town out toward the broad Pacific, and Mr. Franklin found that he had shipped for the voyage to Hong Kong and no mistake. His associates on shore consider it a good joke on him and on Mr. Turk, but Franklin probably does not see it in that light, as he is under the British flag and shipped in British laws, and will have to do his duty or suffer the consequences. He is a competent man, and will no doubt make the best of the situation.

THE THIRD AND LAST DAY.

The State Medical Society Finish Their Labors and Adjourn.

More Papers Read and Discussed—Report of the Secretary and Legislative Committee—Installation of Officers.

The State Medical Society, in session in this city, entered upon their third day's deliberations at 10 o'clock yesterday morning.

After the meeting was called to order by the chair, Dr. W. E. Rinehart read a very interesting paper on "Medical Ethics."

The state medical commission, having been created but recently (at the last session of the state legislature), was voted the sum of $50 from the general fund to assist it in commencing its labors as an examining board.

The miscellaneous business occupied the remainder of the forenoon.

The afternoon session was called to order at 2 o'clock. The first in the regular order of business was a paper by Dr. A. D. Bevan on "Penetrating Wounds of the Abdomen." The speaker handled the subject in a very able manner. He spoke of the nature of different wounds, often having a close resemblance, yet requiring widely different modes of treatment.

Dr. Will Jones followed with an interesting talk on a case in point of the hip joint. An operation of this kind was performed by him at St. Vincent's hospital in the forenoon. The hip-bone of the patient had been affected by a malignant tumorous growth, and as he was walking along the street the bone gave way, making amputation absolutely necessary. The leg was first amputated midway between the knee and hip and all the arteries were carefully tied up. Then the bone was laid bare, and several at the hip, making the operation by what, in medical phraseology, is termed the Hoodless method, in contradistinction to the old style. The specimen was presented for examination and a practical illustration of the operation was given.

The report of the secretary, Dr. Curtis C. Strong, showed the society to be in excellent condition. The present membership is 125 and a good bank account stands at $64 credit.

The report of the legislative committee was made by its chairman, Dr. C. C. Strong. The committee had discharged its duties, which were to assist in passing the Pope medical bill, creating a state medical board of examiners. The bill became a law at the last session of the state legislature, and by its passage the duties of the committee were ended. The report was favorably received, and the committee were discharged after receiving a vote of thanks from the society.

The new officers were installed with but little ceremony and the meeting adjourned until next year when the society will again convene in this city.

The general expression regarding the three days session just closed, is that the meeting was by far the most successful ever held by the State Medical Society. In point of numbers it has made a great gain, there being a full attendance each day and about 100 physicians having been present. The papers read and discussed, showed careful study and intelligent research. The best men in the profession are represented, if anything was demonstrated, it is that the society is vigorous and progressive. Harmony has entered into the ranks of the medicos, and united effort and research will characterize the future existence of the profession and raise it to a higher standard of efficiency and usefulness.

"AS YOU LIKE IT."

Mme. Modjeska Gives Her Artistic Impersonation of Rosalind at the Exposition Building To-Night.

So much has been written of the dramatic excellence of the distinguished actress Mme. Modjeska that it would seem almost superfluous to call attention to the treat in store for all lovers of Shakespearean comedy which she is to furnish them tonight.

The play of "As You Like It" affords her in the delightful role of Rosalind ample opportunity for a display of those admirable qualities as a comedienne which have contributed so materially to her fame. Her delineation of this most attractive character is said to be altogether artistic and enjoyable, and, supported as she is by a company fam iliar with Shakespearean verse and above the average company in ability, the performance should more than meet the anticipations of the most sanguine.

Only two performances will be given, to-night and to-morrow night. For to-morrow night "Much Ado About Nothing" will be given, with the following cast of characters:

Beatrice.....Modjeska
Benedick, a lord of Padua.....John A. Lane
Don Pedro, Prince of Arragon.....Lawrence Hanley
Don John, his brother.....Frederick Vroom
Claudio, a young lord.....Wilton Stafford
Leonato, governor of Messina.....Arthur Collins
Antonio, his brother.....Edward Beaumont
Dogberry, a constable.....Owen Fawcett
Friar Francis.....Beaumont Smith
Verges.....Henry Walters
Conrade.....Edward Thomas
Borachio.....Charles Koehler
Balthazar.....George McCulla
Seacole.....Hugo Toland
Oatcake.....Colin Gregg
Sexton.....Andrew Fredericks
Hero, daughter to Leonato.....Miss E. Tyndale
Margaret.....Mrs. Horace Ewing
Ursula.....Miss Agnes Acres

PASSED TO THE BEYOND.

Rev. A. J. Joslyn, writing from Vancouver, W. T., under date of June 11, says:

Peter W. Crawford, who came to Oregon in 1847, settling first in Oregon City and soon afterward on the Cowlitz river, W. T., where Kelso now is, and where he has made it his home most of the years since then, fell into the long and quiet slumbers of a peaceful death at the residence of his son, Edward G. Crawford, in Vancouver, W. T., June 10, 1889. He had been sorely afflicted for some time with cancer of the stomach or bowels, to which he finally yielded.

Mr. Crawford was an efficient factor in the foundation of our Western civilization and well deserves the encomium "Well done" by those who have entered into his labors.

PERSONAL.

E. W. Marston, president of the Oakland, Cal., board of education, is now in the city, registered at the Esmond. He is accompanied by his wife.

J. F. Cordray, of the Portland Musee, to be opened on July 1, wires from San Francisco that he will leave for home on Saturday of the present week, and further, that he has arranged for strong attractions for his place of amusement.

BUSINESS ITEMS.

The Vienna,
Washington street, leads all for lunches and oysters

USUAL JUDICIAL GRIST.

Cader Powell Appointed County Clerk by the Commissioners.

A Ruffianly, Youthful Outrager Arrested—Conviction of Monro—Sentenced for One Year—Fined $100—Court Items.

When the county commissioners heard of the death of County Clerk Wheeler, Wednesday afternoon, they sent for his deputy, Mr. T. C. Powell, and informed him that they had selected him to fill the vacancy. Mr. Powell was told to be on hand at court room yesterday morning with his bondsmen and be prepared to assume the duties of his office. He obeyed instructions, and now writes "county clerk" when he signs his name officially. He furnished $10,000 bonds, with his father, John Powell and J. M. Stott as sureties.

Mr. Powell is efficient, accommodating, courteous and popular, and his promotion to the office made vacant by the death of his friend is a deserved compliment to his ability. Cader is a great friend of the newspaper reporters.

AN INFAMOUS SCOUNDREL ARRESTED.

One Mack Roberts aged about 18 years, was arrested at the Red house, in Fulton precinct, yesterday afternoon, on a warrant from Justice Tuttle's court, charging him with committing an outrage on a 13-year-old daughter of George Boland, of Tualatin, Washington county, about fourteen miles from this city.

The assault, which has left the child in a very precarious condition, was committed Wednesday afternoon, after which Roberts disappeared. A posse was organized as soon as the facts became known, and several determined men scoured the surrounding country all that afternoon and night in search of the scoundrel who, if he had been caught, would have been unceremoniously strung up to the nearest tree or limb. Roberts was fortunately for himself, Roberts was not heard from until yesterday morning, when someone told Boland, who had cooled down somewhat, that the young outrager was at the Red house. Boland came immediately to this city and swore out a warrant.

As the assault took place out of the jurisdiction of this county, the prisoner, who was held by Justice Tuttle with bail fixed at $2000, will be turned over to the sheriff of Washington county after he has been tried here for having a concealed weapon in his possession when arrested.

CHINESE LAUNDRYMAN FINED.

Hop Lee, a Chinese laundryman was fined $25 by Justice Phelan yesterday afternoon, for stealing a number of shirts and other wearing apparel from Edward Green, valued at $20.

In speaking of the case, and the fine imposed, a gentleman, who has evidently had some experience in such matters, said that Lee will have to do his dirty or suffer the consequences. He is a competent man, and will no doubt make the best of the situation.

JUDGE TANNER'S LEVEE.

Judge Tanner disposed of the following cases in the police court yesterday:

Maria Gianini was fined $10 for using abusive language to Mary Devlin; Fred Lee, accused of resisting an officer, was discharged, as the matter was one of misunderstanding; William Allen, Pat Mulhern and James Ferguson, drunk, $5 each; John Hogan, same, $10; Frank Doherty, trespass, $10; "Hickory" Johnson, an ex-convict, was up again for beating Lizzie Smallbones, of DeLashmutt, also an ex-convict, in the Santa Fe saloon, No. 204 Fourth street, and he was fined $50.

A YEAR IN THE PENITENTIARY.

In the United States district court yesterday, Liberty, the Indian charged with giving liquor to Pillon another Indian who lately killed a half-breed woman on the Umatilla reservation, pleaded guilty and was given a year in the penitentiary and to be imprisoned in the penitentiary for one year.

Richard Zeugraw, for selling liquor to an Indian was fined $10, which he paid.

FINED ONE HUNDRED DOLLARS.

Joseph Merrick, convicted in the United States circuit court for obstructing the United States mail on the Short Line was yesterday fined $100 by the court, the highest penalty provided for the offense. William Black charged jointly with Merrick with the commission of the crime was discharged.

TO THE SCENE OF HIS DEEDS.

Harry Hoover, arrested in this city last Monday on a charge of robbing a blind lecturer named Mollie Steinback at Tallant station, on the O. & C. railroad, of some $90, was taken back to the alleged scene of his crime yesterday by Sheriff J. G. Birdsale, of Jackson county.

MONROE CONVICTED.

Lawrence Monroe, the old man who filled exconvict Edward Clayton's neck with bird shot last month was tried and convicted in the criminal court yesterday. The jury was out only five minutes.

THEY ARE TO WED.

Marriage licenses were granted yesterday for A. B. Acorn and Hivira B. Church, Thomas T. Moore and Lura S. Mather, James Douglas and Eunice Moserve.

THE P. & W. V. R. R. SUED.

W. M. Watson sued the Portland & Willamette Valley Railway Company in the state circuit court yesterday to recover $393 75 for services rendered.

SUIT FOR DIVORCE.

Mary Kibler sued George Kibler for a divorce in the state circuit court yesterday. Desertion is the ground alleged.

COURT NOTES ABBREVIATED.

UNITED STATES DISTRICT COURT.

United States vs. "Liberty"; information filed for selling liquor to Indians; arraigned, and, entering plea of guilty, was sentenced to pay a fine of $1 and serve one year in the penitentiary.

United States vs. Richard Zaugraw; same offense; sentenced to pay a fine of $10.

UNITED STATES CIRCUIT COURT.

United States vs. Merrick and Black; Merrick sentenced to pay a fine of $100 and costs; Black discharged.

United States vs. George R. Hammersly; order continuing case.

D. Leo vs. C. F. Gault; order allowing plaintiff to open deposition.

Jurors excused till 10 A. M. Monday.

STATE CIRCUIT NO. 1.

Rufus Ingalls vs. Joseph Holladay, executor; James Steel substituted as defendant in this case.

Daniel Smithborn vs. Portland & Vancouver Railway Company; suit for $10,000 damages; on trial.

STATE CIRCUIT NO. 2.

Ben Holladay vs. Joseph Holladay; James Steel, executor, substituted as plaintiff for Ben Holladay, deceased.

Horsford's Acid Phosphate.
Ill effects of tobacco relieved by its use.

We are prepared to make loans on choice city property at 8 per cent, with privilege of paying installments. Jarvis-Conklin Mortgage Trust Co., 3½ Morrison street.

DR. DARRIN RETURNED.

What the Astoria Pioneer Thinks of Him.

Dr. Darrin's sojourn in Astoria has expired and he has returned to the head office in Portland, where he is permanently located.

The visit of Dr. Darrin to Astoria is filled with interest in many particulars. When he first arrived he advertised very extensively, and the cry went up that there was some catch in it. Then he cured one case that was considered hopeless, and a surprise was felt. After that the very worst cases in existence were given him as a test by all doubters. If he cures this one I will believe it, the doubters echoed, and after treatment the patient was as sound as a dollar. Then they gave him another test case, and another, and so on, but all with the same result. He effected a cure in nearly every instance. Then the doctor's terrible rush of patients began, and the stream has been growing larger every day, numbering some of the best people in the state. A visit to the offices of Drs. Darrin is certainly a curiosity as well as a wonder. Patients are carried one day, and in a week's time, instead of being carried there, they walk up the stairs as sprightly as young boys. What there is about them is certainly marvelous, for they have performed most remarkable cures, as the testimonials that we have heretofore published have proved, and we give the names of the following as further proof:

Andrew Anderson, Port Townsend, W. T., cross eyed from paralysis of the outer muscles of the eye; cured by one operation.

F. P. Sawtell, Independence, W. T., dyspepsia and kidney complaint, pronounced Bright's disease by some physicians; restored.

Mrs. L. K. Harman's son, of Vancouver, W. T., cured of a loathsome case of catarrh and polypus of the nose; also her daughter of a tumor.

C. Hiese, seven miles west of Fulton, Or., liver and kidney trouble, dizziness and pains over the whole system; restored to health.

Charles Brugger, Roseville, Or., almost total blindness from the effects of measles, restored after other doctors said he was past cure.

Mrs. L. Mattoon, East Portland, Or., catarrh, bronchitis, nervousness and sleepless nights and loss of flesh; cured and gained twelve pounds.

Mrs. A. J. Quentel, 1361 Railroad street, Tacoma, W. T., stoppage of tear duct, causing tears to overflow down the cheeks; cured by one operation.

Mrs. Mevie Gebfort, Seattle, W. T., boy 5 years old, deaf since 16 months old, discharging ears and catarrh; entirely cured after several treatments.

The Doctor's Place of Business.

Dr. Darrin can be consulted free at 225 Fifth street, corner of Main, Portland. Office hours, from 10 to 5 o'clock daily; evenings, 7 to 8; Sundays, 10 to 12. All curable chronic diseases, loss of manhood, blood taints, syphilis, gleet, gonorrhœa, stricture, spermatorrhœa, seminal weakness, or loss of desire of sexual power, in man or woman, catarrh and all ovarian troubles, are confidentially and successfully treated. Cures of private diseases guaranteed, and never published in the papers. Circulars sent free. Most cases can receive home treatment after a visit to the doctor's office.

☞The doctor has no representatives practicing in the state, as has recently been discovered in Benton county. All persons taking the name of Dr. Darrin are frauds.

STOCKHOLDERS' MEETING, ALASKA GOLD CO.

The annual stockholders' meeting of the Alaska Gold Company will be held at the office of the company, corner of First and Washington streets, in the city of Portland, Oregon, on Tuesday, the 18th day of June, A. D. 1889, at 11 o'clock A. M., for the election of a board of directors to serve for the ensuing year, and for such other business as may legally come before them.

Richard Zeugraw, for selling liquor to an Indian was fined $10, which he paid.

FINED ONE HUNDRED DOLLARS.

Joseph Merrick, convicted in the United States circuit court for obstructing the United States mail on the Short Line was yesterday fined $100 by the court, the highest penalty provided for the offense. William Black charged jointly with Merrick with the commission of the crime was discharged.

TO THE SCENE OF HIS DEEDS.

Harry Hoover, arrested in this city last Monday on a charge of robbing a blind lecturer named Mollie Steinback at Tallant station, on the O. & C. railroad, of some $90, was taken back to the alleged scene of his crime yesterday by Sheriff J. G. Birdsale, of Jackson county.

MONROE CONVICTED.

Lawrence Monroe, the old man who filled exconvict Edward Clayton's neck with bird shot last month was tried and convicted in the criminal court yesterday. The jury was out only five minutes.

THEY ARE TO WED.

Marriage licenses were granted yesterday for A. B. Acorn and Hivira B. Church, Thomas T. Moore and Lura S. Mather, James Douglas and Eunice Moserve.

THE P. & W. V. R. R. SUED.

W. M. Watson sued the Portland & Willamette Valley Railway Company in the state circuit court yesterday to recover $393 75 for services rendered.

SUIT FOR DIVORCE.

Mary Kibler sued George Kibler for a divorce in the state circuit court yesterday. Desertion is the ground alleged.

WANTED—A GIRL TO DO

The Oregonian.

PORTLAND, FRIDAY, JUNE 14.

PREVENTABLE DISEASE.

Diphtheria, which has a habit of discounting the calculations of medical scimbe by breaking out in country neighborhoods wherein the conditions are supposed to be peculiarly favorable to health, appeared on North Howell prairie, Marion county, a few days ago, proving quickly fatal in the case of a boy 16 years old. His death was followed by speedy burial, and the customary precautions to prevent the spread of the contagion were promptly observed, but in a short time another case occurred in the same family, with the usual result of panic that accompanies the visitation of this dread disease. Every effort will be made to confine it to its present limits, but in the light of past experience it is folly to hope that the effort will be entirely successful.

Medical investigation has succeeded in establishing beyond a doubt, the fact that this disease is transmitted by bacteria. Being classified as a "filth disease," that is to say, a disease the germs of which are produced and fostered by preventable conditions, it would seem that the cause of its sudden appearance in a comparatively isolated neighborhood might easily be traced. The severity of this has, however, proven true in many instances in this state. An example of this was witnessed a few years ago when diphtheria appeared in a settlement on Rock creek, Wasco county, in a family composed of four beautiful sturdy little boys, who in addition to an abundance of exercise, fresh air, pure water and wholesome food, had a clean, well-ordered home and careful parents. In the short space of a few weeks the last of the four fell a victim to the disease and it had become an epidemic through the settlement. There was a cause, of course. It is possible that it might have been traced by scientific investigation, but to this day the people whose homes were left desolate by the sudden attack have no idea what this cause was. The Eagle Creek settlement in Clackamas county had a similar visitation a year or two ago.

It is perhaps, no wonder, when intelligent research is baffled in cases of this kind, that people who have no knowledge of medicine and little of the ordinary sanitary laws that govern health, should in the presence of a scourge so mysterious and fatal, fall back in their blind misery upon the theory that sickness and death are visitations of Providence, against which no human foresight, care or knowledge can interpose successful barriers of defense.

"What makes me sick?" wails the suffering child, as fever rages riot in his veins, and the parent, stoutly rebelling against a statement so contrary to the idea of the love and tenderness of the Father which he has striven to inculcate in the child, may well hesitate before answering: "It is the will of God."

It is but, however, of satisfactory and intelligent knowledge of cause, he is fain to seek consolation, after disease has done its fatal work on the child, in the endorsement of the minister's solemn assurance that the afflict on was ordered by Divine Providence for some wise, but inscrutable purpose.

Medical science has, in comparatively recent years, answered many, at least, of the questions that inquire into the cause of disease with satisfaction to itself. This advantage gained, it is not too much to expect that effect, as witnessed in epidemics and possibly in constitutional diseases, will yield to an intelligent treatment that recognizes and applies itself to the destruction of the cause.

FAITH IN PROVIDENCE.

A dispatch from Johnstown to the New York *Times*, says: "The people of Johnstown have lost all faith in Providence. Many of them have thrown away their bibles and, since the disaster, have openly burned them. They make no concealment of this." Here is a natural result of the error of that "orthodox" teaching which asserts that the calamity was "the act of God." "To lose faith in Providence" because destruction follows as a consequence of man's inattention to the requirements of ordinary prudence, is a piece of folly only comparable to that which hung up one hundred million tons of water over the heads of 50,000 people, and expected a mud dam to hold it.

But it is not probable that any considerable number of the stricken people of Johnstown have "lost faith in Providence." Several instances, indeed, are given, in confirmation of the statement made by the reporter for the *Times*, but even these persons, now crazed by grief because of the loss of their families, will think differently after a time. God never protects an individual or a people from the consequences of their follies or mistakes. Whether it would be possible for him to do so need not be argued; that he does not do so is the surest fact of human history. The people of Conemaugh valley had no right to suppose that the great law of gravitation would be suspended to preserve them, and that it was not should give the world more faith in Providence than if it had been. Man's faith in Providence might well be shaken, if the operations of nature did not proceed in regular order.

And, since the people of Conemaugh valley had no right to presume that the law of gravitation would be suspended to preserve them, as little have those who attempt to console the survivors for the loss of their families a right to call the catastrophe "the act of God." If it was really the act of God there should be no wonder that the people of Johnstown had lost all faith in Providence.

STRICT CONSTRUCTION.

Abuse of freedom of immigration into the United States by importation of laborers under contract, both from Europe and Asia, led to the enactment by congress of a law prohibiting immigration under labor contracts. The law was right in intent and purpose, and its results have, in the main, been good. But, as it was the first step in the line of an unused policy, little or no consideration was given to the possibility that this limitation of the import of contract labor might limit other immigration that was not only not mischievous, but beneficial and desirable. Strict construction of the law brings forward cases of this kind. It is, indeed, quite absurd when a clergyman from England, who comes to the United States under engagement for a salary, is questioned and turned back. In another case recently at New York there was an illustration of the manner in which close construction of the law may produce an unexpected and mischievous result. A silk manufacturer of New Jersey wished to introduce certain new processes into his industry. So he employed a few skilled workmen in France to come over to instruct his people. They came, but the treasury officials held their coming a violation of the contract labor law and would not allow them to land. They went back home, and our country lost a valuable addition to its productive industry. The men from France would have made new and remunerative employment for a large body of workingmen and added largely to the wealth of the country.

There seems to be no reason to doubt that such cases are outside the intent of the contract labor law, and that if the attention of congress could have been directed to the possibility of the language of the act being construed so rigidly and mischievous an operation, it would have been effectually guarded at once. "Strict construction" has done or caused some very ridiculous things before now, but probably nothing ever before so absurd as the exclusion of a preacher from his congregation because his salary was arranged in Europe, or prohibition in the name of labor and for the sake of labor of the means of learning an industry that would have given labor larger employment at good wages.

DRAWN BATTLES.

The battle of Chickamauga has been considered a tremendous Union defeat, but the most recent historical investigation compels us to remit it to the list of drawn battles, where the nominal victor held the field and the defeated army retained the prize of war. "Concord furnished the field but Acton furnished the men," is the judgment of many battle fields. The names of these indecisive battles are many. Marlborough had his Malplaquet, Frederick his Torgau, William of Orange his Lenef, Neerwinden and Landau, Bonaparte had his Eylau, Aspern and Borodino, Wellington his Talavera—fields where the results were so nicely balanced that it is difficult to determine who was the victor and who was the vanquished. To this list of drawn battles belongs Chickamauga, where the vanquished on the field retained the prize of battle. This great battle has been recently reviewed by General Curchin, a Russian soldier, who had seen service in the Crimean war. General Turchin argues that Rosecrans should have been reinforced before rather than after the battle of Chickamauga. Turchin also makes it clear that Bragg had he been a man of brains, could have beaten Rosecrans in detail. "Had Rosecrans" says Turchin, "understood the real situation of Bragg's line and been ready to attack vigorously from his left flank, he might have completely destroyed his antagonist. But he neither understood the enemy's position nor was his own army in a condition to assume a vigorous offensive. It had been overworked and badly scattered, and was not sufficiently familiar with its surroundings to strike out boldly and decisively. The battle was therefore desultory, though bloody." The real hero of Chickamauga, according to Turchin, was General Brannan. We quote:

Brannan, who had also been taken in flank and driven from the first line while trying to close to the left, with the eyes of a red soldier caught sight of Horseshoe ridge, more than a mile in the rear, and sent word to his brigade and regimental commanders to rally and reform their men along its summit. This they did, and thanks to their unshakable courage and the strength of their position, they held their own most gallantly and successfully throughout the day. They were nobly sustained by Wood, Harker, Stanley and Le Favour. Encouraged by the splendid presence of the imperturbable Thomas, neither the turning movement of Hindman nor the repeated and frenzied attacks of Kershaw, Anderson and Johnson could drive them from their well-chosen position. No writer has hitherto given sufficient praise to the skill and courage of General Brannan, a regular artillery officer of rare merit and modesty, or to the resolution and constancy of General Wood, who may have blundered in staying Hardee to "close up," but who never failed throughout a long career, to do his whole duty as a fighting soldier. Brannan is indisputably the hero of that part of the field.

The number of bodies thus far recovered from the ruins of Johnstown is about 1200, of which some thing over half have been identified. These have in the main been recognized by clothing or other articles about them, the combined action of air, water and fire having destroyed in many instances all semblance of humanity in the remains of the victims. The work is repulsive and the results harrowing in the extreme, since even under the most favorable conditions the return of these ghastly corpses to surviving friends and relatives is a source of added horror, rather than the consolation for which they have hoped through weary days of anxious waiting. The limit of human suffering was, however, mercifully reached by these sorely stricken people days ago and a dull sense of an abiding horror has succeeded the first anguish wrought by the disaster. Cruel stress has many times in the world's history demonstrated the fact that the measure of grief and wretchedness can be filled. This point was reached early in this calamity, and the recovery of bodies will be neeforth be but an incident in the daily routine of work which will, in due time, bring order out of the chaos induced by the tremendous sweep of the waters.

California has furnished us hitherto with all the vermin that infest our vegetation. From the overabundance they possessed have come the codling moth and the aphis, and now the San Jose scale bug has reached Southern Oregon. It is possible these pests will be reinforced by many and far worse, and it is well enough to set up some sort of embargo against a further supply. Women, as Grant Allen says, may be only an appendix to her better half, but she generally has sharp eyes and vivid comprehension. One of them has called attention to California corn in the ear that contained whole families of slender, gray worms, very lively and more active than there is any necessity for. The corn in the husk was hanging in front of a grocery store and these worms were dropping from the silky tassels as they hung on to the sidewalk. We don't raise much corn in Oregon, but what little grows here has no need of such population. It should be somebody's business to keep careful watch of the city manifests, and in all the towns that get California supplies, to see that no pests are imported. These insects may become common in the country and spoil our future corn patches worse than the Israelites spoiled the Egyptians.

The Pendleton Tribune tells of an Indian who is "down on his luck" to the extent of being sentenced to a term of seven years and some months to be worked out in the state prison. "Big Mouth Charley" is his charming title, and he seems to have been a lucky enough fellow until he imbibed whisky enough to kill Indian Pete. Charley seems to think seven years a life sentence, for he has made a division of his assets, consisting of three wives, a quarter section of timber land, thirty head of dogs, five Winchester rifles and 500 cartridges, four knives and two revolvers, with his band of horses, among his brother an l other friends. B. M. Charles has made himself poor, perhaps as a part of the expiation, but one wonders how he will feel at the end of the seven years and four months.

And now, when the public has grown faint in the vain effort to curb its curiosity relative to the why a man would stand execution by electricity, comes the news that the Kemmler electric experiment, soon to have taken place in New York, is off for the present. An appeal has been taken in the case on the ground that the law under which sentence was pronounced is invalid. This will delay execution until the case goes through the higher courts which will probably take a year at least.

Yesterday a report reached THE OREGONIAN that there were apprehensions at Walla Walla that Hon. John R. Allen, delegate in congress from Washington territory, had been lost in the Conemaugh valley flood. An inquiry addressed to Walla Walla yesterday brought the answer that Mr. Allen had been detained by the flood, but would arrive at home last night.

If there ever was a time when the people of the United States can afford to pass over the national holiday without obstreperous noise and vain display, it would seem to be now, when appalling disaster has visited one of the busiest homes of industry the country ever knew, resulting in such devastation and death as the world has no record to equal in our day; and when, close to us here, the second city of the Pacific Northwest has been destroyed by fire. Many a fund has been gathered for the purpose of suitably celebrating the natal day of our republic, but no better use can be made of that money than to divide it between the people who survive their ruined homes and all their industries at Johnstown, and the sufferers at Seattle who so proudly announce their ability to help themselves. Under the circumstances we can celebrate by picnics and social friendliness; can have speeches and poetis and omit the fireworks and transparencies; can in sincerity make the republic's natal day an occasion memorable, because the eagle did not scream for fear it might disturb the grief of those who have lost homes and family and friends so recently.

It is not surprising to learn that there is a feeling of intense bitterness among the people of Conemaugh valley against the owners of the great dam which burst and let destruction loose upon the valley. This feeling is reported to have reached such a pitch that the lives of members of the Pittsburg Fishing Club would not be safe in the region devastated by the flood. Attacks have been made on the summer villas at the lake and the furniture and other contents smashed into kindling-wood. The members of the club will certainly stay away from that locality for awhile.

The internal revenue tax collected on oleomargarine in this city during the month of May amounted to $6536, figures which suggest that if it does not pay to make butter in Oregon it must pay to import its counterfeit. Of course nobody eats oleomargarine but there is a good deal of it sold nevertheless, as the figures quoted plainly show, and this in the face of the fact that the product of Oregon creameries is a drug in the market.

Portland has responded generously to the heavy demands made upon her liberality within the past two weeks. The large sums sent out to relieve the sharp pinch of necessity that disaster has induced have been a free-will offering, which our people were amply able to give, and to which they can and will make such additions as are required as the necessity for relief is developed.

Absence of saloons and the presence of the militia are combined elements of order that have reduced crime and misdemeanor to the minimum in Seattle during the past week. This may be cited in proof of the statement that there are compensations even in calamity.

A STATEMENT FROM GEN. ADAM BADEAU.

WASHINGTON, June 6.

TO THE EDITOR OF THE OREGONIAN:

In your issue of May 18 last, just brought to my notice, you published the following article

"General Adam Badeau embittered Grant's dying hours by hounding him for a share in the profits of his book, and after Grant's death asked the widow for $10,000, which he claimed was due him under his contract with Grant. Grant was Badeau's friend and protector for more than twenty years, and was his boldsman when he was consul to Cuba. Badeau illegally appropriated to his own use $5000 belonging to the United States. He was illegally, for the United States courts not long since decided that Badeau had no authority to appropriate this money, that Grant's estate is benefited by the money thus illegally appropriated. If Badeau had a spark of honor in him he would long ago have paid to the dead horse that he charged against him, and restored General Grant's widow the disappointment of the money that he, as a government officer had taken. But he prefers to demand and collect from his benefactor's estate $10,000 he never ought to have received, and refuses the estate of his benefactor and bondsman to be insulted to settle his accounts with the state department for moneys which he (Badeau) had misappropriated."

Now, sir, in the first place, on February 7, 1885, nearly six months before his death, General Grant put into writing, in his own hand, and as he says, "voluntarily," the following contract with me, in which he offered me *a share in the profits of his book—one-third up to a specified amount*—and declared that the compensation he proposed was "*small*" for my services "*or deed.*"

(PHOTOGRAPHED FROM THE ORIGINAL.)

In consideration of the fact that the book which I am now engaged upon, will be in competition with Badeau's History of my Campaigns, which was written with my consent and with the expectation that it would take the place of all, I would have to pay on the 20th subject in further consideration of the fact that I shall use maps which he had prepared with great care and at great expense, as the basis of my maps; in further consideration of the assistance which he is to give, in the preparation of my forthcoming book, I have voluntarily stipulated as small compensation for his various services rendered to me, proposed, and to propose and bind myself to give him, General Badeau, four thousand dollars, ($4,000) from the first twenty thousand dollars, ($20,000) realized from the sale of my book, and an additional five thousand dollars, ($5000) from the next ten thousand dollars, ($10,000) so realized.

U. S. GRANT.

New York City, February 7, 1885.

Received of Genl. U. S. Grant, $280, my share of $1000 received by him this day on account of his book.

ADAM BADEAU.

3 East Sixty-Sixth St., New York, March 2, 1885.

This contract, after General Grant's death, his son repudiated, is practically paid in full with interest, within a week of a trial in open court.

Second—Not only have the courts made no decision whatever in regard to the question at issue between the treasury and myself concerning my Cuban accounts; not only has the case *never been tried;* but up to this moment *I have not even been sued,* although five years ago I informed the government that I would appeal to the law rather than submit to what I regarded as illegal rulings.

Third—Seven months ago, in November 1888, my lawyer notified the representatives of General Grant, as well as my other bondsman, that he was instructed to appear for them in the event of a suit, and that under no circumstances would they be put to any trouble or expense in the matter. I have never been notified that either of them has been sued.

ADAM BADEAU.

If you have not taken your spring medicine yet get Hood's Sarsaparilla at once. It is the best.

Take the Northern Pacific Railroad the fining car route for all points East. Office, No. 121 First street, corner Washington.

NEW TO-DAY.

SMALL FRUIT FARMS. Newhurst Park is on the Base Line Road, east of Mount Tabor, beautifully situated, level and free from gravel. The finest location in Multnomah county; plenty of water. While this property is selling cheap, and such easy terms, now is the time to buy. The sooner you plant your trees, the sooner you get your good returns. We offer this property in lots to suit purchasers, from 5 acres up; each 5-acre tract has its corner posts. The picturesque avenues on which these tracts face are 40 feet wide; the surrounding hills and snow-capped mountains makes the park look like a paradise on earth. The Mount Tabor line brings Newhurst Park close to the city, and with the proposed Mount Hood Railway, which is surveyed on the south boundary line, and the prospect of being in running order before one year, what better speculation does a man want? GEO. L. STORY, 31 Stark st.

The Committee of Arrangements, appointed by the Portland Board of Trade, desire to give notice that Mr. Villard will address the business men and property holders of this city and vicinity upon matters of public interest, at the New Park Theater, on Friday, the 14th inst., at 8 P. M. A full attendance is desired. After the address an opportunity will be given to question Mr. Villard upon the past and present relations of the various corporations with which he has been and is identified, in their bearing upon the interests of Portland and the Northwest Coast.

GOOD SPECULATIONS.

NOTICE.—The Oregon Pacific's boats will not re... any freight for Upper Willamette river ... points until Saturday, June 15.

STRAW HATS.—Kohn has the latest styles, at ... Second and Morrison.

THE STEAMSHIP AUSTRALIA.

Undergoing Very Extensive Repairs at San Francisco—The New O. R. & N. Tow Boat.

The steamship Australia, which is one of the largest, if not the very largest steamer plying in the waters of the Pacific, is undergoing a thorough overhauling at San Francisco.

The contract on the Australia is the largest and most costly job in the way of repairs that has ever been let on this coast, and it is estimated that before the steamer is ready for sea again the amount expended on her will reach $200,000. To begin with, two immense new iron boilers were put into her and another engine, which will make her triple expansive. This work was done by the Risdon Iron Works, and the machinery was safely moved to the wharf and put into the ship without damage. An entirely new main deck of iron has replaced the old one, and a portion of the upper deck is new. Three of the bulkheads were torn down and rebuilt and new beaters and stringers were put under the boilers. The iron houses on the deck were removed and have been replaced by larger ones. Below, everything has been changed and remodeled. Sixteen bathtubs have been put in, and there are also fourteen patent closets.

At one time George Ross, the shipwright, had 200 men on board the vessel.

When the repairs are completed the Australia will be better than ever. An electric dynamo is to be put in her, and the vessel will be lighted throughout by incandescent jets, and she will be fitted up with all the modern improvements. Through the hollows about 180 lengths of pipe will be laid, carrying salt water, which contrivance is intended to lower the temperature.

A portion of the keel of the new tug boat being built by the Willamette Shipbuilding Company for the O. R. & N. Co. is laid and the material is about all on the ground. The old tug Donald is lying high and dry above the Jefferson street ferry, perched on ways. Her machinery is about all stripped out of her. When she is dismantled, the old tug will be taken down to the boneyard for further disposition.

The hull is to be constructed of Oregon fir, and will be as strong as wood and iron can make her. It will be fastened with galvanized iron and locust-tree nails. The dimensions of the new tug will be: Length over all, 125 feet; beam, 22 feet; depth of hold, 12 feet. She will carry the machinery of the old tug Donald.

The contractors are bound to have the new tug ready for running in ninety days from the 3d of June. While the work is being done, the tug Escort will do her service. The contract price of the new tug is not known definitely, the company preferring to keep the matter quiet, but it is supposed to be about $25,000.

The British ship Assaye sailed yesterday with a full cargo. Captain Ritchie says he hopes to come here to Portland as he has been well used here, his disbursements being light and his vessel having quick dispatch, it being only three weeks from the time he came in till he was loaded and off again. He says Portland is as cheap a port as any he has ever visited and he likes the people he dealt with and expects to return soon.

The Barrowdale, which by the way is one of the tidiest and cleanest ships visiting this port, goes over to the flouring mills to-day to take in stiffening and will return to this side to discharge her cargo, and will then complete her cargo of flour for England. Her captain likes to come to Portland, as it is only nine months since he was here before.

BUILDERS OF STATE EMPIRE.

All Preliminary Steps Taken Towards a Successful Reunion of the Pioneers—The Ball in the Evening.

No local event of the passing year is fraught with deeper significance to Oregonians, native and to the manor born, than Pioneer day. It is the connecting link between the past crowded with memories of patriotic devotion to American institutions, heroic sacrifices of life and health; in penetrating the wilderness, reclaiming it from savagery and dedicating it to civil and religious freedom, and the future is radiant with promise of higher development and grander achievements than have so gloriously illustrated the past.

As such the duty of the proper observance of Pioneer day, appeals with peculiar force to all new residents of the state and partakers of its bounties, but particularly so to the descendants of the grey-haired sires and women, who annually assemble to revive the memories of the stirring events of the forties and early fifties, all of which they saw and part of which they were.

Year by year their numbers are diminishing. Age is laying a heavy hand on all of them, and soon the places which knew them will know them no more forever. In view of these facts it becomes the duty of Portland, again to be honored with the presence of the Pioneers on Tuesday next, the 18th inst., to extend to those venerable men and women the most cordial and heartfelt welcome hospitality can devise. Nothing should be left undone which can be done to show those veterans of the state that their deeds are held in high esteem and that they hold the first place in the city's book of remembrance. Let each one of them be made to feel, by the gracious reception accorded to each and all, that while we, as citizens, are ready to welcome their coming, we shall be in no haste to speed their parting, and that, come as often as they may, this latest welcome shall be warmer than any that preceded it.

All has been done that can well be to insure a successful occasion. The usual reduction of fares over the Southern Pacific lines as far south as Ashland, the O. R. & N. Co. and the Oregonian Railway Company system have been secured. Carriages will be provided to convey the aged and infirm to the Exposition building, both at the public exercises during the day and the social entertainment in the evening. The arrangements for the ball are in the hands of a most efficient committee of young gentlemen, the Sons of Pioneers, and no pains will be spared to make it the social event of the season. Ample arrangements will be provided for all who desire to repair into good quarters, where the typical campfire stories and reminiscences can be indulged into to the fullest extent. Take it all in all, the arrangements for the sixteenth annual reunion give promise of the best and most interesting gathering of the kind ever held since the organization of the Pioneer Association.

TWO SUCCESSFUL EXCURSIONS.

One for the Benefit of the Johnstown and the Other the Seattle Sufferers—Great Generosity.

The young people of the East Portland Baptist church very gratefully recognize the kindness of those who aided in making their excursion for the benefit of the Johnstown sufferers so great a success. The number of tickets sold is not yet definitely known, but the proceeds will be published as soon as ascertained.

The excursion left Portland about 9 o'clock, and after a delightful ride a few miles down the Columbia, returned about 1 A. M. A very excellent musical entertainment had been provided, all who participated voluntarily donating their services. The Marine band delighted everybody with their lovely music. The East Portland Glee Club sang so well that the absence of two or three important parts was scarcely missed.

The solos by the Misses Grace Davey and —— Grayson were heartily applauded by those present. Professor Johnson's two young daughters, with their mother accompanying on the guitar, rendered a duet beautifully, while a recitation by little Nellie Rogers was given so sweetly as to secure warm selection from the great crowd. Professor Millard, of the East Side, had composed a poem for the occasion for which Professor Wilder, of Portland, prepared music. This was rendered by the two gentlemen in a manner which for real eloquence and pathos baffles description. They were loudly encored and in response sang another charming duet, with equal satisfaction.

COMPANY B'S BENEFIT EXCURSION.

Company "E's" excursion Wednesday night for the benefit of the Seattle sufferers was a grand success in every way. The boys think they will be able to clear over $200 above expenses to send to Seattle. They have worked very hard and deserve a great deal of credit.

They contracted for the boat and other expenses before the Seattle fire, intending to run the excursion for their own benefit, but very generously decided to give the excursion for Seattle when the fire came. Among those who have lessened their expenses are Lewis & Dryden for printing, at half price, and Sam Beary, who donated five gallons of ice cream. East Oregonian charged nothing for advertising. The boys have been advised to give another excursion for their own benefit, which they may do soon.

APPOINTED ASSISTANT QUARTERMASTER.

The following special military orders have been issued from Vancouver under date of June 10:

Second Lieutenant W. A. Kimball, Fourteenth infantry, is appointed acting assistant quartermaster in connection with his duties at Seattle, W. T. All canvas and other public property sent to that city will be transferred to him on invoices and receipts by the respective shipping quartermasters.

On account of change of station, the target practice season of Troop F, Second cavalry is extended to include June 30, 1889.

AUCTION SALE TO-DAY.

Merchandise and Furniture. Assignee's sale by Gilman & Co., at 10 o'clock, at salesroom.

That most delightfully situated residence property, being blocks 92 and 93, known as the Lovejoy block, East Portland, belonging to the estate of the late Pierre Mandel; also the five (5) acres immediately situated to the south of that magnificent suburb, Mt. Tabor, to which cars are now running regularly, will be sold at auction by John Birge, at the court house door, Second and Yamhill streets, at 10 o'clock A. M. For particulars inquire of John Birge, or Gilman & Co., auctioneers.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

TO BE GENTLY LAID AT REST.

The Remains of the Late Mayor E. C. Wheeler Will Be Buried To-Day.

Funeral Arrangements—Democratic City Convention—Resolutions—The Ticket—Central Committee—Commencement Exercises—Etc.

The funeral of the late Mayor E. C. Wheeler will take place this forenoon at 10 o'clock from the residence of J. T. Stewart, Fourth and A streets. Brief religious services will be held at the house, Rev. D. O. Ghormley, pastor of the Presbyterian church, officiating. The singing will be conducted by Messrs. Wadhams and Warren.

The following orders will attend: Masonic, Odd Fellows, Knights of Pythias and Ancient Order of United Workmen.

The common councils of East Portland, Portland, Albina and Sellwood will attend in a body.

Also, the directors of the Franklin Building and Loan Association of Portland will accompany the funeral procession.

It is expected that there will be a full attendance of members of the fire department in uniform.

At the grave, which will be in Lone Fir, the services will be conducted by the Masonic fraternity, S. Bullock, W. M., presiding.

Two pallbearers will be selected from each of the above orders.

It is expected that the request of the president of the common council, that business houses be closed between the hours of 9 A. M. and 1 P. M., will be generally observed throughout the city. Within that time the Portland & Vancouver Railroad Company will not run trains inside the city.

The citizens of all the municipalities on both sides are invited to attend the funeral, and it is expected that there will be a large attendance.

DEMOCRATIC CONVENTION.

The democratic city convention met last evening at the council chamber and was called to order by J. J. Kelley, chairman of the city central committee.

On motion, J. J. Kelley was chosen as temporary chairman, and G. A. C. Brady as temporary secretary.

A committee on credentials was then appointed as follows: J. B. Crosier, M. E. Freeman, Thomas Parrott and J. D. Sullivan.

A committee on order of business was appointed, consisting of J. H. Rappleye, Dr. Welch, A. Hoyt and T. J. Hannigan.

The committee on credentials reported the following delegates entitled to seats in the convention:

First ward—G. H. Stout, J. B. Rappleye, F. Parker, M. Partlow, by A. Powell, proxy, and F. E. Crosier.

Second ward—Thomas Parrott, by Al. Kadderly, proxy; M. E. Freeman, H. D. McGilire, by Dr. Welch, proxy; G. W. Ross, and R. W. Donahson, by S. W. Marks, proxy.

Third ward—T. B. West, A. Hoyt, G. A. C. Brady, C. E. De Burgh and D. Jackson.

Fourth ward—J. J. Kelley, J. D. Sullivan, T. J. Hannigan, and M. J. Toohey.

The committee on order of business reported the following order, which was adopted:

First—Permanent organization by making temporary officers permanent.

Second—Nomination for mayor.

Third—Nomination for recorder.

Fourth—Nomination for marshal.

Fifth—Nomination for treasurer.

Sixth—Nomination for assessor.

Seventh—Nomination of four councilmen by the different delegations.

Eighth—Appointment of city central committee by the chair.

RESOLUTIONS OF RESPECT.

Delegate Powell moved, and the motion was carried, that a committee of four be appointed to draw up suitable resolutions upon the death of Mayor Wheeler. The following committee was appointed: A. L. Powell, S. W. Marks, T. B. West, and M. J. Toohey.

The following resolutions were then read and adopted:

Resolved, That in his death is the loss to those who are near and dear to him; to the common people of our city an honest and true citizen; to the state one of her leading men, and to the city one of its leading representatives.

Resolved, That we tender to the bereaved and sorrowing family our heartfelt sympathies in the irreparable loss which they are called upon to suffer.

THE TICKET.

The following ticket was then placed in nomination:

For Mayor—G. M. Stroud.
For Recorder—J. H. Whitaker.
For Marshal—W. C. Morgan.
For Treasurer—Joseph Burkhard.
For Assessor—S. S. Wishard.

FOR COUNCILMEN.

First ward, no nomination; second ward, Thomas Parrott; third C. E. DeBurgh; fourth ward, J. J. Murphy.

CENTRAL COMMITTEE.

First ward, J. B. Rappleye; second ward, W. W. McGuire; third ward, W. C. Morgan; fourth ward, T. J. Hannigan.

THE MAYOR QUESTION.

As there is some question as to the proper action to be taken regarding the office of mayor, made vacant by the death of Mr. Wheeler, the following section from the city charter fully explains the duties of the council in the premises:

SECTION 9. Should a vacancy occur in the office of mayor, councilman, recorder, assessor, marshal or treasurer, the common council shall elect some person to fill such vacancy, who shall discharge the duties of such office the remainder of the unexpired term; *Provided*, That in case the vacancy is in the office of mayor or councilman, and such office would not have expired ten days after the next general election, then the person so elected to fill the same shall only hold the said office or discharge the duties thereof, ten days after such ensuing general election, at which general election, if such vacancy was in the office of mayor, a mayor shall be elected for the full term of two years, and if such vacancy was in the office of a councilman, a councilman shall be elected for such unexpired term in the same manner as councilmen are elected in wards.

It is the opinion of those competent to judge, that the council should elect a mayor before any business is transacted. The mayor who will be elected next Monday, will take his place three days thereafter, but there will be one more council meeting before that time, at which there will be important business transacted.

COMMENCEMENT PROGRAMME.

The following is the programme of commencement exercises of the High school, to be given in the Centenary M. E. church this evening:

Chorus—"We Rock Away on the Billows Gay" ..... Glee Club
Invocation ..... Rev. J. A. Snodgrass
Quartette—"From the Valleys and Hills" ..... Bulfe
Mrs. Wetzell, Miss Grace Davy, Messers Soper and Miller.
Essay—"Ladders" ..... Louise Ross
Essay—"Beauties of Nature" ..... Lauretta Barrell
Essay—"Lights and Shadows" ..... Emma Kennedy
Solo—"Come Bell" (Lucrezia Borgia) ..... Donizetti
Mrs. Wetzell.
Essay—"Borrowing Trouble" ..... Rufus Newell
Essay—"River of Life" ..... Millie Ball
Essay—"Influence of Religious Belief Upon the Development of a People" ..... Edna Alford
Quartette—"Moonlight Will Come Again" ..... Thompson
Mrs. Wetzell, Miss Grace Davy, Messrs Soper and Miller.
Presentation of Diplomas ..... J. T. Stewart
Chorus—"When Evening's Twilight" ..... Glee Club

RATHER DANGEROUS.

Sparks from the smokestack of the furniture factory on Fifth and O streets are constantly falling among the shavings on the south side of the building and causing small fires. Although the ground is carefully watched and the fires have been put out, there is great danger that a serious fire may ensue. It would be a good idea to have a hose on hand for instant use.

IMPROVEMENT OF M STREET.

A petition asking the council to improve M street, from Fourth to Twelfth, is being signed by the property holders and will be presented at the next regular meeting. The petition recites that a full improvement is wanted, including elevated roadway, of which there will be considerable. The prospects are favorable that the improvement will be made.

MEETING NOTICE.

Members of Orient lodge, No. 17, I. O. O. F., are requested to be at the hall, corner of Tenth and J streets, East Portland, Friday June 14, 1889, at 9:30 A. M., to attend the funeral of our deceased brother, E. C. Wheeler. Visiting brothers invited to attend.

T. C. POWELL, Secretary.

BALLASTING THE ROAD.

A force of men are at work ballasting the railroad track on Hawthorne avenue.

PORTLAND'S NEW ACADEMY.

A Projected Educational Institution Under the Presbyterian Denomination in this City.

"W. S. H.," the Portland correspondent of *The Northwestern Presbyterian*, writes the following letter from this city, which will be of interest to a large number of Presbyterians throughout the Pacific Northwest:

I am able at this writing to report one of the most important steps which has yet been taken in this region. It has been a cause of regret for many years that our people have not done more in the interests of education. Not that nothing has been done, but we are not up to our record. Now, however, we are in a fair way to have our needs met and our hopes realized. During the past three weeks Dr. J. R. Wilson, for ten years connected with Parsons college, Iowa, has been here looking over the ground. He and Professor Johnson have decided to remove to the Pacific coast and engage in educational work. They entered into correspondence with some of our ministers, and the result is this: After a careful survey of the country and conference with ministers and laymen, Dr. Wilson has decided to locate in Portland.

He is satisfied that there is need of a good school here, and he and Dr. Johnston will proceed to open a first-class school. Their plans are matured, and Dr. Wilson is now on his way to Iowa to get his family and return. He and Dr. Johnston will remove to Portland immediately, and will open the academy in September. They have the hearty co-operation of every Presbyterian minister in the vicinity, and are most cordially welcomed amongst us. They have fine reputations as educators and with the opening here afforded we hope to see an excellent school in early operation.

It may not be out of place to add that Dr. Wilson is a graduate of Washington college and has been professor of Greek in Parsons college. He is very highly esteemed there and has been offered the presidency. He would decide to remain. Dr. Johnston is a graduate of Amherst college, studied several years in Germany and received the doctorate at Tubingen. He has filled the chair of mathematics, and more recently that of modern languages, in Parsons college. These two gentlemen have been associated in college and preparatory work for ten years, and they enter upon this new enterprise, ripe in experience and with well-matured views of what is required in such a school as they now propose to open.

It is fortunate for us that their attention has been turned to Portland at this juncture, and to us who live here their coming seems to be most opportune. Mrs. Johns on is a graduate of the Conservatory of Music, in Boston, and is, therefore, a thoroughly equipped instructor in music.

SALES OF REAL ESTATE.

List of the Deeds Filed for Record in the Recorder's Office Yesterday.

Tin Eaters and Imitators.

The unequal success of ALLCOCK'S POROUS PLASTERS as an external remedy has stimulated unscrupulous parties to put forth imitations, which they endeavor to sell on the reputation of ALLCOCK'S. It is an absurdity to speak of them in the same category as the genuine and original porous plaster. Their pretensions are unfounded, their vaunted merit unsupported by facts, their alleged superiority to or equality with ALLCOCK'S a false pretence.

The ablest medical practitioners and chemists and thousands of grateful patients unite in declaring ALLCOCK'S POROUS PLASTERS the best external remedy known.

REAL ESTATE

IS THE ONLY SAFE INVESTMENT

Our terms for collecting rents are $1 for each tenant for all sums under $300.

THE PORTLAND REAL ESTATE COMPANY, 4½ WASHINGTON ST.

HAPPENINGS AT ALBINA.

Accident and Very Narrow Escape—Fireman's Death—Lettered Signs—Progressing—Picnics—Notes.

An accident occurred about noon yesterday, which might have ended more disastrously than it did. Levy Riggs, a young man employed by Dick Arann, a wood dealer, to drive a team, was crossing the railroad track near the ice house. The switch engine with some cars had just passed ahead, but began to switch back with the cars on the track. He tried to back the team, but he could not, so he urged the horses forward, but before the wagon cleared the track the cars struck it and Riggs was hurled into the air. The concussion caused the wagon to fall under the cars, where it was completely demolished. A car was thrown off the track and for a few minutes times were lively. The horses had broken loose and dashed up the street, but were finally caught. The young man had his shoulder dislocated and was shaken up in general. He was considered very lucky in not being more seriously injured than he was.

DEATH OF A LOCOMOTIVE FIREMAN.

Mr. J. Schoner, a locomotive fireman between Albina and The Dalles, died Wednesday at St. Vincent hospital. He has been a resident of Albina for over two years, and was taken down with typhoid fever about ten days ago at the Continental hotel, where he roomed. He grew so ill that he was sent to the hospital, where he died. It seems that during his residence here no one has ever heard where he came from or where his relatives could be found, so that his dea h could be telegraphed to them. The sisters have been anxiously awaiting some tidings before the burial.

STILL PROGRESSING.

Large coils of wire are being piled up on Russell street, and the Albinite locks around with pride as he explains to visitors that "this wire is to be used for our new electric motor car line which is to be built in a very short time to connect with Portland."

PICNIC SEASON.

Picnics seem to be the order of the day. Tomorrow the Evangelical church will give a basket picnic to St. Johns. It is supposed that this will not be a genuine picnic unless you bring your basket with you filled with good things to eat.

CHANGE OF PASTORS.

Rev. W. Hershner, of Corvallis, has been appointed to take charge of the Evangelical church in Albina, in place of Rev. Ehrit, who has likewise taken charge of the church in St. John's.

STREETS TO BE LETTERED.

The streets of Albina are soon to have lettered signs with the names of the streets. The next thing in order will be to have the houses numbered.

VARIOUS NEWS NOTES.

A large force of men with teams are busily engaged in grading Abernathy avenue.

Miss Minnie Leahy, of San Jose, Cal., is here on a visit to her sister, Mrs. Kate Hewett.

Mr. T. W. Black, school clerk, is very ill, and has been since the death of his little girl.

The firm of McEarchen have just finished putting in a new glass front in their place of business.

Mrs. Hill, who has been visiting her son, Rev. G. W. Hill, has returned to her home in Eugene City.

A new parsonage is being built near the Evangelical church. It will be occupied by the pastor Rev. W. Hischner.

Russell street is having the balance of its sidewalks laid, so that pedestrians will not have to zigzag from side to side to find a plank to walk on.

We have found no remedy for malaria, so reliable and safe as Ayer's Ague Cure. Taken according to directions, it never fails.

Purchase your tickets and reserve your sleeping car accommodation at No. 121 First street, corner Washington, office Northern Pacific Railroad.

CIGARETTES ARE THE BEST.

CIGARETTE SMOKERS WHO ARE WILLING to pay a little more than is no price charged for the ordinary trade Cigarettes, will find the

CIGARETTES SUPERIOR TO ALL OTHERS.

They are made from the very highest cost Gold Leaf grown in Virginia, and are unequaled for their delicate aroma and rare fragrance, and are absolutely

EXECUTORS' SALE.

Whereas Pierre Mandet did, by his last will and testament, empower me, as surviving executor of said will, to sell and dispose of all realty belonging to said estate, and convert the same into cash, for distribution among his heirs and devisees, and therefore, in pursuance of the trust imposed on me by said will, I will, on Saturday, the 15th day of June, 1889, at the hour of 10 o'clock A. M. of said day, at the door of the Court-House of Multnomah county, Oregon, sell at public auction all the right, title and interest of the estate of Pierre Mandet in and to the following described realty, namely: Blocks numbered 92 and 93, in the city of East Portland, Multnomah county, Oregon, a subdivision commonly known as the "Kerrens Blocks;" also a tract of land in the Joshua E. and Nancy Hilton D. L. C., in Secs. 5, 6, 7 and 8, T. 1 S., R. 2 E., beginning on south line of said claim 83 34-100 rods east of the S. W. corner; thence easterly along said line 9 20-100 rods; thence north 86 rods; thence westerly, parallel with south line, 9 20-100 rods; thence south 86 rods, to the place of beginning, containing 5 acres, to the highest bidder, for cash. The interest of the estate of Pierre Mandet in all of the above described property is an undivided one-half thereof.

Dated at Portland, Oregon, this 16th day of May, 1889. JOHN BIGNE,

Executor of the Estate of Pierre Mandet, Deceased. 17m5—1aw

PROPERTY IN

ADVANTAGES. ELEVATED, SIGHTLY, ACCESSIBLE.

Offered for 25 and 50 per cent less than any property in either Portland or East Portland equally accessible is selling for.

REACHED BY HORSE CARS, MOTOR LINE AND FERRIES

HOLLADAY'S ADDITION

PRICES FROM $600 A LOT UPWARDS.

TO EAST PORTLAND.

It is magnificent property comprises 1400 lots and lies immediately between the city of East Portland (population [illegible]) on the south and the city of Albina (population 4000) on the north, being really a "reserve" between two populous towns, the combined population of SIXTEEN THOUSAND. It is high, commanding a view of the entire [illegible] of East Portland and Albina and is reached by the street cars of the Willamette Bridge Railway Co. from [illegible] Portland. This company is now operating two lines of street cars, one running north from Holladay's addition to the heart of East Portland, across the Morrison street bridge, and the other running due west across the new [illegible] terminating in Portland. In addition to these two lines the cars of the Vancouver motor line run directly through the addition from north to south. The property can also be easily reached from the "west side" by either the Southern Pacific road Company's steam ferry or by the small ferries running from Portland to Albina. Some of the finest residences on the "west side" are located in this addition. Many of the most prominent residents of Portland and East Portland are owners of property in Holladay's addition and many elegant and substantial residences will be constructed there during the coming season. A magnificent Boulevard, Holladay avenue, 100 feet wide, cuts through the entire property from west to east, and is to be one of the most popular drives out of the city. This connects with the new steel railroad and wagon bridge (spanning the [illegible]) on the west, thus giving easy access into Portland from this most desirable property. Address or call on

OREGON REAL ESTATE CO.,
3 Morrison Street, Portland, Or.

ALBINA ADDITION.

This is the finest and most desirable property on the East Side; is nearer to churches, schools and the business and residence center of the City of Albina than any other offered.

Notice particularly, that it is but four blocks distant from the high school on Russell street, and but two blocks distant from the North school, the two principal public schools of the city. There are two churches within two blocks, other churches in the immediate vicinity, and the entire tract surrounded by substantial and attractive homes. Albina addition is inside property with a sure and established value, which will rapidly advance. It is but one block to the line of the proposed electric street railway, which will enter the City of Portland by way of the new steel bridge, already constructed and in operation at North Third and F sts. Every lot in Albina addition is cleared of stumps and all rubbish; the soil is rich black loam and the situation everything that is desirable for pleasant homes or business property. Prices from $350 upwards. Terms, one-third cash, balance to suit purchasers. Call on or address

COMMERCIAL

THURSDAY, April 13.

Merchandise received or sent to drive by rail: 2 pkgs bedware, 10 pkgs castings, 1 car agricultural implements, 1 car machinery, 1 pkg drivers and fixtures, 1 pkg machinery, 1 pkg clothing, 60 cs dry goods and shoes, 26 cs mineral water.

WEATHER—Past twenty-four hours: Maximum temperature, 72; minimum, 46; precipitation, 22 hrs 45mm, 100 cs mineral water.

PORTLAND RECEIPTS—Past twenty-four hours: 40,000 lbs wheat, 2565 bbls flour, 244,590 lbs wool, 200 lbs hides, 42 pkgs butter, 195 bxs eggs, 105 lbs fur, 10 lbs hops, 10 tons hay, 57 hd hogs, 32 hd cattle 350 hd sheep, 12 tons grain, 300 cs canned goods, 1 pkg fruit, 10 tons hay, 57 hd hogs, 32 hd cattle 350 hd sheep.

WHEAT—The market remains unchanged. Nominal figures possibly attainable are: Eastern Oregon, 81@82c; valley 81@82.

The fluctuations of the New York market to-day were:

	Closed 13th.	Opened 14th.	Noon	Closed
July	81¾			81¾
	82¾	81½	82	82½
July	81¾	81½	82½	82½
August	81¾	82¼	82⅞	82⅝
September	82⅝	82¼		

FREIGHTS—The situation remains about the same during the week a number of vessels have been added to the "to arrive" list, chartered for next season. The Merrowdale, 1127 tons, is reported as engaged Continental Liverpool, terms private. It is understood that she will take in her first load at Astoria with salmon. The last two vessels on the "to arrive" list, the Ben Voirlich, 1670 tons, and the Crown of England, 1799 tons, are reported as chartered for all next season, and have been added to the "to arrive" list. She also has been added to the list, with cargo. The Assaye, 1991 tons, at Greenwich dock, and Vanduara, 2032 tons, at Victoria dock, are being loaded with coal at Victoria dock, and are the only vessels now at C. Casar & Co., and are the only vessels now at the Merrowdale. The Barndon, 1,200 tons, loaded with wheat, is finishing at Astoria. The following is a statement of the registered tonnage in this port:

In port—Engaged loading	4,490
In port—Astoria finishing	1,350
Total engaged in port	5,840
On the way—due June or July	8,455
On the way—due later on	14,324
Total tonnage on the way	22,779

SALMON—A typographical error in Thursday morning's salmon note made the shortage of 15,000 cases read, up to July 1, when it should have read June 1.

EGGS—The market rules even. We quote 18@20c.

POULTRY—Chickens rule about the same; for young hens, 3@4; and for old, $5@5 50.

MARKETS BY TELEGRAPH.

NEW YORK STOCK MARKET.

NEW YORK, June 13.—The stock market to-day was comparatively quiet, less than a dozen stocks making almost the entire business done. The final changes are generally insignificant, in the direction of lower figures.

Government bonds have been dull and steady.

SAN FRANCISCO MARKETS.

SAN FRANCISCO, June 13.—Produce receipts past twenty-four hours included 4900 ctls wheat, 7700 ctls barley, 400 sks potatoes, 14,000 ctls barley.

Freights—The demand for grain tonnage the earlier part of the week was moderately active, but has quieted down somewhat the past days of the week. Owners are firm in their ideas, and freights have a stiffening tendency. Grain charters for the week have been as follows: Spot for U. K., Havre or Antwerp, Br bk Astoria, from 1409 ss, at 48s 9d; Br bk Eveline, from 1173, flour to Cork, U. K., at 48s; Ger bk Paul Isenberg, from 1197 tons, chartered for Cork, U. K., Havre or Antwerp at 48s. Chartered prior to arrival—Br sh Armide, 1,000 tons, at 45s; ship Louisiana, 1262, wheat to U. K., Continent, charters—Ger bk Paul, 1197 tons, lumber, charters—Ger bk Paul, from Sound to Valparaiso; sh Levi G. Barnes, from Sound to Melbourne. Coal charter—Sh Commodore, Departure Bay to San Francisco.

WHEAT—The market has shown little activity during the past week, and no material change has occurred in values. Buyers appear altogether indifferent about operating, preferring to wait for the new season's wheat. Offerings are freely made at $1 07½ for standard shipping. Options have ruled very inactive throughout the week. To-day's business: No. 1 white, buyer year, was 500 tons at $1 07½.

Afternoon session: Buyer year, no sales; seller year (new wheat) $1 04½.

Barley—There is a steady feeling, with a fair demand. Prices show no change from a week ago. Receipts have been fairly liberal. Quote choice feed—@[illegible]c. Options are very dull; buyer year 80, seller year 71.

Oats—A slight but steady improvement can be noted in the tone of the market the past week. Receipts have been small, with a better demand for feed. Quote feed descriptions at 90@95c.

Rye—The market which has ruled dull and inactive the past week has to-day given way to a feeling of firmness, stimulated by a fair demand. Selling is effected on basis of 1 15@1 20 per ctl.

Millstuffs—Little business has passed during the week, but prices have ruled steady. Bran (Oregon) quoted $ 1 50 per ton; middlings $11@12.

Hops—The feeling is rather easier. To-day 50,000 lbs were sold at 7½c June-July delivery.

Wool—Demand fair and prices are steady. Eastern Oregon, 9@12c; Willamette valley, 20@30c.

CHICAGO LIVE STOCK MARKET.

CHICAGO, June 13.—Cattle—Receipts, 14,000; slow; steady to a shade lower; hoves, $4 15@4 40; steers, $3 60@4 30; stockers and feeders, $2 30@3 60; Texas cattle, $1 75@3 75.

Hogs—Receipts, 27,000; slow; 5c lower; mixed, $4 20@4 40; heavy, $4 15@4 35; light, $4 25@4 40.

Sheep—Receipts, 6500; steady; natives, $3 50@4 70; Westerns, shorn, $3 50@4 25; Texans, shorn, $3@3 90.

NEW YORK MARKETS.

NEW YORK, June 13.—Grain freights to Liverpool, by steam, 2½d per bushel.

Wheat, tending up. Opening quotations were: 82½c July, 81½c August, 82¼c September, 83½c December. Noon—82 July, 82½c August, 81½c September. Closed, 81¾c June, 82½c July, 82½c August, 82½c September.

Wheat receipts at the seven primary points east of the Rocky mountains, past twenty-four hours at 104,000 bushels; and the shipments from these points during the same time, 164,000 bushels.

MISCELLANEOUS.

NEW YORK, June 13.—Hops—Firm; quiet.

Coffee—Options closed barely steady; sales, 46,250 bags; June $16 10@16 15; July $16 15@16 20; September, quiet; fair cargoes, 18½c.

Sugar—Raw, held firmly, quiet; fair refining, 7 1-16c; centrifugals, 96 test, 8c; refined, firm, at 1c advance on hards, active; C, 7¾@7¾c; extra C, 7 15-16@8c; white extra C, 7 15-16@8c; yellow, 7 9-16@7 5-8c; mould A, 8¼c; standard A, 8¼c; confectioners' A, 8¼c; cut loaf, 9¼c. crushed, 9¼c; powdered, 8¼c; granulated 8¼c.

Copper—Dull; Lake, June, $12 10.

Lead—Easier; domestic, $3 92½.

Tin—Quiet; easier; Straits, $20 20.

Bar Silver—91¾c.

Petroleum—Consolidated exchange—Opening, 82c. Stock exchange—Opening, 81¾c; closing, 82c.

FOREIGN MARKETS.

BREADSTUFFS GRAIN REPORT.

LONDON, June 13.—The weather is improving throughout the kingdom.

Since last report one wheat cargo has been sold and three cargoes are now waiting orders off coast.

Cargoes off coast—Wheat, slow; maize, steady. Cargoes on passage and for shipment—Wheat, quieter; maize steady; No. 2 red winter, prompt shipment, 32s 3d.

English country markets are quiet.

LIVERPOOL, June 13.—Spot wheat rather easier; maize quiet. American extra state flour, 22s 7d.

Futures easier. No. 1 California per central 6s 9¼d June, 6s 9d July, 6s 8¾d August and September, 6s 3d October and November, 6s 8½d December.

PARIS, June 13.—French country markets dull. Spot wheat and flour, firm.

LIVERPOOL, GRAIN MARKET.

LIVERPOOL, June 13.—Wheat—Quiet; holders offer moderately.

Corn—Quiet; [illegible] Western, [illegible]

CLEVELAND'S DECLARATION.

The Democratic Party Must Espouse the Cause of Free Trade.

BALTIMORE, Md., June 13.—Ex-President Cleveland, in replying to the notification of his election as an honorary member of the Maryland Tariff Reform Club, writes:

The object and purposes of the club as set forth in the declaration accompanying your letter, have my hearty sympathy and support, and their accomplishment is absolutely essential to the greatest prosperity of our people and the highest development of our country. You must, however, permit me to say that so far as the party is concerned, my hopes for a better condition of things is upon the democratic party organization which, in my opinion, cannot be true to its tradition and ancient creed without a hearty and sincere espousal of the cause to which your club is devoted.

TROUBLE AT HAYTI.

That Mysterious Cablegram—A War Vessel Ordered to That Island at Once.

WASHINGTON, June 13.—Applications at the state department for information respecting the contents of the cablegram received yesterday from Hayti, met with a point blank refusal. Secretary Tracy, however, said the dispatch did not reveal the existence of any dangerous state of affairs at Hayti, but another officer who had seen the cablegram hinted that it told of renewed fighting between the factions on the island.

Commodore Ramsey had a long interview with the secretary of the navy this morning. Secretary Tracy has ordered the Kearsarge to proceed at once to Hayti.

RUSSIA'S HOSTILE INTENTIONS.

A Belief that the Czar Has Designs Against Germany as Well as Austria.

VIENNA, June 13.—A Berlin letter in the Presse says the belief is increasing in Germany, that the czar's remark at the banquet in St. Petersburg, recently, that the Prince of Montenegro was the sole sincere friend of Russia, was directed at Germany as well as Austria. The letter says the repetition of such an incident would banish all hope of maintaining peace, and points to the continued strengthening of the Russian armaments on the western frontier as an indication of Russia's hostile intention.

ANTI-JESUITS CONVENTION.

A Provincial Association Formed and a Dominion Association Recommended.

TORONTO, June 13.—At yesterday's session of the Anti-Jesuit convention, it was resolved to form a provincial association with township branches, and a Dominion association was also recommended. A resolution was also passed declaring that only the English language should be taught in the public schools, and pledging support at the elections to only such persons who agree to forward the principles of the association.

REPORTS CONFIRMED.

Hyppolite's Victory Over Legitime and the Capture of Fort-au-Prince.

NEW YORK, June 13.—The steamer Alene, from Kingston, Jamaica, arrived at 2 this morning and brings intelligence which substantiates the report of Hyppolite's victory over Legitime. Chief Officer Williams, of the Alene, said that Legitime sought the protection of the American consul at Port-au-Prince. Hyppolite's officers have entered Port-au-Prince and taken possession.

SEVENTY-FOUR DEAD.

The Terrible Results of the Railroad Disaster in Ireland.

ARMAGH, June 13.—Many anxious friends are making inquiries for missing children at the infirmary, to which the persons injured in yesterday's railroad accident were taken. One of the wounded boys named Clelland died this morning. Both his parents and two brothers were killed outright.

The dead now number seventy-four. Others are in a critical condition.

BURNED TO DEATH.

The Fatal Results of a Drunken Spree in Leadville.

LEADVILLE, Col., June 13.—A fire, the result of a drunken spree, occurred in a West Chestnut street laundry this morning, in which a man named Edward Crawley, formerly of St. Louis, was burned to death, and Graham, another inmate, barely escaped. Crawley attempted to escape, but was too drunk to find the door, and fell by the window, and was burned. Three buildings were destroyed. Loss, $4000.

COULD NOT AGREE.

Why a Santa Ana Man Should be Thankful for Our Jury System.

SANTA ANA, Cal., June 13.—Theodore Hovey, whose trial on a charge of criminal assault on the person of Marshal Insley's 5-year-old daughter, came up yesterday afternoon, was released from custody this morning. The jury, after being out thirteen hours, was discharged, being unable to agree, standing eleven for acquittal and one for conviction.

A Rubber Boot and Shoe Trust.

NEW YORK, June 13.—A private dispatch from Boston says that at a meeting held there preliminary steps were taken for the formation of a rubber boot and shoe trust.

Advice to Switzerland.

LONDON, June 13.—Russia, Germany and Austria have sent an identical note to the Swiss government advising it to deal severely with anarchists and socialists.

Freedom of the City Refused.

LONDON, June 13.—The lord provost, of Edinburg, has refused to confer the freedom of the city upon Parnell on the occasion of his visit in July.

The Panama Canal Difficulty.

PARIS, June 13.—The cabinet to-day discussed the Panama Canal [illegible]

Company. The liquidator read his report and the result of his findings. The government will shortly present a bill to the deputies dealing with the matter.

Burglars Lynched.

COLFAX, Ind., June 13.—Burglars James Davis and Charles Tennyson were taken from jail early this morning by a mob and hanged to a bridge.

The Storage Battery System.

Cleveland Leader.

It is confidently believed by very many who have made electricity a careful study that the storage battery system will be found very nearly as cheap as the overhead wire system, besides possessing many advantages unknown to the other. Thus far, all tests seem to confirm this belief. The Fourth avenue surface road in New York city has been extensively experimenting with the Julien storage battery system. Some of the results are given as follows by a New York exchange:

"Their car-day work is fifty-seven and a half miles, which is run without recharging. In forty days the gross earnings of the storage-battery cars were at the annual rate of $9160 75, as against $6387 50, the average earnings of the horse cars on the same line, and the net earnings of each car will more than pay its entire cost and equipment at the end of the first year. During the forty days that the test car has been at work, neither batteries nor motors have required attention or expense for repairs or renewals. The difficulties which beset the early stages of the Julien system have been one by one overcome, and now the service is smooth and effective. The cost of motive power is calculated at $3 10 per day, of sixty miles; that is, the cost of energy at 2 cents per horse-power, and $700 per annum for maintenance of batteries and motor."

These are very satisfactory results, and while not entirely conclusive, are enough so to justify the thorough trial of such a system by any road contemplating the use of electric propulsion. Even if a road on such a plan cannot be operated as cheaply as by the overhead system, it is much to be preferred unless its expense is no great as to put it beyond the limits of practicability. It is safe to say that this last is extremely unlikely.

Beyond His Power.

From Spinners.

Going down the Chesapeake bay on an excursion, when the wind was fresh and the white caps numerous, Judge Hall, of North Carolina, became terribly seasick. "My dear Hall," said Chief Justice Waite, who was one of the party, and who was as comfortable as an old sea-dog, "can I do anything for you? Just suggest what you wish." "I wish," groaned the sick jurist, "that your honor would overrule this motion."

A Cure for Chronic Diarrhoea.

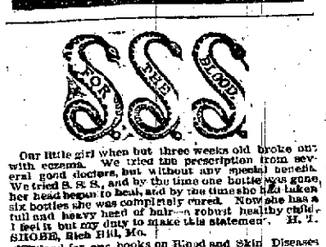
MR. E. Gleason, of Salem, Dent county, Mo., writes as follows: "Chamberlain's Colic, Cholera and Diarrhoea Remedy cured me of chronic diarrhoea after years of standing, when it seemed I could live no longer. I was growing so weak. I had tried several doctors in this state and several in Iowa, but they could do nothing for me. I was finally induced to try a bottle of your medicine. After using three bottles of it I was entirely cured. I cannot say enough in its praise. I wish that every family knew the worth of it as I do, and I am sure they would never do without it." For sale by L. Blumauer & Co.

Paris Exposition.

For rates and steamer reservations call at Northern Pacific ticket office, No. 121 First street, corner of Washington.

SIX PER CENT.—Money to loan in amounts of $500 and up, with the privilege of paying part or all before due. Jarvis-Conklin Mortgage Trust Co., 31½ Morrison street.

Take the Northern Pacific Railroad, the dining car route for all points East. Office, No. 121 First street, corner Washington.



Our little girl when but three weeks old broke out with eczema. We tried several doctors, but without any special benefit. We tried S. S. S., and by the time one bottle was gone, her head began to heal, and by the time she had taken six bottles she was completely cured. Now she has a full and hearty head of hair—a robust healthy child. I feel it but my duty to make this statement. H. T. SHOBE, Rich Hill, Mo.

POLITICAL BOSSES AT WAR.

A Brief History of the Trouble Between the Republican Factions.

The Lotan Men Will Make a Strong Effort to Elect a Police Commissioner to Take the Place of State Senator Simon.

A fight, involving the control of the political machine of Portland, and of the state of Oregon for that matter, has been going on between two republican factions in this city for several months, and, as the city election approaches the contestants are preparing to enter the arena and fight it out to decide which side shall rule the roost.

It is another case of the old story of turn "the rascals out" and "keep the rascals out." One side is in, and wants to stay in, and the other side is partly out and partly in and is aching to come all the way in. The leaders of the great fight are said to be State Senator Joseph Simon, late chairman of the republican state central committee, and for several years the recognized head of the party in this county, and in the state, and Fire Commissioner James Lotan who is said to be ambitious of becoming the political boss of Oregon.

Ask any one of a number of republicans who have an insight into current affairs, and he will tell you that Messrs. Simon and Lotan are the principals in the big political battle; ask Mr. Simon or Mr. Lotan and they will disclaim all knowledge of being the leaders of the contending factions. "But you know, politicians are not addicted to the habit of making intelligence offices of themselves. Everybody knows that two fine horses are fighting for the mastery, and that men known to be the friends of Messrs. Simon and Lotan are in the opposing ranks.

WHAT THEY ARE FIGHTING FOR.

So much for the personnel of the fighters. Now what are they fighting for? Not for the sake of fighting, nor for fun's sake, but for place.

The republican machine of Oregon is getting to be a big thing nowadays, and its control means something to the one who has the management of it. Next year there will be a general election in this state. Besides the governor, congressman and other state and county officers there is to be elected a legislature which will meet in January, 1891, to elect a successor to John H. Mitchell in the United States Senate.

Mitchell is a candidate for re-election, and for over a year he has been in correspondence with his trusted friends here, who have been laying the wires for him. While the legislature was in session he telegraphed from Washington to all Eastern Oregon and, formerly a member of the republican state central committee, who was a clerk of one of the standing committees of the house, requesting him to see to it that no new committee would be created that would be likely to return democratic delegations. He had an eye to business that time.

It has been supposed that Mitchell's strongest opponent would be Mr. Sol Hirsch, the new United States minister to Turkey. Mr. Hirsch was the republican caucus nominee for United States senator four years ago and was defeated because of a bolt in the party, and at the special session of the legislature in the fall Mitchell was elected by a fusion of republican and democratic votes.

The question which now agitates the minds of the republicans is, "Does Mr. Hirsch's appointment to a foreign mission give Mitchell a clear road for his return to the United States senate?" When that question is settled definitely many heads will rest easy. Mr. Hirsch has not been heard from on the subject; but there are many who confidently believe that he will leave his Turkish post in the fall of 1890 and return to Oregon and fight it out with Mitchell. If he does there will be a repetition in Salem in 1891 of the senatorial fights that have made Oregon famous.

THE STATUS OF AFFAIRS.

As matters now stand Mr. Lotan is the boss of the fire department and Mr. Simon has the upper hand in the police department, while the city council seems to be feathering to Mr. Lotan, if the recent removal of Connon, a Simon man, from the head of the street cleaning department and the election of F. D. Matthews, who is believed to be a Lotan man, to take his place, is to be taken as a criterion.

The new city charter provides that the police commissioners now in office shall hold their respective offices until their successors are elected and qualified, and Commissioner Simon, whose term would otherwise have expired next month, sits back complacently in his seat, as much as to say, "What are you going to do about it?" The Lotan men will endeavor to oust Mr. Simon, and if they succeed and substitute a man of their own liking, they will have a majority of the board and consequent control of the police force, for George F. Frank, the commissioner elected last year, it is said, was not of Mr. Simon's selection.

To oust Mr. Simon is easier said than done, and those who undertake it will not find their path strewn entirely with roses. First of all, they will have to elect a police commissioner. The city council has called for the election of one, in the face of the fact that the charter makes the present commissioners perpetual officeholders.

To get the pig into the clover patch will be the next task. Voting for a police commissioner is not going him into office—this year. The matter will have to be taken to the courts, and it will have to be demonstrated that it is contrary to the constitution of Oregon to make the tenure of office longer than four years, or that the amendment to the charter making the terms of the present commissioners was illegal or was made by fraud, as has been charged. The Lotan men are prepared and determined to do all these things. They will nominate a police commissioner, and he will be pledged, if he receives a majority of the votes cast, to go into the courts and make a contest for the office. They have not selected their man yet. If the Lotan faction overcome all these obstacles they will have full control of the city government. They may not indeed have as much rolling as they expect. It has been whispered to them that the democrats will nominate a man who will be supported by the Simon republicans and that if elected he will be pledged to make no contest for the place, which would leave Mr. Simon in his chair undisturbed.

WHAT THE TICKET WILL BE.

The city convention, which will meet to-morrow, will be practically a convention of Lotan men. The way it looks now R. H. Schwab will be renominated for councilman in the Second ward and Taylor Woodward in the Third ward. A councilman will also be nominated in the First ward, but who he will be is not known.

A strong effort will be made to elect the nominee in the First ward, particularly if Richard Gerdes the present democratic incumbent is a candidate for re-election. The democrats and the Lotan republicans all want to see Gerdes downed. While Mayor De Lashmutt was in Washington recently some of the councilmen took a notion to remove W. S. Chapman, the superintendent of streets, then a Simon man. They claimed that they had five republican votes, enough, to "down" Mr. Chapman, but they did not desire to take all the blame for the removal on their own shoulders so they offered Gerdes a chance to cast a democratic vote to accomplish the desired end. Gerdes refused to comply, though urged strongly by leading democrats and his Couch precinct constituents and Mr. Chapman still holds his office regardless of the blood that was once on the face of the pale moon.

The democrats wanted to see Chapman removed and they are awfully down on Gerdes for not improving the opportunity he had. Several members of the democratic city central committee are opposed to calling a city convention for this reason. They recognize that the only chance they have to elect a councilman is in the First ward and they are strongly opposed to holding a convention to nominate a man who would not obey the counsels of his party.

THE LOTAN EXPLANATION OF IT.

"The present trouble," said a Lotan man, who is a member of the republican city committee, yesterday, "had its origin in the loss of the control of the city central committee by Mr. Simon last June, the election of a police commissioner not of his selection, and the present effort by him to regain control of the city committee. Knowing well that the committee were not friendly to him and would not renominate him for police commissioner, or any one of his naming, Senator Simon proposed the amendment to the charter making the terms of office of the commissioners perpetual. Notwithstanding this the committee has decided to give the people a chance to elect a commissioner in his stead, who will test the validity of the new charter."

JORDAN WANTS TO BE CHIEF OF POLICE.

"What do you people intend to do in this matter?" asked a reporter of a friend of Mr. Simon yesterday.

"Mr. Simon is not going to take any part in the municipal row this year. He holds that the police commissioners now in office are entitled to their offices until their successors are elected and qualified, and he is not interested in the fight at all. This whole trouble is the result of Thomas A. Jordan's ambition to be chief of police. He and his friends have been making strenuous efforts on the present police board to have him appointed in the place of Chief Parrish, but so far they have not been successful. He has been holding public offices for ten or twelve years, and Mr. Simon has done much for him. Mr. Simon, when in the legislature in 1882, introduced the bill creating the paid fire department, of which Jordan was made chief at a salary of $2000 a year. Jordan's friends were made fire commissioners. In 1884, through Mr. Simon's instrumentality, Jordan received the republican nomination for sheriff; in 1886 he owed his renomination and re-election to Mr. Simon. Fully a year before his second term as sheriff expired he began his efforts to be elected chief of police; but Mr. Simon has been opposed to him, not for any personal reason, but because he did not believe in turning Chief Parrish out of office for the sake of making room for Mr. Jordan. Not long since Mr. Jordan's friends called on Mr. Simon and said they would acquiesce in the new charter if Jordan were appointed chief of police. This proposition was rejected, hence the Lotan men have decided to be avenged.

MORE BUILDINGS, GOING UP.

The following building permits have been issued to the following persons:

To Gilbert & Lee, for the construction of an addition to house for Mr. William Meagher on Fourteenth, between Q and R streets, to cost $900.

To F. W. Raw, for the construction of two cottages for Mr. D. T. Wadington on Seventh and F streets to cost $4000.

To Pfund & Macdonald, for the erection of two cottages for themselves on Twelfth and Madison streets to cost $1200 each.

To George Gardner, for the construction of three one and one-half story cottages on C and Fourteenth streets for Mr. M. McNamara to cost $6300.

To Carl Pfaender, for the construction of a one-story frame house on First, between Clay and Market streets, to cost $250.

To F. A. Marquam, for the construction of a six-story, brick and stone building for himself on Sixth, between Morrison and Alder streets, estimated to cost $225,000.

To E. A. Webster, for the construction of a two-story frame house on Fourteenth, between Jefferson and Columbia streets, for Mr. W. S. Chapman to cost $2000.

To A. Morrison, for the construction of a two-story frame house for Mr. Thomas D. Hammond on B and North Twentieth streets to cost $2500.

SEATTLE AND JOHNSTOWN.

The Committee to Solicit Subscriptions To-Day—The "Oregonian's" Popular Fund—More Money for the Conemaugh Sufferers.

Messrs. Dodd and Corbett, the committee soliciting funds for the Seattle sufferers, did not go out yesterday, their time being taken up with private business. They will, however, devote the entire day to soliciting to-day.

The following is a revised list of the latest subscribers to the two funds:

UNDERWRITERS' INSPECTION BUREAU.

F. H. Porter, the Chief Inspector, in the City—To Lessen Fire Hazard and Minimize Rates.

Yesterday Mr. F. H. Porter, of San Francisco, arrived in Portland en route to Seattle. He left for that city last evening on the 10 o'clock train. Mr. Porter is the chief inspector of the Fire Underwriters' Inspection Bureau of San Francisco. This is an office of great practical benefit to both insurance companies and those who insure.

The duties of the chief are to inspect all buildings, either in course of construction or that have been completed, with special reference to lessening the liabilities of fire and to reduce the danger of its spread when once started. To secure this much desired result, the chief inspector, who has made a most thorough practical study of the matter, offers to builders and architects his advice and suggestions. By closely following such instructions the danger of fires is much reduced, the hazard is decreased, and, as a consequential result, the rates of insurance are brought down to a minimum basis. This bureau was organized in San Francisco in 1885, and has been found to work most admirably.

The following extract from the report of the board of directors of the bureau for 1888, will show the practical working of the system in that city:

That permanent results are obtained is shown by the difference in the character of the changes secured. In 1886, actual fire ordinance violations were 99 per cent. of the changes secured, while in 1888, the percentage was but 74 per cent., quite a portion of which were unused chimneys allowed to remain under the previous ordinance.

The effect of continual inspection is also shown by the diminution of fires from causes preventable by inspection, as per table appended. During the years given, the number of building districts increased over 10 per cent., adding seriously to the opportunity for fires.

In 1883 preventable fires were 41 per cent. of the whole number, 1884, 37 per cent., 1885, 29 per cent., 1886, 23 per cent., 1887, 21 per cent., 1888, 18 per cent.

The work of the inspection bureau is now well established, and the occupants of buildings have become accustomed to the visits of our surveyors, changes are more easily secured.

While there are spots which even a daily inspection would not make secure, the general improvement is very marked, and there can be no doubt that the regular visits of our surveyors have an excellent effect, even where no complaints are found.

No additional expense results to builders, to those who may wish to insure, or to the individual insurance company. The salary of the chief inspector is paid exclusively by the bureau, and all his suggestions, advice, etc., are given gratis. This is the purpose of Mr. Porter's present visit to Seattle. As the "burned district" is soon to be rebuilt, it was thought to be a most fitting time for the chief inspector to go over there. He will be pleased to furnish architects, contractors, builders, property owners, etc., such suggestions, free of cost, as will greatly tend to lessen the hazard of fire, and to minimize the rates of insurance.

Mr. Porter will probably remain in Seattle two or three weeks. On his return he will stop at Portland and hold a consultation with the various

ALAS! POOR RICHARD GERDES

The Democrats Decide Not to Hold a Convention to Nominate Him.

The Republicans Will Probably Nominate D. P. Thompson or Richard Everding for Police Commissioner.

Last evening the republicans held their primaries. There was only one ticket in the field, the Lotan ticket, and it was elected unanimously. Mr. Lotan was out in his buggy and visited all three of the polling places to see how affairs were drifting. When he reached the third ward he told the boys gathered about the polls that he had seen no signs of the enemy. There was nothing to fear, for the other side had decided to make no showing. If they had come out, they would have found their opponents in the field in large numbers. In all, 1085 votes were cast in the three wards—334 in the first, 339 in the second, and 412 in the third. That was pretty good for a one-sided affair.

Street Superintendent W. S. Chapman was one of those seen putting in his best licks for the ticket in the third ward. It had been supposed right along that he belonged to the other crowd.

"What is 'Win' doing at your picnics?" asked a reporter of a Lotan man.

"H-u-s-h—Win is with us now?"

"On your side of the house is he?"

"Yes, he wanted to be with the winning side, and so we took him in."

It was learned from authentic sources last night that either Hon. D. P. Thompson or Richard Everding would be the nominee for police commissioner, with the chances in favor of the former. Either, if elected, will make a hot contest for the office. That is just the kind of a man wanted by the convention that will meet to-morrow.

THE FIRST WARD COUNCILMAN.

The nominee for councilman in the first ward will be M. D. Wakeman, superintendent of the Oregon Transfer Company. He can have the nomination if he will take it, and unless something happens to mar the programme between now and the time the convention meets to-morrow afternoon, he will be the man. Mr. Wakeman will receive not only the voting strength of the republicans in the first ward but that of the democrats as well. The democrats are determined to defeat Gerdes if he is a candidate for re-election. Some prominent democrats of that ward told the republicans to put up a good man and they would vote for him. They are satisfied with Mr. Wakeman.

THE DELEGATES ELECTED.

Following is a full list of the delegates elected:

First ward—George L. Story, W. T. Hume, G. Castenlleck, E. L. Woodward, M. A. Hoyt, A. E. Coffee, S. F. Schwab, John Wagner, T. J. Johnston, M. R. Wakeman, P. Thumsnider.

Second ward—D. P. Thompson, D. W. Wakefield, S. Farrell, R. Morgan, A. Farrar, F. Hanssow, R. H. Schwab, W. L. Jeffe, E. W. Corbett.

Third ward—H. H. Northup, W. Fliedner, J. C. Ogg, John Muir, F. Hackeney, R. Everding, H. D. Gratton, C. S. Bobelhower, John Dudley, James Fridley, J. C. Moreland, J. F. Watson, R. L. Durham.

THE DEMOCRATS WILL REST OUT.

The democratic city central committee met last night, Dr. H. Hicks presiding, six of the seven members present, and unanimously agreed not to issue a call for a city convention this year.

"We discussed the political situation in the city in all its phases," said a prominent member of the committee after the adjournment of the meeting. "We see that we have no chance of success, with the possible exception of the First ward, and we have but a slim show there, so we decided to keep out of the fight this year. If we held a convention, Gerdes would probably be renominated for councilman from the First ward and we don't want to have such a thing come to pass. Gerdes is not a democrat. He has been selling with a certain wing of the republican party and we think it is about time for us to disavow him."

WILL THERE BE A CITIZENS' TICKET?

It was whispered yesterday that there will be a citizens' ticket in the field Monday. The slate was being made up by a prominent democratic politician who has held several offices. The make-up of the ticket is said to be as follows:

Police commissioner, Theodore Wygant. Councilmen—First ward, Richard Gerdes; Second ward, W. A. Scoggin; Third ward, Dr. W. H. Taylor.

This is said to be the Simon ticket. The police commissioner, if elected, is to make no contest for the office.

CALL FOR A CONVENTION.

At 12 o'clock last night, Ben L. Norden and Councilman Gerdes called at THE OREGONIAN office and left a call for democratic primaries this evening, to elect delegates to a city convention, to be held at the court house, to-morrow evening. The call was signed "By order of the Democratic City Committee." Dr. H. Hicks, the chairman of the committee was in the office, two hours later, and stated emphatically that the democratic city committee had decided not to call a city convention. Whether the call published this morning was authorized by the city committee remains to be seen.

HONOR TO WHOM HONOR IS DUE.

TO THE EDITOR OF THE OREGONIAN:

In your issue of the 13th inst. appears a copy of a telegram under date of June 8 from an Eastern firm, tendering relief to the Seattle sufferers. Now I wish to champion the cause of another Eastern house which I believe is the first one east of the Rocky Mountains that came to the relief of our unfortunate sister city, and one, who I in my humble way have the honor to represent in the Northwest. The following copy of telegram explains itself:

"CINCINNATI, Ohio, June 7, 1889.

Z. T. Wright, Portland, Or. If Seattle sufferers need assistance furnish Bloom $25, charge us.

THE A. M. LOUPH CO."

It is not necessary to mention that they are the leading foundry machinery manufacturers of any other Eastern house was ahead of them in thinking of their Western friends I will quietly make my bow. Truly yours, Z. T. WRIGHT.

BRIEF MENTION.

Pleasure boats for rent, at Stark street.

Go to H. Blasheimer, No. 214 First street, for the best pianos and organs. He carries only the standard instruments, such as Steinway & Sons and other pianos, Burdett and Story and Clark organs, the best in the world. Easy payments.

Everybody passing up Morrison street, one of the main thoroughfares of the city, stops to admire the fine organ displayed in the windows of The Kohler & Chase Music House, at No. 71. This is the largest music house in the Northwest, and it can be stated here that they handle the A. B. Chase organ and the matchless Decker Brother's piano. Churches particularly should examine the Chase organ before purchasing.

NEW SEASON'S STYLES.

Carpets, curtains, portieres, shades, etc. H. F. Gullixson & Co., 104 Third St., Abington building.

Wanted—A first-class broiler and short order cook; good wages. Apply at once at Freimann's restaurant, corner of First and Oak.

Pullman reservations made for all points East via the Northern Pacific Railroad. Office, No. 121 First St., corner Washington.

ROYAL BAKING POWDER
ABSOLUTELY PURE.

For quick raising, the Royal Baking Powder is superior to all other leavening agents. It is absolutely pure and wholesome and of the highest leavening power. It is always uniform in strength and quality and never fails to make light, sweet, most palatable and nutritive food. Bread, biscuits, muffins, cake, etc., raised with Royal Baking Powder may be eaten hot without distressing results to the most delicate digestive organs. It will keep in any climate without deterioration.

Prof. H. A. Mott, U. S. Government Chemist, after examining officially the principal baking powders of the country, reported:

"The Royal Baking Powder is absolutely pure, for I have so found it in many tests made both for that company and the United States Government.

"Because of the facilities that company have for obtaining perfectly pure cream of tartar, and for other reasons dependent upon the proper proportions of the same, and the method of its preparation, the Royal Baking Powder is undoubtedly the purest and most reliable baking powder offered to the public.

"DR. HENRY A. MOTT, PH. D."
